FIRST FLUTE SYMPOSIUM A RESOUNDING SUCCESS

Doris Tallon, Assistant to the President, greets a participant from the province of Quebec to the Flute Symposium.

William Bennett listens attentively to student at the Master Class he conducted during the flute symposium.

The First International Flute Symposium was held in the Lecture Theatre at the North Campus on Saturday, March 28, 1981.

"Brain-child" of College President, Gordon Wragg, the one-day symposium featured William Bennett, internationally acclaimed flute virtuoso. Mr. Bennett conducted a master class at the symposium and performed at the finale recital.

William Bennett, who made his first Toronto appearance at Humber, is England's premier flutist and is truly unique for his ability to retain a sheer natural beauty of phrasing and tone along with a dazzling technical virtuosity. He integrates the concept of using subtle shades of tone colour, varied vibrato and tone inflection with a rich and sonorous sound to create a flute tone unparalleled by any of his contemporaries. Formerly principal flutist with the London (England)

Symphony Orchestra, Mr. Bennett now plays with the England Chamber Orchestra and the Academy of St. Martin-in-the-Field.

In addition to the Bennett Master Class, two others were available, Jean Baxtresser, Principal Flute with the Toronto Symphony Orchestra, conducted a class on "Developing Musical Expression Through Recital Pieces" and Nora Schulman, Assistant Principal Flute with the Toronto Symphony, dealt with "Tone Production and Breathing".

Accompanied by Clifford Benson, well known solo pianist and chamber music player, Mr. Bennett performed the Bach Sonata in E. Minor, Prokofieff Sonata, Poulenc Sonata and the Roussel Andante et Scherzo. The recital ended with Boehm's Grand Polonaise.

According to the President's Office, the event was most successful . . . successful enough, perhaps, for a repeat performance next year!

Peter Muller addresses group at recent Ontario Council of Teachers of English Conference.

OCTE CONFERENCE MEETS AT HUMBER

The second OCTE (Ontario Council of Teachers of English) Conference on Computers in the Teaching of English was held at the North Campus at the end of February.

The one-day conference included sessions on "English on Microcomputers," "Telidon in Education," "Running a Full Course in English," "Future Directions," and "Can 8: A Computer System for English."

Peter Muller, Teaching Master in the Human Studies Division, welcomed the group to Humber and co-chaired, with Ted Davies, the session on "Running a Full Course in English."

MANY NEW APPOINTMENTS

Fred Courtney

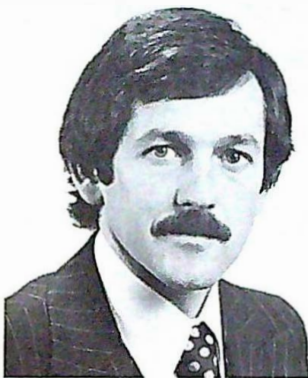

Joan Girvan

Dave Haddon

John Liphardt, Dean of Business, now has three new Chairmen to help him run the busy Division. They are: Fred Courtney, Chairman of Computer Studies; Joan Girvan, Chairman of Secretarial Studies and Word Processing and Dave Haddon, Chairman of Accounting, Marketing and Retailing.

Congratulations are also in order for Ian Smith, Associate Registrar and Director of Admissions, who was recently appointed Chairman of the Provincial Registrar's Committee and also to Rick Bendera, Director of Athletics and Leisure Education, who was elected President of the Ontario Colleges Athletic Association. All positions/appointments are effective immediately.

Ian Smith

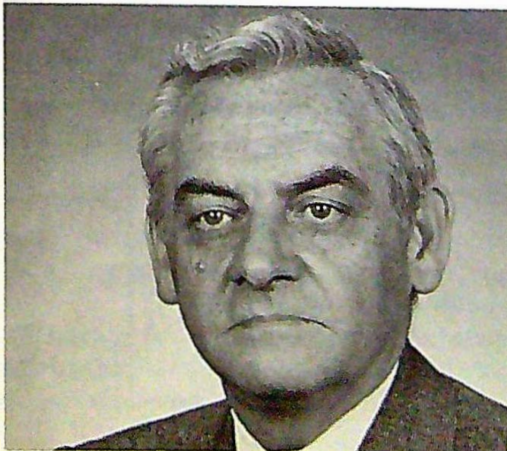

WALLACE ASSIGNED NEW POST

John Wallace, Director of the Employee Benefits Centre at Humber, was recently appointed by the Council of Regents as their representative on the Joint Insurance Committee and the Pension Consultative Committee.

John, who has been involved in the employee benefits field for much of his professional life, came to Humber in the summer of 1980 from Royal Trust where he was Manager of the Corporate Development and Pension Trust Department.

A graduate of the University of Toronto, John did post graduate work at the University of Waterloo, York, and the University of Michigan.

Congratulations, John!

John Wallace

OUTDOOR ED.

The Athletics, Recreation and Leisure Education Department at Humber's North Campus is offering a new Outdoor Education Certificate Program especially designed for those involved in outdoor education.

The program will act as an umbrella for a wide variety of courses aimed at providing the educator with an opportunity to develop professionally and will appeal to teachers of science, geography, and physical education as well as personnel from summer camps, members of the Scouting and Girl Guides Organizations, hunters and fishermen.

Although the Outdoor Education Certificate Program affords the opportunity to engage in professional upgrading, it is in no way intended to be a licensing tool since that is controlled by individual employers.

