Art Coles

COLES APPOINTED DIRECTOR OF ARBORETUM

The word "arboretum", according to the Oxford dictionary means "a botanical tree garden", and Art Coles has been hired to direct the growth of the new Humber Arboretum.

Coles, who was born and lives in Barrie, was recently appointed Director of the Arboretum. He has already played a major role in the substantial first stage development of the 300 acre project expected to cost one million dollars.

The Humber Arboretum, a project involving the Metro Toronto Parks Department, Humber College, the Borough of Etobicoke Parks and the Metropolitan Toronto and Region Conservation Authority, comprises land from the southwest area of highway 27 and Humber College to the Claireville Dam.

Coles, who taught in the landscaping department of the Applied Arts Division for one year in 1977, graduated from the Niagara Parks Commission School of Horticulture in 1971. He worked for the Calgary Parks Department for 18 months and then started his own landscaping business in Barrie for four years before coming to Humber.

He said Humber is the College of Applied Arts and Technology in Ontario with a community arboretum and plans to work with a variety of people to make it the most outstanding project of its kind in Canada.

The first seven acres are already complete and Coles says the re-vamped and year-long parcours jogging track will be operational by the end of October. Humber will also introduce cross-country skiing this winter to the general community according to Coles.

The Humber Arboretum will be labelled with complete information and data on plant materials and nature trails.

Coles is a member of the landscape Ontario Youth Council and is Chairman of the Ontario Horticultural Society - District 16 - Bursary Committee.

HUMBER STUDENT SELECTED TOP MALE RIDER

Allan Wedge was recently chosen best male rider at a two-day international collegiate horse competition held in New Jersey.

The second year student in Humber's popular Equine Studies Program competed against riders from the United States and West Germany.

ASHTON ON WORLD TEAM WINNER

Elizabeth Ashton, Director of the Equine Studies Program at Humber College, recently placed 11th. in the individual category at the World Three-Day Event equestrian championship in Lexington, Kentucky.

She was also on the four-member Canadian team which won the title beating the highly favoured team from West Germany. Canada scored a total of 436.6 penalty points followed by West Germany at 513 and the United States at 522.2.

Last year, Ashton was selected Horsewoman of the Year in Canada.

NEW CO-ORDINATOR FOR HUMBER'S TRAVELLING TOY CHEST

Susan McBeth is the new Coordinator of Humber's Travelling Toy Chest.

Sue comes to Humber from Bloorview Children's Hospital where she worked in the visual and creative arts area of the Recreation Division. One of her many duties there included the design of play areas for children with special needs.

Humber's Travelling Toy Chest, a large truck that schedules visits to a number of local communities, has helped immensely in combatting many of the learning difficulties related to developmentally delayed handicaps by lending toys to children from birth to 12 years of age.

Among Susan's many objectives as Coordinator will be parent training, expanding mobile services and giving assistance to day care centres, group homes, and the Peel Day Camps.

Sorel Park

H.U.E. FOUNDATION STARTS AT HUMBER

Humber College has established the H.U.E. Foundation to find alternative sources of funding for programs and projects of significance to the College.

H.U.E., which stands for Help Us Educate, will consist of a 12-member Board of Directors. The Chairman is Donald White, a former member of the College's Board of Governors and Sorel Park is H.U.E.'s Executive Officer.

Mrs. Park will work closely with the Board which is comprised of both community representatives and Humber College faculty and staff.

The Board of Directors of H.U.E. will establish a priority system for projects requiring funding and then select and search out probable sources of funding.

Mrs. Park was previously employed at the Young Men's and Young Women's Hebrew Association of Toronto as the Director of the Continuing Education Program and also serves on the executive of the Children's Services Committee in the Borough of North York.

She received her Bachelor of Arts Degree and Graduate Teaching Diploma from McGill University in Montreal and

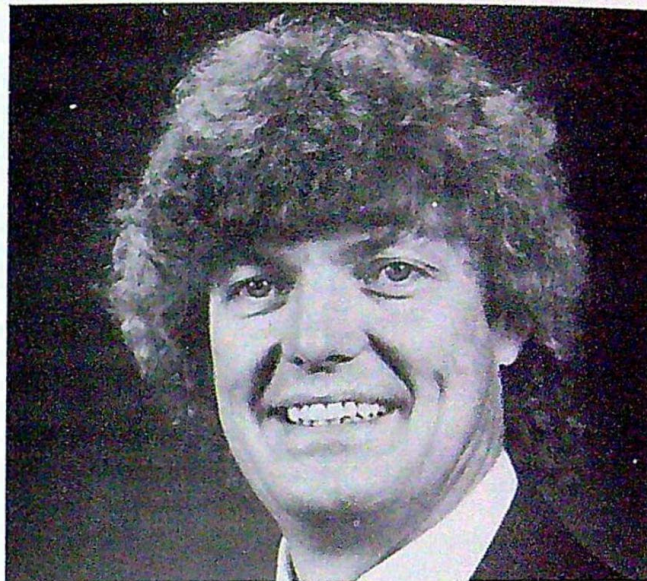

later studied towards a Masters Degree in Counselling and Guidance at the University of Arizona in Tucson.

Perhaps you have a project or program which you would like to see happen. Through the H.U.E. Foundation, some of the exciting ideas which have been dreams, hopefully will reach fruition.

Members of the board are: from Etobicoke - Bruce Sinclair, Donald White, Joe Leonard and Audrey Thomas; from Humber - Ernie Horney, Paul Hughes, Robert Noble, Tom Norton, and Bill Trimble; and from York borough - Zanana Akande and Susan Ladowsky. Sorel Park will serve as an ex-officio member of the Board.

DID YOU KNOW?

Igor Sokur, Coordinator of the Hotel and Restaurant Management Program at Humber, has been installed as a corporate member of the British Institute of Management. This acknowledgement provides Sokur with the opportunity of belonging to one of the worlds greatest professional hotel and restaurant associations.

Bram Smith

R.C.M.P. MUSIC DIRECTOR JOINS HUMBER

Humber's Music Program has received Canada-wide and international acclaim.

The most recent staff member to join the much heralded course and touted in the music industry as the best in his field, is composer and arranger Bram Smith.

Smith comes to Humber with more than 30 years of music experience and most recently as Director of Music for the Royal Canadian Mounted Police (R.C.M.P.) At Humber, Smith will conduct the 60 piece Repertory Brass Ensemble.

Smith, who was born in Ottawa, has a lengthy list of impressive credentials such as Director of the American University Band in Washington and Advisor in period music to the White House in Washington.

Smith attended the Royal Conservatory of Music in Toronto from 1945 to 1949 majoring in the trumpet and later was employed with the Benny Louis orchestra.

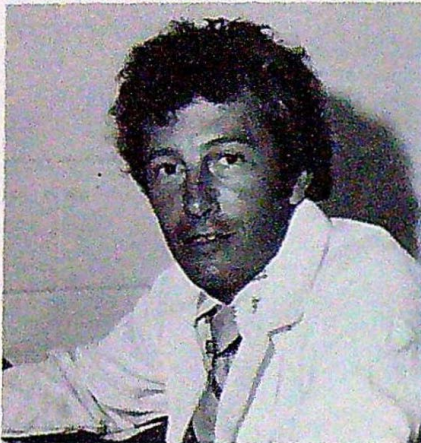

Not too many people get to become premier soloist with the United States Marine Band in all States of the Union. Smith did just that from 1949 to 1957 appearing as soloist at the White House for the President and foreign dignitaries. In 1958, Smith formed and became President of the Guild of Artist Musicians Inc. which produced the award-winning film "Artistry in Brass".

