INDIAN SCULPTURE DESIGNED BY HUMBER STUDENT

The large sculpture of an Indian woman and her child now sitting on the front lawn of Humber's North Campus was created by a second year Sculpture student at Humber College.

Shirley Bramley drew her inspiration from her life in Dawson City, B.C.. The 1500 pound sculpture was built in only eight weeks as a class assignment.

The sculpture is hollow with a shell made of layers of chicken wire, steel and cement.

HUMBER STUDENTS WIN AWARDS

Two interior design students from Humber College were winners in a contest at Tiffany Place, a condominium apartment building at Dixon Road and Islington Avenue.

Agnia Love and Janine Crump won \$150 and \$125 respectively. The contest was sponsored by Longmoor Building Corporation, builders of Tiffany Place.

HUMBER STUDENT WINS ONE FILM FESTIVAL AWARD

Alan Swayze, a third-year Cinematography student at Humber, won first place in the Education Documentary class of the Canadian National Exhibition Film Festival.

His film, titled "Rich Taylor: A Frozen Moment", finished

ahead of two students from Ryerson Polytechnical Institute.

Alan received a \$500.00 award from Famous Player's Theatres at a luncheon during Youth and Education Day at the CNE. The film was judged according to two basic requirements: technical experience and story content, with both sections receiving equal value.

The film was shown daily during the CNE in the South Auditorium of the Music Building.

STUDENTS WIN MUSIC AWARDS

Don Johnson, Co-ordinator of the Music Program at Humber (centre) stands with the 10 students who won music scholarships from Humber College. Ilmars Sermus (fourth from right) was the winner of the Duke Ellington Memorial Scholarship for outstanding arrangement and composition.

HUMBER INSTRUCTOR HAS PAPERS SELECTED FOR PSYCHOLOGICAL CONVENTION

Jay Haddad, an instructor in the Human Studies Division at Humber is one of three people who will have their experimental papers read at psychological conventions.

The first paper written by Haddad, Kent Billinghamurst and Dr. Laurance LaFace concerns humour judgements as a function of identification classes and involves the issue of Women's Liberation.

Haddad and LaFace wrote the second paper titled "Vicarious Superiority and the Marginal Man's Masochistic Sense of Humour".

HUMBER FURNITURE STUDENT PLACES THIRD

Bryan Webster, a student in Humber's Furniture Design Program won third prize in the Zinc Institute Canadian Operations 1974-75 Zinc Die Casting Competition for the best design in lighting.

Webster won \$200 for his design of a multi-functional lamp.

A student from the Ontario College of Art won the first place \$500 prize and a \$5,000 scholarship from the federal governments Department of Industry, Trade and Commerce for the design of a die cast zinc desk lamp. The \$300 second place prize went to a student from Conestoga College who designed a preview pointer.

More than 100 entries were received from post-secondary level students of design who are registered at Canadian colleges, universities, institutes of technology and art institutes.

The prime object of the competition was to design and manufacture products using zinc alloy die castings.

Staff speak out!

QUESTION: WHY DO YOU READ HUMBER HAPPENINGS?

Communication, historically, has always been a problem at Humber College. As in any large institution, rapid growth has made this problem more acute. I feel that HUBBER HAPPENINGS is one approach to dealing with this challenge on a personal and official level. For example, many of the changes effected by the budget crunch caused a wave of rumours based on fiction or half truths. HUBBER HAPPENINGS can respond to these types of problems with answers from authoritative sources. On the personal level, many of the experiences of individuals from a professional, social or family level, are shared with the college community. This continues the fight that we all participate in, the fight to ensure that Humber College does not become a cold impersonal institution.

Jerry Millan
Production Co-ordinator - IMC
North Campus

NOT
AVAILABLE
FOR
PHOTOGRAPHY

To keep informed of the progress being made within the College, both physically and internally. With a College the size of Humber it is hard to know what is happening at the other campuses. HUBBER HAPPENINGS helps to keep the staff and students up to date on the College's activities.

Carol Peckitt
Secretary
Osler Campus

HUBBER HAPPENINGS seem to know that a picture's worth a thousand words. Every publication has utilized the photography and short articles to increase the performance of the publication. It's enjoyable to pick one up, because even the pictures alone allow us to relate to our surroundings more readily

Ann Krpan
Secretary - Business & Applied Arts
Humber Lakeshore 3

I actually look forward to receiving each copy because I feel HUBBER HAPPENINGS is a noble effort to be a link that emphasizes that although Humber College has various campuses, it is still one family and all members of that family like to know about each other and the glad and sad things that befall us.