Students will be able to choose from wilderness emergency care, backpacking, ornithology, rock climbing, survival simulation, winter and canoe camping.

According to Rick Bendera, Director of Athletics, Recreation and Leisure Education, there were exciting courses planned for this past spring's registration.

"We offered workshops in buckskin coat-making, edible plants, and nature photography. There was also a bicycle workshop and canoe trips in August," he said recently.

Specific and detailed information about the certificate program is available and those staff interested are asked to call Rick Bendera at the North Campus, ext. 217.

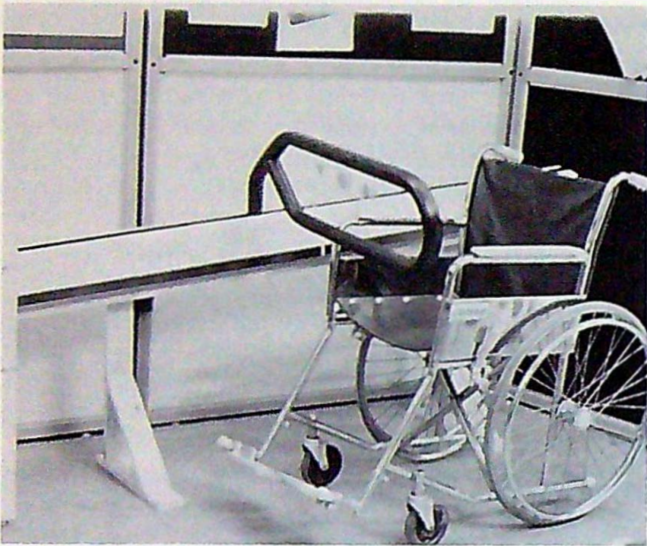

TIMELY DESIGNS BY TWO STUDENTS

Two enterprising students in the Furniture and Product Design Program have come up with timely thesis projects - this being the Year of the Disabled.

Paul Munro of Etobicoke built what he calls a Ramp-Aid: an elevating device to be used in public buildings to make them more accessible to the disabled.

"I wanted to fill a need and not just design a standard consumer product and I realized that there were architectural barriers for people confined to wheelchairs," he said recently in an interview.

"The Ramp-Aid does not interfere with regular flow of traffic and the disabled person requires no assistance to operate the device," he added. "Basically, it works on a tow-bar principle. I tested it on the ramps here at the College where it's being stored."

Paul, 24, graduated from the Furniture and Product Design Program in June and is currently employed with Curvply Ltd. in Orono, Ontario as a furniture designer.

Marc-Andre Vien of Rexdale designed a multi-purpose lap tray to be fitted to a wheelchair. Marc-Andre is also a recent graduate of the Furniture and Product Design Program.

DESIGN STUDENTS WIN COMPETITION

Marek's students have done it again!

Two walked off with impressive prizes at the 1981 Institute of Business Designers Student Competition held in late April in Lexington, Kentucky. First prize in the regional competition and second prize in the finals went to Georges Foliot, a student enrolled in the third year of Humber's Interior Design Program and First Honourable Mention was picked up by Linda D'Aguilar, also in the third year program.

The competition is divided into regions: Eastern, Mid-Western and Western, and the first and second prize winners from the three regions are eligible to participate in the second stage finals in Chicago in June.

The competition was open to all college/university/technical school students majoring in Interior Design throughout North America.

Igor Sokur (left), Coordinator of the Hospitality Management Studies Program, poses with award-winning students Gabrielle Waddell (centre) and Mike Kois (right).

HOSPITALITY STUDENTS CHOSEN AS OUTSTANDING

Igor Sokur, Coordinator of the Hospitality Management Studies Program, is pleased to announce that at the March meeting of the Canadian Food Service Executives Association, two Humber Hospitality Management Studies students received awards for outstanding leadership, professionalism and academic achievements.

Mike Kois was awarded the Gold Plate Award 1981, established for the CFSEA by CARA Foods Ltd., for the leadership qualities he displayed while he was president of the student chapter of the CFSEA.

Gabrielle Waddell received the CFSEA Bursary Award for top academic achievement in the Program.

Congratulations Mike, Gabrielle... and Igor!!!

MANY ATTEND DESIGN DISPLAY

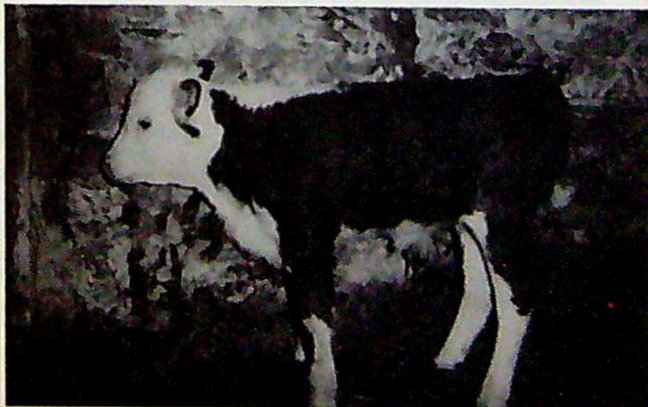

First, second and third year students enrolled in the Interior Design Program held an Open House at the North Campus at the beginning of May to display their projects.