Smith founded the U.S. Army Herald Trumpets for the U.S. Army Band, whose prime purpose was to sound the honours for the President and Vice-President of the U.S. and world leaders such as Queen Elizabeth and Prince Philip, General Charles de Gaulle and Nikita Krushchev.

Radio and television work in the late 1950's and early 1960's allowed Smith the opportunity to compose and arrange music, some of which was played and used for the inauguration of President John F. Kennedy.

Humber Staff Speak Out !

QUESTION: Is Marriage outdated?

"Yes. If marriage is compared to the theories of today's permissive society, then yes, marriage is most definitely outdated. However, is this a drawback? I for one, do not think so. It appears to me that the respect once born out of a so-called old fashioned marriage is to a certain extent missing."

David Johnson
Instructor
Automatic Machining Program
Lakeshore Two Campus

"No. Marriage has not lost its dignity, charm and satisfaction which it has generated for many many years. Because our young people of today are more worldly and more aware of changing situations which effect their lives and well-being, they do not in many cases follow the age old trends of smaller community life. The state of marriage today is as important as it was to the younger people of past generations. However, young people today do not want to become involved in a permanent marriage responsibility until they are sure they have the right partner, the right employment and the right living location. Marriage has not lost favour, it is just being thoroughly analysed before investment by the principles."

Bill Bell
Consultant
Training in Business & Industry Dept.
Lakeshore One Campus

"No. By definition, marriage is the intimate union of two people sharing life and the responsibilities it brings to them. When something becomes outdated, it is simply made out of date by the passing of time. As long as people need each other, marriage will not pass out of date."

Bill Hanna
Instructor
English As A Second Language
Lakeshore Three Campus

"Whether marriage is outdated or not, relationships are still in vogue. When a relationship becomes important, people tend to look for a way to cement it, and marriage still seems to be a method most people choose."

Hildy Haber
Instructor
Commercial Studies Program
Keelestdale Campus

"No. There is no substitute for a good marriage. The high divorce rate is not the fault of marriage, but the evidence of immaturity of the participants."

Gwen Challes
Receptionist
Osler Campus

"No, it most certainly is not. When looking at the statistics, many people may be getting divorces, but they are quickly getting married again. The institution of marriage is indeed changing but it is not outdated. I suspect that in the future, people may be married several times during their lives."

Carl Eriksen
Dean, Human Studies Division
North Campus

WE'RE PROUD OF OUR GRADUATES

Graduation is always an exciting time in a student's life.

Well, once again, Humber's Office of College Relations carried out a special public service by supplying photographs and information on all Humber graduates to a variety of media across Canada.

We're extremely proud of our graduates and the professional fields they have chosen a career in. Listed below are just a small number of media who join us in saluting our CLASS OF 1978.

Profile

LYLE BEBENSEE

Despite disclaimers to the contrary, Canadian history is not boring. One man, among many, Lyle Bebensee, a Social Science instructor at Humber's Lakeshore Campuses, has proven that vision and hard work can recreate our national history in a way which is as exciting as the actual event.

Taking history, adventure and a touch of film know-how, Bebensee created a superb film entitled "The Chilkoot Trail". It began as a journey into the Canadian Highlands and became an award winning documentary receiving Honourable Mention from the Travel Industry Association of Canada.

Bebensee acknowledges the Chilkoot Trail as one of the most historic areas in the country. "There was a great human effort, a unique and magnificent operation. You want to experience it in a way a little like those people did in 1898".

In the late 1800's, the Trail took on a paradisaical glow for the hordes of prospectors who used it to reach the gold of the Klondike River. With its do-or-die entrance at the fabled Northern gateway to riches, the pass has been immortalized by Bebensee and his camera for all to know and see in the future.

Nearly consumed with exhaustion and the power of the elements, Bebensee recounts that, "having got to the summit, I suppose it is part psychological and part physical, you look down over the Canadian side and see the glacial snow and the lakes and you say, 'My God, it was worth coming here for this!'".

Bebensee has not always been a film-maker. Born in Bothwell, Ontario, he started out his career at the University of Western Ontario in London where he was granted his Bachelor of Arts Degree in Geography. After spending the war years with the Royal Canadian Air Force in Eastern Canada, he worked for several years in business and industry.

In 1956, Bebensee became a secondary school teacher and taught for 10 years in various Boards of Education from Haliburton to Oakville until 1967 when he joined Humber. He also served three and a half years as a member of the Municipal Planning Board in Wallaceburg.

He has travelled extensively making films in Australia and New Zealand which were televised on the Canadian Broadcasting Corporation and the Ontario Educational Television networks. Bebensee had twice toured the High Arctic Islands and produced a film titled "Polarquest", and walked the famous 35 mile Chilkoot Trail three times. He also visited Bebensee Lake in the Northwest Territories, a lake 370 miles north of Yellowknife and named for his brother who was killed overseas in the RCAF.

At Humber, Bebensee has had a hand in all facets of teaching and administration using his human relations skills to teach English, Academic Upgrading, Social Sciences, Sociology and segments of the Geography and Environmental Studies program.

Bebensee was granted a sabbatical from Humber in 1976 to continue his studies in Remote Sensing, a geographer's skill used to interpret data from Earth Resource Satellites and Air Photographs.

Bebensee lives in Oakville with his wife and two daughters. His hobbies include tending numerous beehives, the opera, and playing the guitar.

Bebensee retired from Humber this past June to concentrate on completing his most recent film, "The Arctic Adventure". It is a historical documentary studying the life and times of the Polar Frontier in the early 1900's.

Bebensee attending to his bees

SUPPORT HUMBER'S VARSITY TEAMS

This will be a big year for Humber's intercollegiate sports team in the Ontario Colleges Athletic Association.

The mens hockey team, which won its first Ontario title last year, but lost in the national championships, play 14 home exhibitions and league games. In December, the Hawks travel to Detroit for a two-game exhibition series with the University of Michigan. The Hawks are coached by Intercollegiate co-ordinator Peter Maybury.

The Humber Hawkettes is the name of the College's female hockey team competing in its first regular season. The Hawkettes will play an eight game season before, hopefully, advancing to the Ontario finals in March. Don Wheeler, a member of the Business Division faculty, is the coach of the Hawkettes.

Until the new Gordon Wragg Student Athletic Centre is completed, Humber's mens basketball team will play at the College's Lakeshore One Campus Gymnasium. Rookie coach, Doug Fox, will depend highly on returning all-star Dino Teneglia to bolster the Hawks through their 22-game schedule.

Listed below is the complete home schedule for the three major varsity teams:

HUMBER 1978 - 1979

INTERCOLLEGIATE HOME GAMES SCHEDULE

Sat. Oct. 14/78	Seneca (North York) at HUMBER	MH
Sat. Oct. 21/78	Brock (St. Catharines) at HUMBER	MH

ALL HUMBER WOMENS HOCKEY GAMES START AT 4:00 P.M. AT WESTWOOD ARENA.

ALL HUMBER BASKETBALL GAMES START AT 7:30 P.M. AT LAKESHORE ONE CAMPUS.

Doug Fox

U. of T. STAR TO COACH HAWKS

Humber College has a new basketball coach. Doug Fox, a five year member of the University of Toronto basketball team, will coach the Hawks during their 1978/79 season. Fox led U. of T. in scoring for three seasons and was selected to the Ontario Universities Athletic Association allstar team in 1977. He was also a three time winner of the W.A. Potter Award given to the member of the team judged by his fellow team-mates as the Most Valuable Player for that season.

ATHLETIC INJURIES CLINIC AT HUMBER

"Every sports organization and institute ideally should have an athletic therapist to look after the theraputic needs of it's athletes," said Grant Woods, Athletic Therapist at Humber.