I believe HUBBER HAPPENINGS is an effective instrument of cultivating unity within the College. To inspire us and to feel we are one, is one of the lofty results the publication has produced in the hearts and minds of many.

I wish you every success in the tremendous task of continually making HUBBER HAPPENINGS an inspiration to all its readers.

Dr. Fred Scott
Counsellor
Humber Lakeshore 1

I know of no other way short of visiting each campus to keep informed of the many events occurring inside and outside of the College, especially those articles pertaining to our students successes in sports, competitions and contests. I have always looked forward to reading the HUBBER HAPPENINGS of the past, and the present format will hopefully be as enjoyable and informative.

Al Stewart
Senior Program Co-ordinator
Lakeshore 2

I really enjoy reading HUBBER HAPPENINGS because it contains interesting information on other Colleges and Universities in addition to the exciting events at all our campuses. I also like seeing what is planned for the future in the areas of concerts, art shows, seminars and special courses because I sometimes want to take part. One of the fascinating columns is the one on "PEOPLE". Everytime I read it, I find out a history of information relating to the interesting people that make up Humber College.

Elaine Wooldridge
Records and Admissions Assistant
Keelesdale Campus

MESSAGE FROM THE PRESIDENT

Humber College meets a vital need of in excess of 50,000 people annually. The effectiveness of our effort stems from government support, our knowledge and skill, but most of all as a result of the dedication and enthusiasm we bring to the task.

The problems of matching growing demands for services with less than adequate resources have been met.

It remains now for us to accomplish the difficult task of maintaining quality with fewer instructional hours, of endeavouring to get along with fewer support services, and of responding to new needs in the community with very little space or seed money to work with. The resourcefulness of the Humber College team in reducing operational costs has been very much in evidence in recent months. That same ingenuity and resourcefulness will no doubt be put to use in enabling Humber to continue to be a creative adaptable force in today's advanced but turbulent society.

In the coming College year there will be many opportunities for you to influence the direction Humber will go - whether Divisional input, task forces, rap sessions, the various associations or whatever - we will work hard to keep you informed. - Humber is a community in which everyone is respected for his ideas and effort - in which openness, controversy and debate is welcomed and hopefully a place where out of all this "creative" tension come programs of activity and service that are a source of great pride to all of us.

We hope you feel it is good to be back from a brief period of self-renewal ready to share your enthusiasm in the vital work that lies ahead in 75-76.

Sincerely,

Gordon Wragg

ACADEMIC STAFF HIRING

For the first time in the history of Humber College there has been no additional staff hired at the North Campus and the only additional staff added at Lakeshore were instructors in the Welding and Drafting Programs.

There will be a considerable number of new faces, however, replacing staff who have moved elsewhere.

CONSISTENCY IN SMOKING POLICY AT HUMBER COLLEGE

As of the beginning of September smoking is allowed only in non-instructional areas of Humber College.

This has always been in effect in all campuses other than the North. It is encouraging to note that in the many discussions that have led up to this policy statement there is a growing awareness of the need for a healthy learning environment and some consideration for the comfort of the non-smoker.

CAAT PENSION PLAN

A Committee from the Ministry of Colleges and Universities is studying the cost implications of possible amendments to the Pension Plan which would permit members of the Plan to purchase prior service credits for:

- a. reinstatement of previous CAAT pensionable service,
- b. active war service (World War II or Korea, in Her Majesty's Forces or designated allies),
- c. other public employer service.

To help establish the potential participation, anyone interested is urged to contact the Personnel Relations Centre at the North Campus for available details and a questionnaire form for completion and return to the Centre.

\$305,530 AWARDED TO HUMBER COLLEGE BY ONTARIO GOVERNMENT

Humber College has received a communique from the Minister of Colleges and Universities, James Auld, regarding a special grant from the Ontario Government.

Humber will receive a special Winter Works Capital Project Grant in the amount of \$305,530.

This amount represents Humber's share of a special two and a half million dollar Capital Projects Fund established recently by Darcy McKeough, the Ontario Minister of Treasury, Economics and Inter-governmental Affairs.

The Fund was to be allocated among the Ontario Colleges of Applied Arts and Technology in amounts directly related to the prevailing rate of unemployment within each College area and in accordance with a priority ranking of high labour content projects.

These funds are to be specifically assigned to the repair and maintenance of College buildings.

Humber's Lakeshore I Campus, formerly Lakeshore Teacher's College, will use these funds to undertake a much needed program of general building improvement and modernization of the campus heating and lighting systems.