Among the works exhibited were two and three dimensional drawings, floor plans, elevations and space planning renderings of sections of the new part of the Royal Ontario Museum and the layout and design of a new shopping mall. In addition, there were several restorations of architecturally significant buildings in Canada and the design of a small private art gallery which included display areas, offices, a reception hall and cafeteria.

Marek Pain, Coordinator of the Interior Design Program, feels that the projects were interesting and innovative and a good indicator of the many talents of his students.

POT POURRI . . .

The TECHNOLOGY DIVISION, together with CONFERENCES AND SEMINAR SERVICES, ran an Occupational Health Seminar for employees of the British Columbia Government in Vancouver. JIM MONTGOMERY, faculty member in the Technology Division, was the principal lecturer . . . JOHN PARSONAGE, Director of the Technology and Skills Centre of the Professional Services Organization (formerly T.I.B.I.), recently conducted a custom designed slide/sound course in Electronics for Moore Business Forms of Chicago . . . and along with MIKE LAKE and JIM HARDY, faculty members of the Technology Division, helped to conduct micro-computer seminars for a large multi-national manufacturer . . . a training manual, prepared by DON FOSTER, PAUL FARIS and JOHN FINN of the Funeral Service Education Program, entitled "Guidelines for Employers of Second Year Students," has been distributed to funeral homes throughout Ontario . . . PAUL PIEPER of the Health Sciences Division is writing a Teacher's Manual on Human Sexuality. . . JOAN MILLER, Coordinator of the Pharmacy Assistant Program, is working on a project concerning the use of computers in the delivery of pharmacy services . . . plans for "OPEN HOUSE" are well underway for the coming academic year. HUMBER HAPPENINGS will keep you posted as they are finalized . . . the AFFIRMATIVE ACTION series entitled "Shining Up Your Image" conducted by NORMA DECASTRO of Health Science was a tremendous success! Thank you Norma . . . Robin Bell, first year student in the EQUINE STUDIES PROGRAM, qualified for the Division Two-Walk Trot at the National Finals recently . . . HUMBER COLLEGE was well represented at the Toronto Craft Suppliers Showcase in Spring. DOROTHY LARKE demonstrated Japanese Bunka Punch; TUTZI SEQUIN presented a multi-media workshop in printmaking, enamel and glass fusion; and ANTHONY HOSTEVECKY was on hand to discuss and demonstrate calligraphy . . . JOE GAUCI and JOHN ARMSTRONG were elected president and vice-president (respectively) of the Students Association Council for the 1981-82 school year . . . C.H.O.I.C.E.S. (Computerized Heuristic Occupational Information and Career Exploration System), an interactive career search tool, is now available through COUNSELLING SERVICES . . . next issue of HUMBER HAPPENINGS will be out just before the Christmas break. Enjoy the Fall!!!!

Introducing the latest addition to Travel and Tourism instructor Ralph Ransom's stable . . . Ralph the Bull.

MANY PARTICIPATE IN OUR EXPOTECH

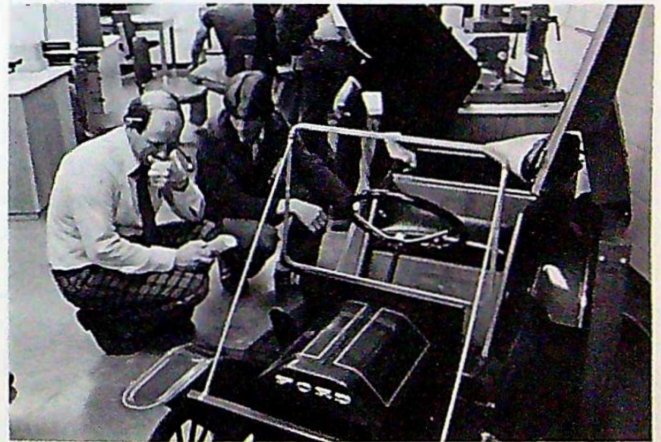

Expotech '81 drew students from across Ontario.

The 5th annual Expotech '81 exhibition was held at the North Campus in mid-May.

Designed to give technically oriented students the opportunity to demonstrate their technical abilities and to compete with other students for awards and prizes, Expotech '81 was entered by individuals and groups of Ontario Secondary School students.

Five categories were open for competition: Architectural Civil Construction and Surveying Technology; Mechanical, Industrial and Manufacturing Processes Technology; Electrical and Electronic Technology; Chemical, Ecological, Environmental, Resource, Safety and Occupational Health Technology; and Industrial Arts.

Judges examine entry at Expotech '81.

All entries were judged on the complexity of each project, technical principles involved, progress reports, performance, workmanship and method of presentation. An additional requirement was that each entry must clearly demonstrate the application and use of existing technology and its principles.

Among those who submitted projects this year were Leaside High School, Prince Edward Collegiate Institute, Hillcrest High School, Cosburn Junior High, Ottawa Technical School and Bramalea Secondary School.

The Technology Division, and especially Ernie Horney and staff, have consistently done a fine job of organizing Expotech and they all deserve our applause and congratulations.

PLACEMENT UP

Martha Casson

Government sponsorship of certificate programs at Humber College has paid off for hundreds of students now working at their new professions.

The 1979-1980 Humber College Placement Report, which covers the period between November 19, 1979 and November 30, 1980, shows some impressive numbers for short certificate programs. The technical programs have 82.9% of the graduates employed full-time in related positions with .3% employed part-time in fields related to their studies. The salaries range from \$9,500 to \$21,000 with a median of \$14,500. Eight and a half percent are employed in unrelated fields with 8.2% still looking.