Mr. Woods has been running the Athletics Injuries Clinic at Humber College's North Campus for the past year. He has a degree in Athletic Training and Management, and has worked as a therapist at the 1976 Olympics in Montreal.

Mr. Woods is responsible for the prevention and rehabilitation of injuries.

The clinic is open from 2:00 pm to 4:30 pm every week-day to all staff and full-time students at Humber College. Plans are underway to offer this service to secondary schools and the general community.

"This clinic is a tremendous plus for all athletic programs at Humber," said Peter Maybury, Co-ordinator of Inter-collegiate Activities.

"I think it's meeting a need that has been there for a long time," said Rick Bendera, Co-ordinator of Athletics. "The popularity of the clinic has proven that it's a service that is available to the college community, and definately an asset for future programming."

Every week the clinic is visited by Dr. Charles Bull, a general surgeon from Humber Memorial Hospital who is very well-known in the world of sports medicine.

"He is a real asset to the Humber clinic," said Mr. Woods. "We really appreciate that he takes the time out of a very busy schedule to see the athletes of Humber College."

What we did last Summer

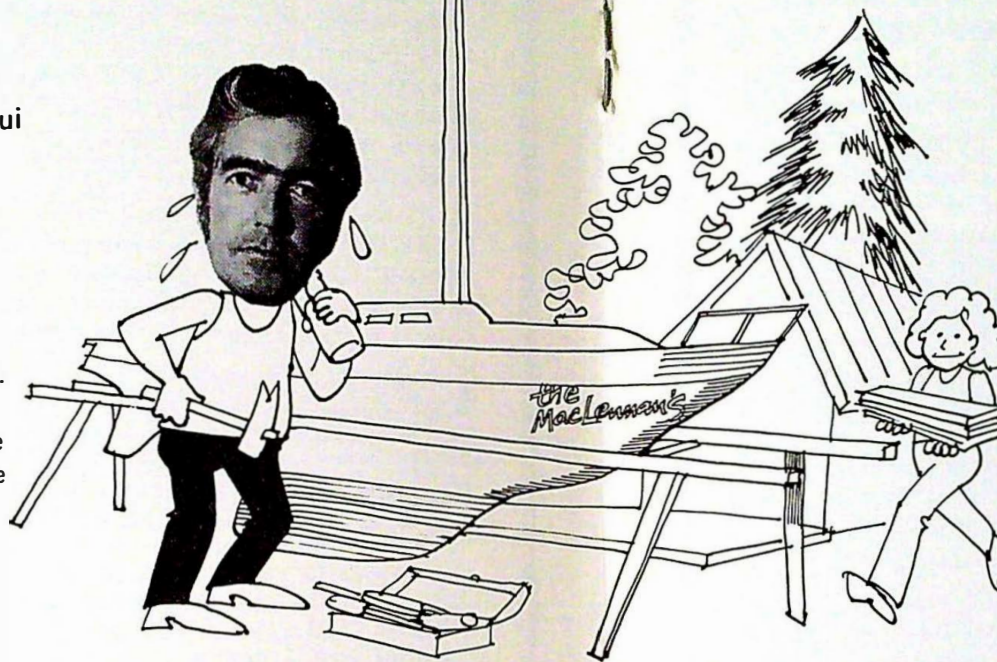

Humber's faculty and staff were involved in a variety of activities, events and excursions this past summer.

Since we would need a volume to describe everyone's "Summer of 1978", we have randomly selected a few highlights from our colleagues at our Campus locations.

We hope you enjoy their comments, become familiar with their names and pictures, as well as the caricatures drawn by David Lui of the Humber College Graphics Centre.

You remember that familiar song "Row, Row, Row Your Boat". Well, Paul MacLennan combined some summer teaching with an opportunity to build a boat. Mr. MacLennan, vacationing at his Georgian Bay cottage, constructed a 36 foot sailboat. Even with the assistance of his wife, he figures it will be 1980 before the vessel is "sea-worthy".

Paul MacLennan
Instructor, Marine Mechanics Program
Lakeshore Two Campus.

Colleen Mahon became Colleen Moffat this past summer. On June 17, 1978 in her hometown of Port Colborne, Ontario, she married but later had to postpone their honeymoon until next year due to her husband's work schedule. The Moffats managed a few days in the "Honeymoon Capital of the World" - Niagara Falls.

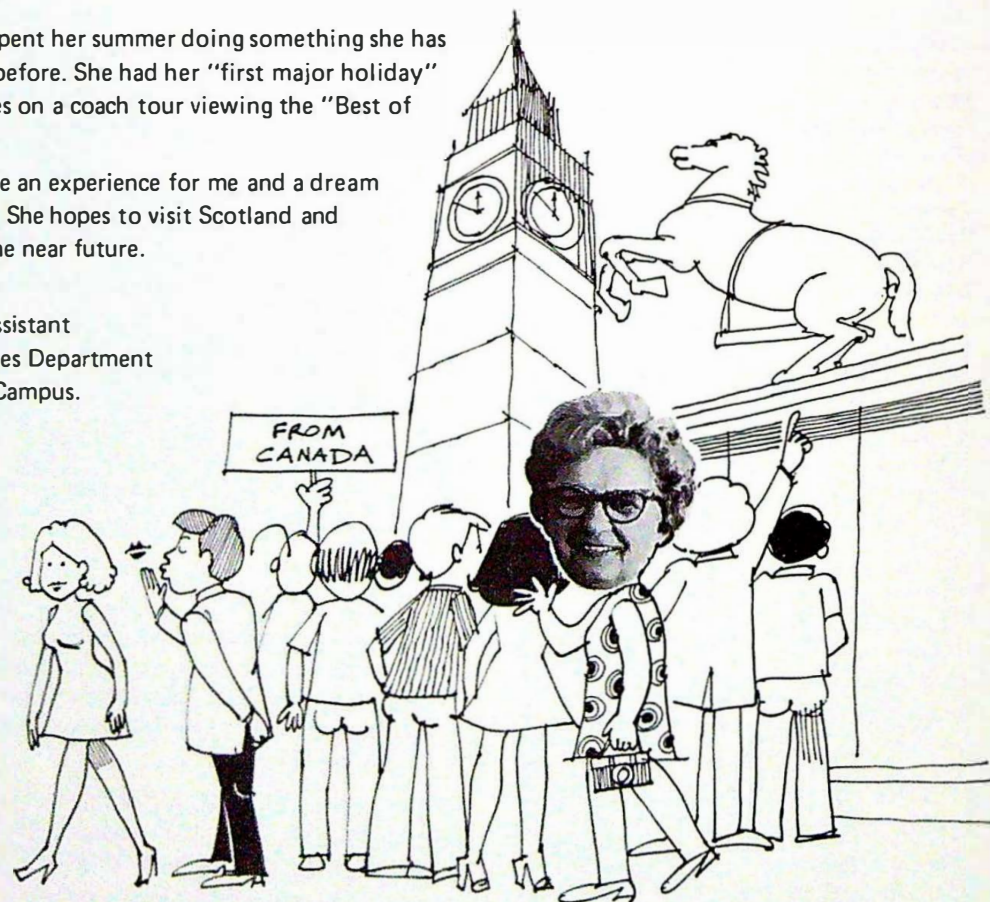

Colleen Moffat
Library Technician
Lakeshore One Campus.