Included among the approved projects is the creation of a new general purpose science laboratory for the North Campus in support of academic upgrading and nursing programs.

Letters to the Editor

TO THE EDITOR

I wish to extend through you a farewell to my friends and acquaintances at Humber College. I'm off to doctoral studies at the Ontario Institute for Studies in Education, supported by a Canada Council Fellowship and a part-time graduate teaching appointment.

I've sent to you a poem which I wrote when I left my last place of employment to come to Humber College. I know there are a few people here that I will not lose touch with, but in the main we do drift apart and go on with our own things, don't we? Best wishes to all.

I'm leaving, he said, though it grieves me,
How sad, they said, but why?
Oh you know, he said, it's time now,
Of course, they said, and where?
Away, he said, just someplace,
We see, they said, and when?
Soon, he said, quite soon now . . .
You'll come back, they said, and visit?
Of course, he said, I will;
When you're gone, they said, we'll miss you!
Me too, he said, me too.

One day when they were talking,
Isn't it sad, one said, he's gone?
Who's that, they said, someone's left us?
Has someone gone away?
Why yes, one said, don't you remember?
Old what's his name has gone.
Sincerely,
Doug Scott.

TO THE EDITOR

The other night I was listening for my number to be called during the Ontario Lottery draw thinking how great it would be to come to Humber as a Lottery winner.

My number wasn't called that night but I did think of the winner I was in working at Humber.

Humber is really a great place to work!

During the last year I received, from time to time, kindly reminders from David Grossman, Director of College Relations, to submit items of information for the College magazine, Humber Happenings.

Well, here's my story in a nutshell. Everyday at Humber Lakeshore is a HAPPENING. It has been a hectic year full of frustrations and problems. Problems, that at times appeared to me to be insurmountable, but somehow our Principal, Tom Norton, together with Al Picard, Gus King, Harry Kilty, Bill Sinnett, John Flegg and Bill Holmes managed to pull us through.

We're thriving in an atmosphere of excitement and optimism generated by our Principal who's faith in the future never waivers.

Needless to say bouquets are in order for a lot of people. In spite of our being scattered over five campuses, administrative, faculty and support staff work together as an important team with common goals and without this we wouldn't be Humber Lakeshore.

By the way, it's International Womens' Year and writing one's true feelings should be allowed. I hope my boss won't throttle me for writing this woman's eye view.

Wilda Harrison
Humber Lakeshore I

TO THE EDITOR

On behalf of the Etobicoke Branch of the Canadian Red Cross Society I should like to express our thanks to your Health Sciences Division for their hospitality during our two week course at Humber College.

It goes without saying that the physical surroundings contributed a good deal to the success of the course; more than that though, our people were much impressed by the spirit of cooperation, friendliness, and desire to serve that is part of the Humber atmosphere.

Our very best wishes to you. You serve the community well.
Yours very truly,

A.E. Jardine
Executive Director
Toronto Etobicoke Branch
The Canadian Red Cross Society

TO THE EDITOR:

Unique, diversified and challenging, Bridging the Gap is a program involving Seniors and students in conversation and discussion on a wide range of topics.

Claire Hobbs, last year's leader has donated her time for the winter series.

Subjects range from Religion to Politics to a look at Canada. Claire prepares controversial and thought-provoking questions to spark the discussions.

The Seniors appreciate the contribution of the students to the discussion as it adds a new dimension and viewpoint as well as providing a meaningful contact between seniors and young people.