The Commercial Programs boast 84.6% employed in related fields with 5.7% employed part-time in related fields. Of the remaining 9.6%, 6.3% are employed in unrelated fields and 3.3% are unemployed. Because students graduate weekly, there will always be some who are unemployed or just beginning the job search.

Seven of the Short Certificate Programs have more than 95% placement. These programs are Automatic Machining, Drafting Refresher Course, Computer Programming, Teller/Cashier, Floor Covering Installation, and Industrial Maintenance Mechanic.

The Humber Placement Office tracks each student who graduates and assists them by helping them with resumes, job search workshops, employment counselling, and job referral. According to Martha Casson, Director of Placement Services, thorough records are kept documenting employment facts such as employer, position, date obtained, and salary. In addition, Humber supplied Manpower with a monthly report on the placement of all Canada Employment and Insurance Commission sponsored graduates.

LITERARY SERIES

The successful series of Literary Readings, hosted by Ben Labovitch at Humber's Lakeshore One Campus, came to a close in grand style with two well-known, respected Canadian writers/poets doing the honours.

Timothy Findley, winner of the City of Toronto Book Award and of the Governor-General's Award for his novel "The Wars" was featured speaker in March.

In addition to the award winning novel, Mr. Findley also wrote "The Last of the Crazy People," "The Butterfly Plague" and "Can You See Me Yet?" which was produced by Humber Theatre as their last main-stage production this year.

In April, Al Purdy, author of "Poems for all the Annettes," "Sex and Death," "Sun Dance at Dusk" and "The Stone Bird" read some of his favourite poems.

Mr. Purdy's works have been published in the Tamarack Review, Canadian Forum, Fiddlehead, Prism International and many others and he is the winner of the President's Medal (University of Western Ontario 1964), the Governor-General's Award in 1966 and the Centennial Medal in 1967.

The series, this year, was an especially successful one—thanks to the efforts of Ben Labovitch. Here's hoping for more of the same next September!

Ben Labovitch

TEN YEAR PINS AWARDED SOON

It's time again to honour those who have given Humber College ten years of loyal service.

The following list represents those staffers who have been employed at the college from January 1, 1970 to December 31, 1980.

Delphine Anderson	Robert McFadzean
Margaret Antonides	Mollie McMurrich
Gary Bannister	Tony Manzo
Iva Barnard	Eleanor Matthews
Bill Bedford	Robert Morris
Rick Bendera	Win Morris
Clark Boyd	Robert Nash
Betty Butterfield	Bill Obelnicki
Dave Chesterton	Marek Pain
Hazel Chuck	Kitty Pote
Kathy Coupland	Mary Lou Rashid
Patricia Fearon	Antonio Rubino
Cynthia Graham	Diane Scanlan
Stewart Hall	Connie Sebris
Steve Harrington	George Stephen
Marianne Hinchliffe	Herman Suligoj
Bill Hlibka	Lillian Towart
Ernest Horney	Margaret Trott
Ivan Husarewych	Mike Truszyk
Edith Johnston	Ed Vokurka
Bill Jones	Moe Wanamaker
Terry Joy	Bud Watson
Margaret Kehoe	Beverley Wilkin
Mike Lancelotte	Peter Williamson
Al MacDonald	Frank Willock
John McCormack	Emilia Zwarycz

Ten Year Pins were presented at the annual President's Breakfast on September 2nd, 1981.

Congratulations to all! (Photos on next 4 pages.)

OUR CANDID CAMERA....

Valerie Cochrane gets set to share some Easter Bunny cake with eager youngsters at the Easter Party in the Day Care Centre.

Kelly Jenkins, Learning Resource Centre, (left of centre), presides over the sale of books at the recent Book Fair which raised \$590.60 for the St. Vincent Educational Fund.

Jim Davison (left), Vice-President Administrative, presents Al Picard (right) with a parting gift at Al's farewell reception.

An overview of the scene in the concourse during a recently successful Blood Donors Clinic.

College President, Gordon Wragg (centre) and Rick Hook, Dean of Applied Arts (left), chat with John Parkes (right), Editor of the Etobicoke Guardian, at the recent press reception introducing Humber's new Chef de Partie Program.

Frann Harris, Managing Editor of College Canada Magazine, addresses the Affirmative Action group.

Students being interviewed about their reactions to life at Humber College in the concourse at the North Campus.

John Boyd, educator and humanist, discusses "The New Age and The New Society" at a recent President's Book Club session.

Tony Mergel (seated in background), staff member in the Music Department, had unexpected visitors at one of his band rehearsals. Seems that Day Care youngsters touring the college just couldn't resist the big band sound.

Art Knowles, Continuing and Community Education, mans the projectors at the recent conference on teleconferencing which he organized.

Well-known Toronto musician, Rob McConnell, recently held an improvisation clinic for Music students at the North Campus.

HUMBER GRADUATES 2300

Over 2300 students graduate when Convocation exercises were held at Humber College this past June.

One hundred and four students graduated from programs and courses at the Lakeshore One Campus and ceremonies for all other academic divisions at the College were held in the gymnasium at the North Campus.

The Creative and Communication Arts Division graduated 225 and 235 graduated from programs in the Technology Division.