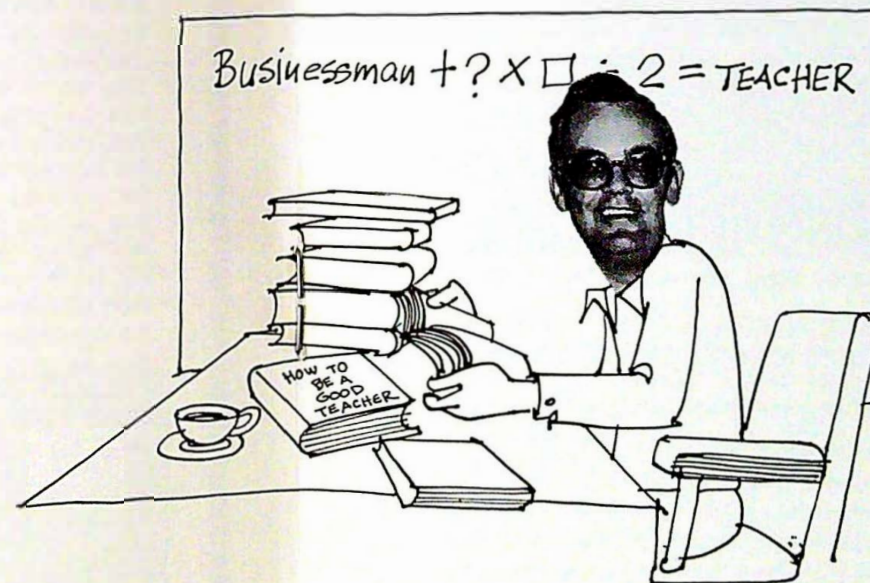

Jean Frost spent her summer doing something she has never done before. She had her "first major holiday" with relatives on a coach tour viewing the "Best of Britain".

"It was quite an experience for me and a dream come true". She hopes to visit Scotland and Ireland in the near future.

Jean Frost
Cafeteria Assistant
Food Services Department
Keelesdale Campus.

Businessman + ? x □ : 2 = TEACHER

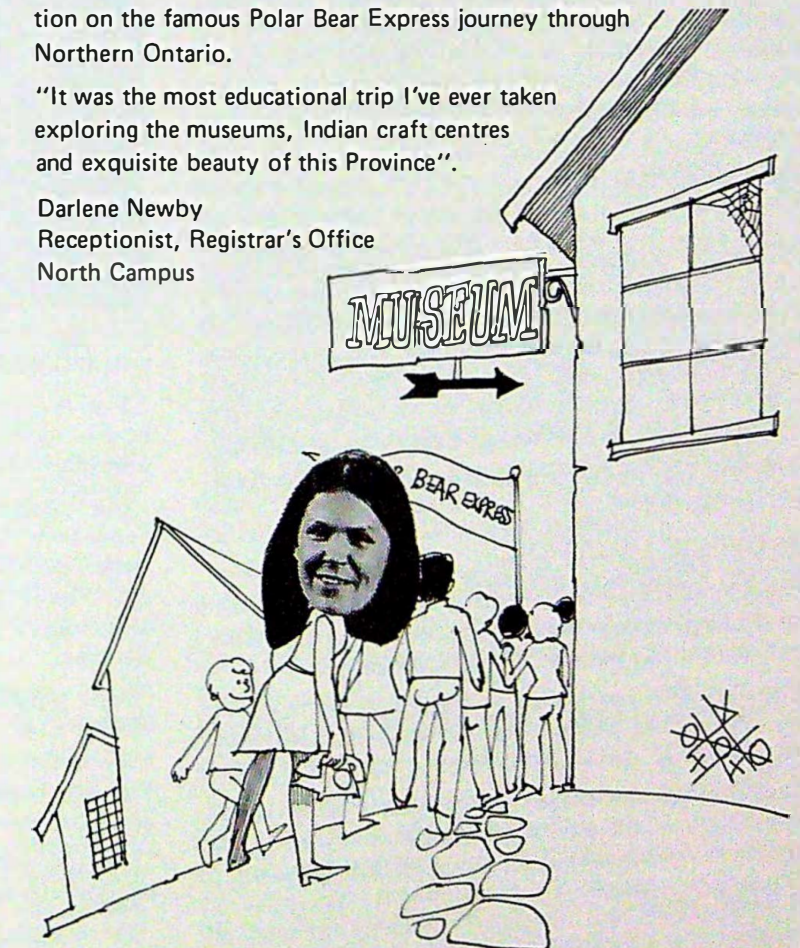

Ted Steele worked at Humber all summer. That's right! He joined the staff on Canada's birthday and "spent most of my time making the transition from my own business to teaching drafting."

Ted Steele
Instructor, Drafting Program
Queensland Campus.

Moosonee, Cochrane and Moose Factory Island were just a few of the places visited by Darlene Newby. She spent part of her summer vacation on the famous Polar Bear Express journey through Northern Ontario.

"It was the most educational trip I've ever taken exploring the museums, Indian craft centres and exquisite beauty of this Province".

Darlene Newby
Receptionist, Registrar's Office
North Campus

The Treasury of the Athenians in Delphi, Greece
MAKE THE WORLD YOUR CLASSROOM

Have you ever dreamed of studying the ancient cultures of Egypt, Greece, and Italy and then later visiting them as part of your class?

Would you dare explore the wonders of the Amazon and Galapagos in South America?

Once again, and by popular demand, Humber College will be offering its highly successful International/National Studies programs and featuring eight special courses. They are:

- Ancient Cultures – Egypt, Greece and Italy
- Best of Britain
- England's Theatreland
- Exploration Rockies
- Galapagos and the Amazon
- Scandinavia
- Invitation to India
- Israel, Jordan, Turkey

Each course is offered in two parts. The orientation schedule includes 42 classroom hours of evening sessions between January and April 1979 studying the culture, history, politics and economics of the area you choose. After the successful completion of the orientation portion, you will travel with your group to experience the area personally for two to five weeks between May and August.

For further information and a free brochure call 675-3111, extension 553 or 554.

NEW OFFICE LOCATION FOR COLLEGE RELATIONS

The Office of College Relations has moved to new office accommodations at Humber's North Campus.

David Grossman and Madeleine Matte will be located in room C135 which is down the hall from the President's Office and across from the Print Shop.

Those interested in obtaining assistance on a variety of public relations and promotional projects should either drop by and visit, or call 675-3111, ext: 553 or 554.

DID YOU KNOW?

Gymnasts who attended Humber College gymnastics programs won 29 medals during the 1978 Ontario Championships.

HUMBER INSTRUCTOR SHOWS LOVE OF ONTARIO AT HIS ART GALLERY

Bill Houstoun is an artist deeply in love with the beauty of Ontario.

Houstoun, an instructor in the Graphic Arts program of Humber's Creative and Communication Arts Division, shows his feelings through water-colours and oil paintings which are displayed throughout his home near Bolton.

He prefers to do most of his work on the spot and enjoys painting the beautiful subjects around the Bruce Peninsula.

Houstoun feels that the color tone and relationship of a painting is more important than the subject matter.

A visit to Houstoun's Gallery on Airport Road just north of Tullamore will show how he has used his sensitivity and talent in a variety of paintings. One of his favourites is the work depicting a thunderous threat of a storm sweeping across the Caledon countryside.

HUMBER STUDENTS ATTEND "FESTIVAL OF FESTIVALS"

Ever dream of rubbing elbows with celebrated movie-makers, stars and fans?

That's just what Humber's Cinematography Program students were doing at the "Festival of Festivals", Toronto's own film festival, held in September.

According to Pat Kearney, Co-ordinator of the Cinematography Program, attendance, which was mandatory, gave the students an opportunity to see some very important films which, for one reason or another, will not be commercially released.

Kearney was especially keen on having his students view the large number of Australian features which were screened at both the Cork and Cannes Film Festivals earlier this year. These films were enthusiastically received by international audiences and Kearney stresses that there are many similarities between film-making in Canada and Australia.