The Business Division was able to boast the largest number of graduates this year. An impressive 609 graduated in courses such as Business Administration, Marketing and Computer Programming.

Five hundred and forty-nine students graduated when the Applied Arts Division held Convocation exercises and 607 received diplomas/certificates from programs in the Health Sciences Division.

A special commendation to all those who worked so diligently to make the week-long event the success that it was.

Record crowds attended Humber's largest 1981 convocation exercises.

Bram Smith, Music Program Coordinator, conducted Humber music students at convocation this year.

June 9th marked a first for Humber College when nine people received certificates in Labour Studies from the Centre for Labour Studies at the North Campus. The graduates, who represented seven unions, worked evenings and weekends for as long as five years to complete their studies.

The different unions represented were the Ontario Nurses Association, the Ontario Public Service Employees Union, the Service Employees International of Railway and Transport Workers and the United Steelworkers of America.

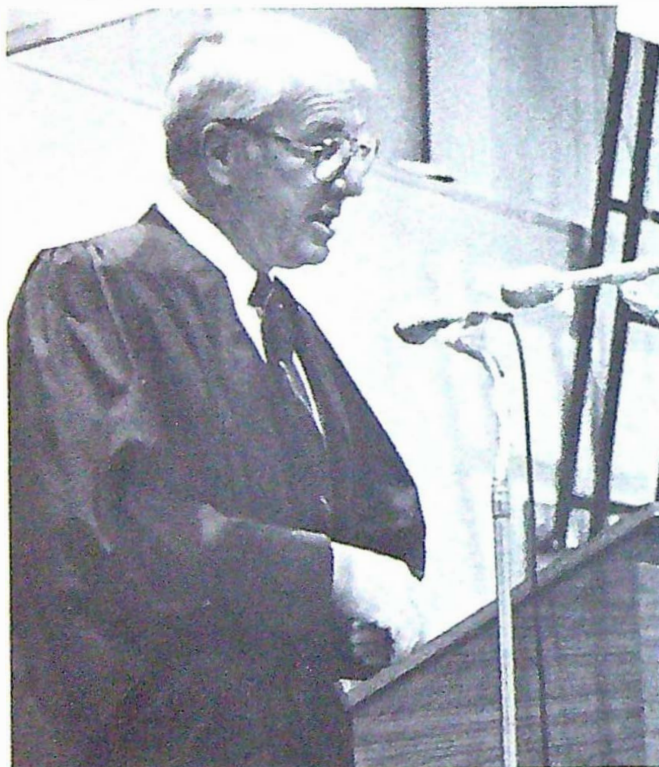

One of the highlights of the ceremony that evening was the presenting of Honorary Certificates to Wally Majesky, President of the Labour Council of

Metropolitan Toronto and Chairman of the Advisory Committee of the Centre for Labour Studies and to Arnold Gould, President of the Canadian Union of Postal Workers Local 1 and a member of the Humber College Board of Governors.

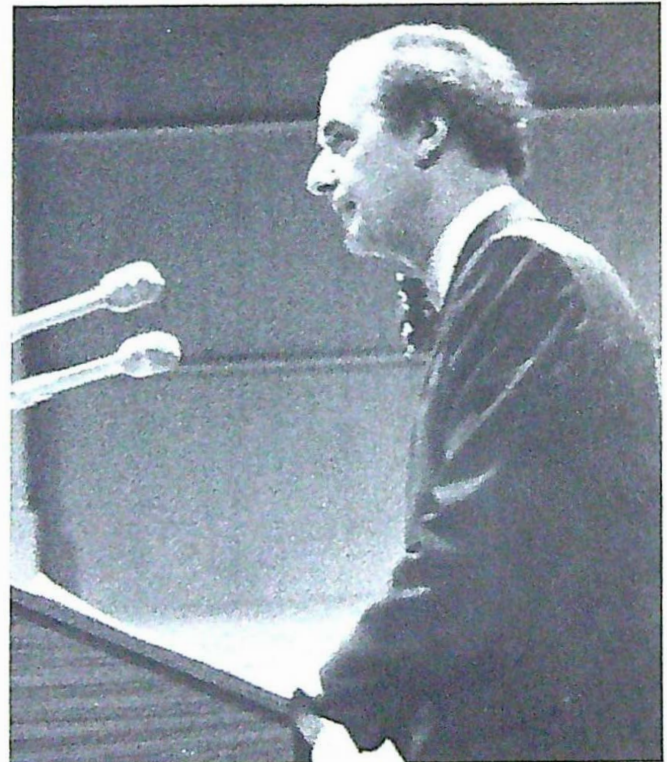

The Centre for Labour Studies is unique in its attempt to develop educational credit and non-credit programs designed to strengthen democratic processes in unions, as well as to provide participants with the knowledge, skills and attitudes that will help them as trade unionists. The program began in 1975 and has had more than 3000 trade unionists and members of the general public participate in its activities.

Arnold Gould, member of the board of Directors and president of the Canadian Union of Postal Workers local 1, gets honorary Certificate in Labour Studies.

William Hawkins, former Vice-President and General Manager of the Sales Division of the Ford Motor Company speaking to the 1981 Business Graduates.

Dr. James Parr, Chairman of the Ontario Educational Communications Authority was the guest speaker at Creative and Communication Arts Convocation.

HONORARY EDUCATOR AWARD

Students graduating from health related programs and courses during Convocation week, weren't the only ones being honoured.

The Health Sciences Division conferred an Honorary Educator Award to Sister Janet, recently retired Executive Director of St. Joseph's Hospital in Toronto, for her significant contribution to the Registered Nursing and Registered Nursing Assistant Programs at Humber.

Sister Janet, a member of the Sisters of St. Joseph's religious order at Morrow Park in Toronto, held her post at St. Joseph's Hospital since 1968 and retired in 1980. Currently Chairman of the Health Services Planning Committee, Sister Janet was actively involved with the community college take-over of nursing programs and still serves in an advisory/consultant capacity for Humber's Nursing Department.

Jocelyn Hezekiah, Chairman in the Health Sciences Division, presented Sister Janet with an engraved plaque.

Jocelyn Hezekiah, Health Sciences, presents Sister Janet an Honorary Educator Award for her contribution to the Nursing Programs at Humber.

MOMENTS OF SADNESS & JOY

Graduates watch anxiously as their colleagues receive diplomas and certificates for their studies in Applied Arts.

Bob Higgins and Jim Montgomery preside over the Enjoining Ceremony at Technology Commencement.

SECOND ELDERHOSTEL TREMENDOUS SUCCESS

Once again, this summer, Humber College took part in the exciting and innovative "Elderhostel" concept of education.

Elderhostel began in 1975 in Boston and was founded by Martin Knowlton. Originally sponsored by five New England colleges, Elderhostel is now a network of over 400 colleges and universities in 50 states, Canada, Great Britain, Denmark, Sweden, Finland and Norway which offer special low-cost, short-term residential academic programs for elders.

The only requirement for Elderhostel is that each student be at least 60 years old, but it is also open to those whose spouses or companions qualify. Students sign up for a week at a college or university of their choice where they not only have the intellectual stimulation of the courses, but the enjoyment of college facilities, recreational activities, parties, and best of all, no exams. Many participants sign up for more than one program and travel throughout the U.S. and Canada from school to school. Courses are taught by regular faculty

members of the host institution and in most instances, the courses do not require previous knowledge of the subject. All students stay in dormitories in true hosteling fashion, and eat their meals in school cafeterias with other summer students of all ages.

This summer's Elderhostel program at Humber offered courses that were both timely and appealing. "Folklore-Ritual and Romance," "Non-Verbal Communication," and "The Jazz World" were presented from August 9th to the 15th. "Living With Computers" replaced the Folklore course for the week of August 16th to the 22nd.

Elderhostel provided participants with a unique opportunity for travel, education, exposure to stimulating ideas and meeting new friends. Who could ask for a better way of broadening one's horizons?

TRAN FAMILY IN NEW HOME

On Friday, February 27th, Mrs. Anne Wragg delivered a final report on the Tran Family's first year in Canada, and members of the Operation Lifeline Committee gathered in the Board Room to celebrate this successful human endeavour.

For those of you who are new to Humber, the Trans are the Vietnamese family who were adopted by Humber College. They came to Canada in February 1980 and stayed for a time with Mr. and Mrs. Wragg.

The family of four, consisting of the father, Quang; the mother, Phuong; baby Lap; and Phuong's brother, Ming, adjusted to the new environment so efficiently that they are now settled in their own apartment.

Members of the Operation Lifeline Committee gather to celebrate the Trans' first year in Canada.

Group of seniors at the Art Display in the concourse.

MANY SENIORS EXHIBIT ART

The concourse area at the North Campus was turned into an art gallery this past spring.

An art display, featuring the works of senior citizens enrolled in painting classes offered by the Continuing Education Department through a Community Outreach Program, was held at the end of April.

The one-day exhibition included watercolours, oils and acrylics as well as pencil and charcoal sketches.

The artists were pleased with this opportunity to display their creative endeavours and were delighted to be able to discuss their works of art with Humber staffers, students and members of the community.

WIDE RANGE OF ACTIVITIES MAKE SUMMER EVENTFUL

Pottery class at the North Campus

The summer was a busy one at Humber this year . . . the reason being the terrific courses that were open for registration.

For starters, the Theatre Arts Department offered a series of classes/clinics in acting, mime and choreography for those interested in the performing arts.

Basic Acting Techniques and an Acting Clinic, taught by William Davis, included sessions on improvisation, acting exercises, scene rehearsals, creative development and teaching practice.

Joy Lowry, choreographer, held classes in Choreography - teaching dance techniques, applied techniques and the creative application of dance steps. Mime Techniques were taught by master mime, Adrian Pecknold.

There was also the nine-week Cosmetics Certificate Program which was offered for the first time.

Designed to give those enrolled a broad knowledge of

Humber sailing in Toronto Bay

make-up, cosmetics, skin, nail and hair care, the program trained students to work in the marketing and sales areas of the cosmetics industry. While classes were designed to inform and not to license the students as registered beauticians, instructions were given in the techniques of simple facials, manicures and other beauty treatments.

For the outdoorsy types, Humber's sailing courses were just the ticket. The variety and start dates were designed to suit everyone from beginner to expert at the beginning, middle and end of summer.

Those interested in arts and crafts weren't disappointed either. Classes in pottery, wheel-throwing, raku, oriental brush-painting, stoneware and porcelain, glassblowing and a workshop designed to help develop the imagination and heighten each individual's creative potential began in June and July.

Quite a summer offering!