HUMBER WINS TWO NATIONAL AWARDS

Humber College received "Awards of Merit" recently from the Association for Media and Technology in Education in Canada.

Two Humber television programs, produced by the staff in the College Television Centre, received national awards from A.M.T.E.C. at their conference in Regina.

The programs recognized were "Children, Creating Familiarity with Food" produced for the Family and Consumer Studies Program of the Applied Arts Division, and "Audio Tape and Editing" produced for the Journalism Program of the Creative and Communication Arts Division.

Both programs were produced and directed by Jerry Millan, Senior Program Coordinator of the Television Centre. Production and technical staff were Ken Cooke, Dominic Gratzner, Gary Hetherington, Doug Roberts, and Mike Thomas.

Humber was also the only college in Metro Toronto to win two awards.

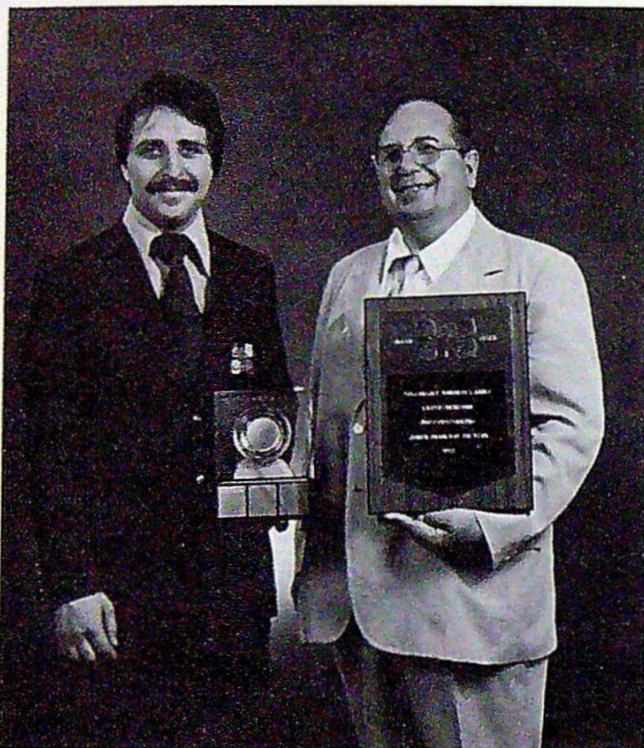

The awards recognized the production of high quality instructional materials which met or surpassed the educational, technical and production objectives and criteria as established by the A.M.T.E.C. Media Festival.

NEW AWARD FOR TOP FOREIGN STUDENT IN HOTEL MANAGEMENT

A foreign student studying Hotel and Restaurant Management at Humber College this year will be the recipient of a new award aimed at promoting goodwill and friendship with students from foreign countries.

Igor Sokur, Co-ordinator of the Business Division Program, said a College trophy and replica for the student will be made in the shape of a Maple Leaf with the Humber College corporate logo. The winning student will also receive a cheque for \$100.00 from Doris Tallon, Assistant to the President and an advisor to international students at Humber.

Mr. Sokur added that the Humber Students' Chapter of the Canadian Food Service Executive Association and himself initiated "The Doris Tallon International Award".

Peter Vinci and Igor Sokur

NATIONAL AWARD FOR HUMBER HOTEL AND RESTAURANT STUDENTS

Peter Vinci, an honours graduate in the Hotel and Restaurant Management Program at Humber, was recently presented with the Cara Gold Plate Award.

The Award honours Vinci for outstanding leadership, professional and educational activities with the Humber Chapter of the Canadian Food Services Executive Association.

Vinci was also President of the Humber Chapter of the C.F.S.E.A. which received a national award for the most outstanding student chapter.

DID YOU KNOW?

Bill Bell, Co-ordinator for the Humber College branch for the Ontario Career Action Program (OCAP), said his office has placed, counselled and monitored some 157 trainees during the past four months in a variety of businesses and industries. The placements, in the Toronto Boroughs of Etobicoke and York, are the highest for OCAP in Ontario.

Don Sbrolla

HUMBER STUDENTS RECEIVE NEW AWARD

A former Humber marketing instructor, Don Sbrolla, has devised a positive way of showing his feelings for Humber College in general and the students in particular.

Mr. Sbrolla has granted a \$1,200.00 award to Humber, allotted to the top Data Processing student graduating from the College. The award, which will be perpetuated as long as Humber College exists, will be given \$100.00 per year at the annual awards night in October.

The Don Sbrolla Award was established by a former student of Sbrolla's, Randall Ferris. Mr. Ferris said he decided to establish the award because it was Sbrolla's course that launched him on a career as President and founder of a multi-million dollar group of food service companies employing more than 2,000 people.

Mr. Sbrolla resigned from Humber in January 1977 for personal reasons after five years as an instructor in marketing. He is now running his own company, The Canadian Consulting Institute, which specializes in career planning and placement of computer professionals.

ZELINGER AWARDED LIFE MEMBERSHIP

A member of the Humber College Technology Division faculty will become a Life Member of the Institute of Electrical and Electronics Engineers in January of 1979.

Geza Zelinger, who has taught Electronics at Humber since 1971, received notification of this distinction from the IEEE office in Piscataway, New Jersey.

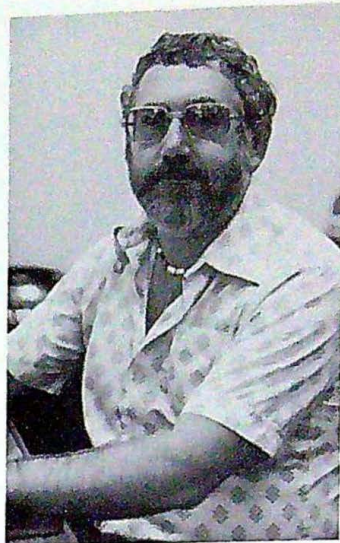

The Life Membership is reserved for those who have had a great deal of experience in the electrical, electronics and engineering profession. The Etobicoke resident has also written several books and recently had one translated into Russian.

HUMBER INTERIOR DESIGN STUDENT WINS AWARD

A third year student in Humber's Interior Design Program won third prize in the 1978 Interior Design Student Competition. Sandra Greenaway of Whitby won \$300.00 for her CHIMO LOUNGE entry in the show sponsored by the Interior Designers of Canada. The entry will be displayed at the International Interior Design Show in Toronto held in November.

Bob Cardinali

John Hart

Dennis Stapinski

John Flegg

NEW A.S.A. EXECUTIVE

It will be an all-male executive for the 1978/79 Administrative Staff Association.

Bob Cardinali, recently appointed Comptroller for Humber was appointed to A.S.A. President succeeding Julie Brocklehurst.

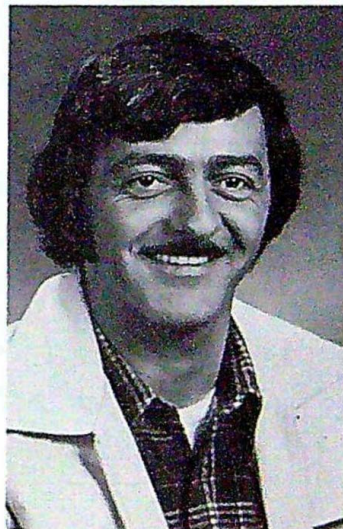

John Hart, Director of Program Development at Humber's Lakeshore One Campus, is Vice-President. Dennis Stapinski, Student Affairs Coordinator and John Flegg, Coordinator of Community Relations at the Lakeshore One Campus, are Treasurer and Secretary respectively for the Humber branch of the A.S.A.