Theatre Arts students preparing for production

Dance and choreography

COMPUTER ERA HERE TO STAY

Living in the Information Society is the title of an exciting, informative and timely new series of lectures being sponsored by Humber College beginning in September 1981.

Microelectronics and computers are having a profound effect on business, industry, home management, health care and education. This innovative year-long series of discussions with leading thinkers on the issue will help those attending to prepare for and better understand what is being heralded as "The Information Society."

The series begins on September 23rd, with Gordon Thompson, Manager of Communication Studies for Bell Northern Research, Ottawa, addressing the issue "Living in the Information Society." Few people in our society are as well informed as Mr. Thompson about the origins and direction of micro-electronics. In addition, Mr. Thompson has the unique talent of making such complex information fun and easy to understand.

The second lecture in the series will be delivered by David Godfrey, novelist, short story writer, publisher, critic and Chairman of the Department of Creative Writing at the University of Victoria. Professor Godfrey is very much involved in the educational applications of TELIDON and will speak about "Language and Learning in the Information Society" on October 21st.

On November 25th, Dominic Covvey, Senior Research Fellow, Ontario Heart Foundation and Director of Cardiovascular Computing at the Toronto General Hospital will speak about "Health Care and Medicine in the Information Society." Mr. Covvey is an articulate contributor to the public discussion about the capabilities and limitations of computers in medicine.

First on the agenda of speakers in the new year will be Richard Hill, Chairman of the Photo/Electric Arts Department at the Ontario College of Art in Toronto. Mr. Hill will discuss "Cultural Preparations for the Information Society" on January 20, 1982 and on February 17th, Sterling Beckwith will speak about "Art and Creativity in the Information Society."

Sterling Beckwith, Professor of Music and Humanities at York University in Toronto, is currently developing plans for a new centre for the use of computers in film, graphic arts, music and dance.

On March 17th, "Growing up in the Information Society" will be discussed by Dennis Sullivan, Director of Programming, Computer Software Department, Childrens' Television Workshop in New York. As a developer of computer activities for children over the last ten years, Mr. Sullivan has had a unique opportunity to see how they respond to and use the powerful electronic toys and tools.

Closing the series on April 21st, will be Harry Boyle, former Chairman of the Canadian Radio and Television Commission. Mr. Boyle, an expert in print, broadcast and microelectronic communications media, internationally known lecturer, journalist and writer, will speak about "EVERYMAN in the Information Society."

Organizers of the series, Peter Muller of the Human Studies Division and Renate Krakauer of Humber's York-Eglinton Centre, expect that the sessions will prove to be not only thought-provoking but instructive as well.

For further information about attending the series, please contact Peter at the North Campus, ext. 361 or Renate at 781-5625.

LAST PRODUCTION A BIG HIT

Lori Young, a 1981 graduate of Humber's Theatre Arts Program, played the lead role of Cassandra in "Can You See Me Yet?"

Humber Theatre presented its last main-stage production for the past academic year both at the North Campus and at the Adelaide Court Theatre in Mid-April.

Timothy Findley's moving portrayal of an anguished young woman's search for self, "Can You See Me Yet?" was directed by William Davis, faculty member in the Theatre Arts Department.

The action of the play is set in an asylum for the insane in the late summer of 1938 in a small Southern Ontario

town.

Lori Young, a third year Theatre Arts student, starred in the lead role as Cass. Her male co-star was Patric Mazurkevitch, enrolled in the second year of the same program.

Incidentally, Mr. Findley, the playwright, was also a guest poet/writer at the Literary Reading Series held at the Lakeshore Campus this past year.

MONTGOMERY GOES ONE STEP BEYOND

We may all know Jim Montgomery as the Senior Program Coordinator of the Industrial Mechanical Technology Program at Humber's North Campus, but few of us know that Jim is also active in model building. And in this area, his reputation is such that he was recently approached by a couple of high school and university students in Georgetown who wanted him to build a model space-craft for a full-length super 8 science fiction movie entitled "Europa Principle" that the group was filming.

Jim used "bits and pieces of all sorts of stuff" to make the working model pictured below. The project took approximately a month and a half to complete and was used extensively in the movie, about an expedition to one of the moons of Jupiter, which is being entered in The Toronto Super 8 Film Festival in May, 1982.

A Georgetown resident, Jim came to Humber eight years ago from Highway Trailers of Canada Limited in Mississauga, Ontario.

1981 CCA GRAD RECEIVES AWARD

Lynn Badger, a recent graduate of the Public Relations Program at Humber's North Campus was recently awarded the Canadian Public Relations Society President's Medal (Toronto Chapter) at a presentation ceremony held in mid-May at the Westbury Hotel in downtown Toronto.

The 27 year old Niagara Falls native completed the last phase of her public relations course with an internship at the ITT Corporate Relations and Advertising Department. She was responsible for researching and writing speeches, interviews and reports, planning publicity campaigns, editing employee communications and writing press releases, letters and memos.

Lynn graduated (with honours) from Humber's Public Relations program in June 1981 and while at the college was awarded the Walter B. Herbert Award for outstanding achievement and for her significant contribution to life of the College. She was also presented with The Public Relations Award for outstanding academic achievement in the program.

Lynn is currently employed with Northern Telecom Limited and expects to be in her present position until the middle of September 1981.