Lynn Hall

Nancy Landsiedel

Doug Hughes

Mary Sleep

WOMEN DOMINATE O.P.S.E.U. SUPPORT EXECUTIVE AT HUMBER

Three of the four executive members of the Ontario Public Service Employees Union -- Humber College Support Staff Branch -- are women.

Health Sciences Division staff make up half of the Executive. Lynn Hall, a secretary in Health Sciences, is acting President while her Divisional colleague, Nancy Landsiedel,

is Secretary. Doug Hughes of the Transportation Department is Chief Steward and Mary Sleep from the Centre for Continuous Learning is Treasurer.

Also new this year are 15 shop stewards, with 12 of them women. The Humber Support Staff Branch of O.P.S.E.U. consists of 450 members from eight campuses.

DID YOU KNOW?

James Montgomery, Senior Program Coordinator in the Technology Division at Humber, conducted a week-long seminar on industrial hygiene at the University of Regina in June. The seminar was attended by officers of the Saskatchewan Crown Corporations, occupational health personnel from the Department of Labour and others.

IT'S COMING

A major event will be coming to Humber College during the 1979 academic year.

What is it?

Watch for the hints in the pages of the next edition of Humber Happenings to be published in December.

LUNCHEONS ONCE A WEEK AT IGOR'S

Thursday is the day to book in your calendar for a chance to try one of the best luncheons in Toronto.

This year, the popular series of international luncheons prepared by students in the Hotel and Restaurant Management Program at Humber is being switched to Thursdays only.

The luncheons begin towards the end of October and are held in Igor's Dining Room in D111 next to the Board Room.

The menu changes each week featuring such delights as the cuisine from France and China to the favourites of Hungary and Italy.

Last year the luncheons were sold out. Take a friend and don't miss out.

Advance reservations are necessary and made by calling Eleanor Matthews in the Business Division at 675-3111, extension 257.

HUMBER STUDENTS FLAMBE DESSERTS

Interested in how to make those delicious flambe desserts?

Humber's Hotel and Restaurant Management Program students will show you how during the International Gourmet Exhibition from October 26th. to 29th. at the International Centre in Toronto.

The Humber delegation will demonstrate their skills in making a variety of gourmet dishes as well as flambe desserts featuring two brands of liquers.

Humber's participation at the three-day show is being made possible through the co-operation of Gooderhams Distillers.

Gooderhams, who have already presented two awards to Humber students, will make another donation in exchange for the students' participation.

Recently, the Canadian Food Services Executive Association recognized students in the Humber program as having the best student club in the country.

SOKUR TO JUDGE RECIPE CONTEST

Cook Book '78, an annual publication produced by the Mirror Newspapers, will have a Humber instructor judge the winning recipes.

Igor Sokur, Senior Coordinator of the Hotel and Restaurant Management Program at Humber, was asked to select a winner from each of five categories.

The Cook Book will be released at the end of October and is free with each edition of The Mirror or Etobicoke Guardian newspaper.

Igor Sokur
IGOR'S RECIPE

Igor Sokur, Senior Program Coordinator of the Hotel and Restaurant Management Program at Humber College, has received national and international recognition and awards for his recipes and food cuisine.

Response from readers to his regular feature in Humber Happenings has been excellent. We'd be happy to hear more of your comments. Send them along to College Relations, North Campus, Room C135, Humber College, Box 1900, Rexdale, Ontario, M9W 5L7.

In this fall edition, Mr. Sokur has provided readers with a refreshing new souffle idea -- Fresh Corn Souffle.

Good Luck!

FRESH CORN SOUFFLE

4 corn on the cobs (fresh)
40 g. butter
30 g. all-purpose flour
225 ml. milk (scalded)
3 eggs (separated)
5 g. salt
2 g. sweet paprika
2 g. white pepper
2 g. mace

Remove leaves from fresh corn and with the grater scrape the corn from the cob.

In a saucepan melt the butter, add flour and cook over low flame for 3 minutes. Add scalded milk and bring to a boiling point. Add grated corn, salt and spices also the well-beaten egg yolks. Bring to a boiling point once more and then remove from heat.

Beat the egg whites until stiff and fold into the corn mixture and pour into a 1 Litre souffle dish or casserole that has been well greased with butter. Bake for 30 minutes at 160 C. or until fully baked.

Serve hot.

This is an excellent vegetable dish.

CANADIAN INDEPENDENCE DAY SEMINAR PLANNED FOR HUMBER

Which is Canada's birthday?

- a. July 1, 1867
- b. December 1, 1931
- c. January 1, 1948

Adrian Adamson, a teaching master in Humber's Human Studies Division, says July 1, 1867 is an important time in Canadian history because of Confederation and January 1, 1948 is the date when Canadians first existed. But, according to Adamson, the signing of the Statute of Westminster on December 11, 1931 is the real day for Canadians to celebrate.

Mr. Adamson says December 11, 1978 will be the 47th anniversary of the day when Canada obtained full sovereignty and national independence. He says the day is an important one in Canadian history and needs to be recognized nationally.

Mr. Adamson is arranging an all day student seminar on December 11, 1978 at Humber's North Campus. Its purpose is to contribute to the general education of students by focussing on one significant event of the Canadian reality. Mr. Adamson said he also hopes to foster an awareness of an important Canadian historical event and to help clarify the concept of independence in Canada at this critical moment in her history.

Watch for further information on this unique seminar that will bring together an exciting group of lecturers from across Canada. A public lecture will be arranged for 1979.

DID YOU KNOW ?

Barry Saxton and Bill Anderson of Humber's Law Enforcement and Advance Police Sciences Program will teach a special long term security course for Pinkertons of Canada Limited.

HUMBER HOSTS CONTINUING EDUCATION CONFERENCE

Humber College will host the Metro Colleges' Teaching Conference for Part-time Continuing Education College instructors.

The one-day event will be at the North Campus on Saturday, October 14th., 1978 starting at 9:00 a.m.

Norm Williams, Chairman of the Ontario Council of Regents, will open the conference to be followed by several workshops.

Four members of Humber's Professional Development staff will be featured as session leaders. Bill Thompson will conduct a workshop that will examine methods of teaching large classes.

Gary Noseworthy leads a discussion on the "Uses and Abuses of Audio-Visual Aids". Frank Willock, recently back from sabbatical, presents a session on "Exchange". It will be for those who wish to exchange ideas and discuss areas of particular concern not covered in other sessions. Ruth McLean is the leader of a workshop titled "Helping Adults Learn".

Registration is free for those teaching at Humber and the other Metro Colleges. Other participants will be charged a small fee of \$10.00. For further information, call Humber's Professional Development Office at 675-3111, ext: 364.

Madeleine Matte

MADELEINE MATTE JOINS COLLEGE RELATIONS

There is a new face in Humber's Office of College Relations. Madeleine Matte joined the public relations and promotion department replacing Elizabeth Sheldrick who left Humber after five years to join Canadian Programming Services.

Madeleine, a resident of Etobicoke, comes to College Relations with a wealth of knowledge after spending several years as Admissions and Records Assistant with the Office of the Registrar.

Before joining Humber, Madeleine, a graduate of Loretto College, was employed with Canadian Industries Limited, Air Canada, and Texaco Canada. Her hobbies and interests include reading, photography, music, and swimming.

The College Relations staff of David Grossman (Director) and Madeleine are located in Room C135 at the North Campus and can be reached at extensions 553 or 554.

FORD AND McLEAN LEAD WORKSHOPS AT WINDSOR CONFERENCE

Windsor was the site of a June conference on Non-Traditional Students and Issues in Instruction and two Humber staff members acted as resource people.

Barbara Ford, of the Human Studies Division, gave a workshop on "Remedial English in the Community Colleges" and Ruth McLean of the Professional Development Department led a study session on the topic "Women as Non-Traditional Students".

The conference, sponsored by St. Clair College, the Association of Canadian Community Colleges and Senior Adult Training Officers, attracted delegates from Canada and the United States.

RECREATION CENTRE GETS A WOMAN'S TOUCH

There is a new recreation director in VanKleek Hill, Ontario.

Karen Mooney, a graduate of the two year Recreational Leadership Program at Humber has been responsible for the various programs at the Community Centre and Arena.

Profile - **LAURIE BRADY**

Laurie Brady didn't stop to think about the consequences when she went after an intruder she found going out a window. At the time she was operating her own office cleaning business. It was her first job after graduating from Earl Haig Collegiate in North York. Laurie tackled the thief and held on until the police arrived. It turned out that the intruder was armed with a knife.

Even though she received a commendation for her courage and actions, Laurie doesn't accredit this as motivating her to enter the field of security. "I enjoy relating to people" she said. In 1973, Laurie became a sergeant with Pinkerton's of Canada and worked at the Toronto International Airport. Through her search duties, she was able to come in contact with many entertainment celebrities such as Harry Belafonte, Marie and The Osmond Brothers, Clint Eastwood, Lloyd Bridges and Sonny and Cher.

Deciding to broaden her interests, Laurie attended some courses in police work and firearms. Two certificates were won in firearms; one in Firearms Safety and the other known as Advanced Combat.

Since 1973 she has been an active member of the Metropolitan Toronto Auxilliary Force in the rank of Police Constable. The divisions she usually works out of are traffic and crime. Over the years Laurie has been on many a high speed chase and participated in the follow-up on accidents. Also, she presently serves as an Auxilliary Police photographer. Her duty is to take various pictures of the force for creation of a new album of the Auxilliary Police's functions.

In May of 1976, Laurie joined the full-time security staff at Humber College.

She enjoys range shooting. Among her gun collection is a Smith and Wesson. Laurie in 1976, won the Advance Combat Shooting trophy in a competition held by the Auxilliary Police.

There is a creative side to this woman as well. Her hobbies include: rug-hooking, macrame, astrology, antique collecting, tropical plants, photography and candle making.

Laurie, a Keswick resident, is married to a bank manager and they have a son.

OBITUARY — BEN CHAPMAN

Ben Chapman, a teaching master in the Floorcovering Installation Program in Humber's Business Division, died of cancer at the Wellesley Hospital on September 22, 1978. He was 54 years old.

Chapman was born in Poland in 1924 and spent his childhood years there. He escaped during World War II and fled to England where he joined the Polish Regiment of the British Army in 1945. Chapman was stationed on the southeast coast of England until 1947.

Chapman then moved to Australia for a short time before returning to England to get married and then came to Canada in the mid 1950's.

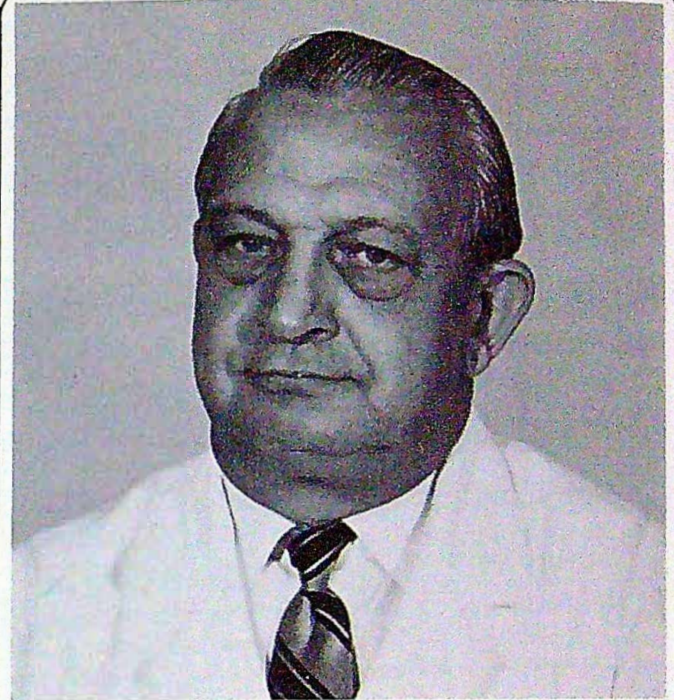

He started the first Floor Covering Program in Ontario for Manpower and joined Humber on May 16, 1968 after working with the Lakeshore and Etobicoke Boards of Education.

Chapman worked as an upholsterer in Dover and Folkestone, England and as a professional carpet layer in Kent, England. He had also been employed with Cleanol and the Canadian National Railway. The T. Eaton Company was one of many customers requiring his services when he started a business called Chapman's Floorcoverings.

Chapman was very well known in the floorcovering industry around the world and was also a member of the Floorcovering Association of Ontario, worked closely with the National Carpet Institute and attended the annual seminars of the National Association of Floorcovering Installers of the United States. Some 800 students graduated from the Humber Program during his teaching time.

Chapman always enjoyed the warm weather which allowed him to spend many hours in his hobby of gardening. He was also a master of carpet murals and recently designed a multi-colour 20 foot long map of Canada in carpet.

He leaves his wife Primrose and four daughters.

OBITUARY — TOM NELSON

Tom Nelson, a welding instructor at Humber's Lakeshore Two Campus, died of a heart ailment on August 13, 1978. He was 63 years old.

Born in Belfast, Northern Ireland in 1915, Nelson attended the Municipal College of Technology. In 1951, shortly after his arrival in Canada, he graduated in Welding Technology from the Canadian Welding Bureau and subsequently worked in industry and sales before coming to Humber 10 years ago.

An avid theatre-goer, Nelson had subscription series tickets to many of the major and minor live theatre production houses in Toronto. His interest in theatre arts resulted in the successful run of the pantomime, "Cinderella", at the Eaton Auditorium in 1971. Nelson co-produced the show. His library of reading material and musical score sheets of films and plays was extensive.

As a hobby, Nelson enjoyed dining out and exploring new restaurants throughout Southern Ontario. He was an aficionado of good food.

A resident of Etobicoke, he leaves three sisters and three brothers.

WINTER WEATHER?

Winter is just around the corner and with it comes snow and cold weather.

As in the past, if inclement winter weather conditions necessitate a closing down of Humber College for part of or a complete day/evening, the President will notify the Office of College Relations which will release messages for immediate broadcast on radio stations CFRB, CHUM, CKEY, CFTR, CHFI, CKO, CHIC (Brampton), and CFGM (Richmond Hill).

Internally, all College TV Monitors will carry announcements and Divisions/Departments at all Campuses along with the switchboards will be notified.

HOW IMPORTANT ARE LANGUAGE AND LANGUAGES?

by Glenn Harewood

We, normal human beings, take it for granted that the simplest way to communicate is through speech—language. However, how many of us have ever taken a few minutes to find out how central and crucial speech is?

Let us take a brief look at the centrality and importance of language by asking some questions. These questions may seem simple and obvious but they serve to highlight some facts about basic communication between human beings.