Hero Kielman

CRAFTS COUNCIL HONOURS KIELMAN

Hero W. Kielman, Coordinator of the Metal Arts Program at Lakeshore One, was awarded the John Mather Award Medal by the Ontario Crafts Council this past summer at the general meeting and fifth annual conference of the Ontario Crafts Council held at the Erindale College Campus of the University of Toronto.

The presentation was made at the Council's annual dinner on June 5th, 1981 and the inscription on the medal reads:

"The Ontario Crafts Council awards this medal in appreciation of your contribution to crafts in Ontario." Congratulations Hero!

CHEZ HUMBER

Beginning this September, a better-than-average number of French speaking students will be roaming the halls of Humber.

Humber College, as a result of the initiative and guidance of Raymond Doucet, Coordinator of French Programs, is pleased to announce the creation of a new series of courses . . . to be taught in French. These will include classes in physical fitness, painting, doll making, interior design, interpersonal relationships, introduction to management, and a series of sing-along sessions.

Most courses begin in mid-September at the North Campus. However, the sing-along evenings will be held at Blessed Sacrament School.

Good luck with the series, Raymond!

P.R. graduate Lynn Badger receives CPRS President's medal from Frank Paznar, past president of CPRS, and Barbara Sheffield, CPRS education committee.

IGOR'S AUTUMN TREATS

Igor Sokur (left), Coordinator of the Hospitality Management Studies Program, poses with award-winning students Gabrielle Waddell (centre) and Mike Kois (right).

For the coming Autumn months, Igor has provided a delicate, light and tasty menu that is not only refreshing, but nutritious as well.

All recipes will yield 8 servings.

CREAM OF CURRY SOUP (a cold soup)

1-1/2 quarts of milk	1/4 teasp. mace
1 cup finely chopped onion	1-1/2 tablesp. salt
1 medium cucumber, peeled, seeded and thinly sliced	1-1/2 tablesp. curry powder
1 large bay leaf	5 egg yolks
1 whole clove	1/2 cup sliced toasted almonds
	1/2 cup finely chopped chives

Pour milk into a double boiler and add the onion, cucumber, bay leaf, clove, mace, salt and curry powder. Bring to a boil. Remove and strain through a strainer and cheesecloth then return the milk to the double boiler and bring to near boiling point. Put the egg yolks into a bowl and whip until smooth. Add 1/3 cup of hot milk mixture to the beaten egg yolks and whip until well blended. Pour egg mixture into the hot milk and whisk until blended. Bring to a boiling point. Remove from heat at once and strain again. Refrigerate for at least 3 - 4 hours. Serve with finely chopped chives and toasted almonds.

Note: Soup must be kept refrigerated until serving time and must be consumed within a 12 hour period.

TEA SYLLABUB

2 cups strongly brewed english tea
 1 cup granulated sugar
 Rind and juice of three large lemons
 3/4 cup brandy
 1/2 cup port wine
 3 cups 35% cream

Brew the tea and strain. Add sugar and mix until fully dissolved. Add rind and juice from the lemons and the brandy and port. Whip the cream and fold into the tea and brandy mixture. Pour into tall glasses, and refrigerate until serving time.

SUPREME OF CHICKEN IN CANADIAN WHISKEY

Bone and cut in half 4 spring chickens. Place boned chickens in a pan and sprinkle with juice of 1 lemon, 4 oz. whiskey, 1 teaspoon salt, 1/3 teaspoon each of pepper, cardamon, coriander and nutmeg. Cover pan and marinate for 1 hour in refrigerator.

Stuff each half of chicken with almond whiskey stuffing and wrap each piece with greased butcher paper or double folded foil wrap. Place in lightly greased pan. Grease top of each chicken piece with butter and place in preheated oven at 325°F. for approximately 45 minutes, basting often.

When cooked, take chicken out of the oven, remove foil, place on serving platter and flambe with 1 cup of preheated whiskey.

Recipe for Rice and Whiskey Pilaff Stuffing

2 tablespoons butter	1 tablespoon salt
2 tablespoons finely chopped onion	1/2 teaspoon each of pepper, cardamon, coriander, thyme, marjoram and nutmeg
1 cup Australian seedless raisins	1 tablespoon finely chopped zest of lemon
1/2 cup finely chopped mushrooms	8 - 1-1/2 oz. balls of puree of almond paste
1-1/2 cup rice	
1-1/2 cups chicken stock	
1 cup whiskey	
1 cup dry sherry	

Saute onion, mushrooms, raisins in butter and add the rice. Cook over medium heat until all liquid and butter is absorbed. Add chicken stock, whiskey and sherry. Add salt, zest of lemon, all spices and cover the pot and put into a pre-heated 325° oven for 18 to 20 minutes or until rice is fluffy and cooked. When cooked remove from pan into bowl. Mixture must be fully cooked before it is used as stuffing for chickens.

Stuff each chicken half in such a way that a small ball of almond paste will be inside the stuffing.

COFFEE SYLLABUB

2 cups strong coffee
 1 cup granulated sugar
 Rind and juice of 3 large lemons
 3/4 cup Tia Maria or Kahlua
 1/2 cup brandy
 3 cups 35% cream

Brew coffee and add sugar. Stir to fully dissolved. Add rind, juice, Tia Maria or Kahlua and brandy. Whip the cream and fold into the coffee mixture. Pour into tall glasses and refrigerate until serving time.

Come clean!

GIVE US THE LATEST DIRT.