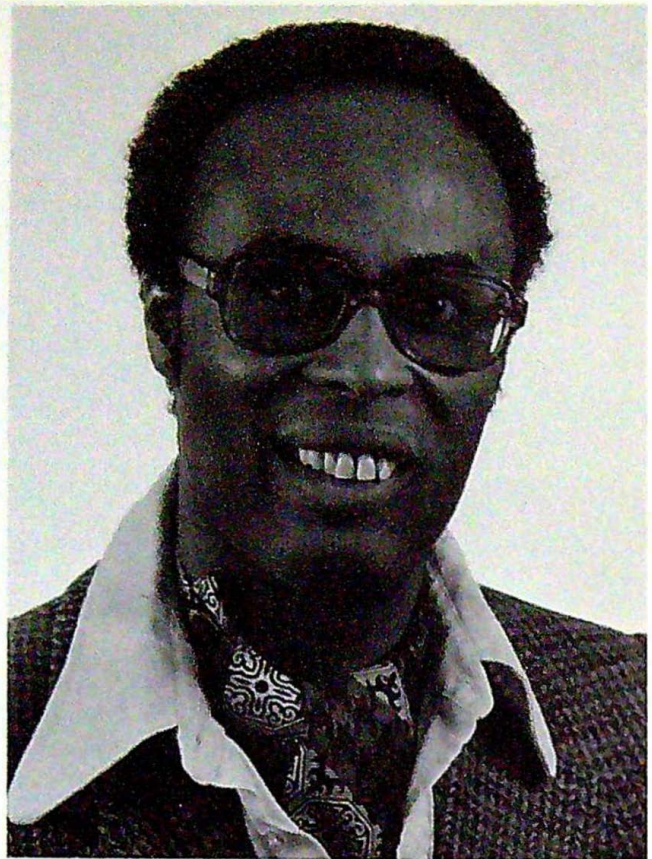

Who are you? What are you doing? Why are you doing it?

The varied and individual answers which each reader may have given indicate some basic tenets: someone signalled to you, either through sound or graphically; the signal left it's originator's mouth or typewriter, and reached you; you, the hearer/reader, understood these signals because they meant something to you; you responded with appropriate symbols or signals.

If the aforementioned questions were put to any other normal human being who is familiar with the same symbols or sound-systems, similar or identical answers would be obtained. However, if the same questions were put to an animal, the chances that that animal would be able to reply as the human being did are very remote. Man's ability to communicate intelligibly with his own species is that makes him different from animals. This ability is the principal source from which all social interaction springs. Linguist and Senator, Dr. Hyakawa, indicated that communication through verbal language "is the indispensable mechanism of human life that is moulded, guided, enriched, and made possible by the accumulation of past experiences of members of our species," Robert Lado, linguist, affirms that "language is the chief means by which the human personality expresses itself, and fulfills its basic need for social interaction with other persons."

Nevertheless, you may dispute whether or not you and I have a basic need for social interaction. If you are a scientist living in our world of sophisticated technology, you may believe that you can conduct experiments in the laboratory, make and record your observations without interaction with other people. However, of what use is your experiment or your research if you cannot communicate its results to someone else? One of the basic tests of any science is that one's findings must be communicated to as many people as possible so that they can verify or reject such findings.

The sounds we use to communicate orally have, by convention, taken on graphic shape for the purpose of man's secondary mode of communication-writing. These sounds/words by themselves, have no meaning. If I greeted you by saying the word/sound 'table, table, table' you would have to ask me other questions in order to find out what idea I wanted to convey to you. Sounds take on meaning only when they are used in the cultural context with which the listener and speaker are familiar. If you went to a fashion show and heard the announcer describing the capacitive reactance of the model as he or she walked past the spectators, no one would understand what capacitive reactance meant. Similarly, if the two-piece bikini worn by the model

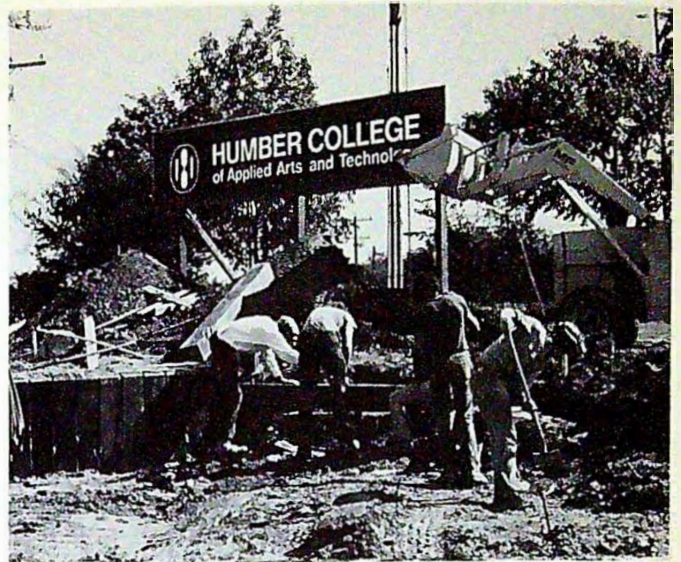

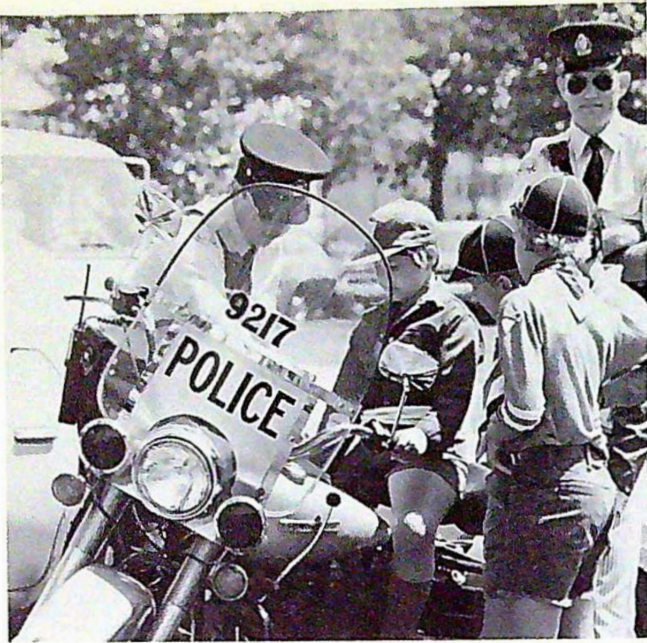

Glenn Harewood is a Teaching Master in Modern Languages in the Human Studies Division at Humber College.

were described as the opposition created by a capacitance to the flow of alternating current, it would have no meaning. It would merely create laughter.

One of the most important ways to understand another person is to understand what the person means when the person speaks. Meaning, according to Dr. Hyakawa, constitutes the moral and intellectual atmosphere in which man lives. This moral and intellectual atmosphere or semantic environment, is closely interwoven with the habits, customs, culture of a particular set of sounds used by human beings in different parts of our world.

The particular set of sounds need not be English. If they are not English, you, an intelligent, educated person, will not want to misunderstand the people with whom you will come in contact, or with whom you may have to work. In fact, you will find that your mental health and well-being are better if, through your ability to communicate in various languages, you understand not only the scope of your work, but also how other persons in our world think. Mr. Gillin states, in his report of the Ministerial Committee on the Teaching of French, that "Rapid travel and communication, together with the startling increase in the world's population, have eliminated any possibility that Canadians can live in isolation in the future. Moreover, nations are becoming more and more interdependent. The questions that hold our interest, such as energy, nutrition, monetary systems, and ecology, are international in scope. To bring up children who cannot communicate with other people in this world is simply not defensible. A unilingual education is out of date."

If we, Canadians, cannot live in isolation, nor can we remain out of date, can we afford to underestimate the crucial importance of languages?

HUMBER IN PHOTOS

The grounds staff at Humber are working on the permanent formation of the College logo shaped in plants and flowers at the entrance to the North Campus (photo at top right) . . . Each summer, Humber's Equine Centre and outdoor equestrian ring is the site of training by the Rothmans Scholarship Winners who are Canada's equestrian stars of the future (second photo from top at right) . . .