NANCY EPNER and STEPHANIE PAULSON, co-ordinator and instructor of the Fashion Careers Program at the North Campus were guests of the T. Eaton Company at a special private opening and fashion show of their new fashion boutique, the Number One Shoppe. There were 300 of Toronto's most interesting people in attendance . . . COVEN, the newspaper produced by students in the Journalism Program, is being typed and printed through modern Computer Editing equipment located in the new Journalism offices on the second floor of the Creative Arts wing at the North Campus . . . MARG POLLARD, who resigned this summer as chairman of the Life Cycle Programs in the Applied Arts Division, is recovering from a recent serious automobile accident in Troy, New York. She suffered a broken collar bone in the accident . . . The Bookstore at the North Campus has expanded because of the need for more room. It is now the largest bookstore in the Ontario Colleges of Applied Arts and Technology . . . The Centre for Labour Studies at Humber begins a wide range of activities this month including courses and seminars. A labour film festival is also being planned this Fall . . . The Ontario Selects soccer team, ages 18 and under, trained at Humber recently before proceeding to the Canadian finals in Halifax . . . An International Student Centre has started at Humber under the leadership of Doris Tallon, Assistant to the President. One of the main purposes of the Centre will be to bring together students attending Humber who are from other countries . . . RON COLLIER of Humber's Music Department and composer of the music of the films Paperback Hero and Face-Off conducted the Humber College allstars at a summer noon-hour concert at the Toronto Dominion Centre. The allstars are a combination of the two Humber groups who placed first and second in the 1975 Canadian Jazz Festival . . . The Registrars Office reports that full-time enrolment at Humber this year totals about 7,000 students, which is the largest in the history of the College and one of the largest in Ontario . . . Humber's Lakeshore Campus was the site of the Pan Am Game Trials for Gymnastics recently . . . RICK BENDERA, Director of Athletics at Humber, was presented with a plaque from the Rexdale Warriors Lacrosse Association for Humber College's involvement as part of the community . . . PETER MAYBURY, Humber's Intercollegiate co-ordinator, was appointed treasurer of the Ontario Colleges Athletic Association . . . One of the finalists in the Miss Toronto competition held during the summer at the Canadian National Exhibition as part of the Metro Toronto Police Games plans to enter Humber College. CAROLYN BURRY hopes to enrol in the Nursing Program . . . Humber's Counselling Services Centre is now located opposite the Registrars Office at the North Campus in room C111 . . . SHELAGH TIPPET is the new CCL co-ordinator for the Athletics and Recreation Department . . . The new Flower Shop located in the former Travel and Tourism Boutique will be having an opening flower sale soon. Watch for it . . . CLINT HALL of Humber Lakeshore has written a 35-page book on poems called Sinaj. The book is published by OBS Enterprises in Mississauga. For copies call Clint . . . BARBARA NEWLANDS, a head groom at the Equine Centre, has left Humber to become manager of Citation Farms. JOANNE TURLEY and JAMES PILLAGE are the new grooms . . . FRANK THIBODEAU of the Centre for Continuous Learning and TED SCHMIDT, President of the

Student Union, are arranging a walkathon to raise money towards a Mobile Toy Library at Humber for Mentally Retarded and Handicapped children . . . MANUEL CARAMANCION has left the staff of TIBI as Market Research Analyst to become Economics Analyst in the Marketing and Planning Research Section of the Canadian Overseas Telecommunication Corporation in Montreal. He will be studying the feasibility of establishing and expanding national and international telecommunication systems on a number of projects . . . GERA ZELINGER of the Technology Division has written a review on the book "Light" by C.B. Daish. ZELINGER writes that the book is a compact first course in Optics. The review was published in Magazine La Physique au Canada . . . RENATE KRAKAUER, Director of the Centre for Women and DOT QUIGGIN, Counsellor, recently conducted a two-day workshop for women at the ManuLife Centre . . . KIT CARSON of the Training in Business and Industry Department is recuperating after breaking his leg from an unsuccessful parachute jump in Simcoe . . . RENATE KRAKAUER of the Centre for Women gave a presentation on "Women In The Workforce" at the Canadian Vocational Association's 12th Annual Convention in Saskatoon, Sask., appeared on a panel at the International Institute of Community Colleges held at Lambton College in Sarnia and was on a panel to discuss "Women In Social Work" at Carleton University in Ottawa . . . KEN MAC KERACHER, Dean of the Centre for Continuous Learning was elected President of the Ontario Association for Continuing Education and to the Board of the Canadian Association for Continuing Education . . . JUDY KNOOPS is Admission and Records Officer of Business and Commerce Programs at Humber Lakeshore . . . Humber was actively involved in the annual conference of the Canadian Library Association held in Toronto. Fifty librarians from across Canada toured Humber's North Campus as part of a workshop on library architecture. At the conference, DAVID JONES, a Humber delegate, was a pointed one of the two Community College representatives on the Academic Status Committee of the Canadian Association of College and University Libraries . . . JIM GAULEY, a student in the Advertising and Graphic Design Program at Humber designed the 1975 invitation for Awards Night . . . Twenty staff members in Humber's registrars office shared in the winnings of \$1,000 won during the Olympic Lottery draw. Winners of \$50.00 each were: Izabella Iwachow, Dave Buxton, Marilyn McCormack, June Burch, Joanne Burgin, Kathy Coupland, Debbie Moran, Mary Davy, Don Dean, Mary McCarthy, Beryl Lambert, Helen Gordon, Mike Feldman, Madeline Matte, Phil Karpetz, Moira Reid, Bernice Boven, Ian Smith, Vicki Heidinga and Jeanne White. The group purchased 10 tickets with an agreement to share all winnings . . . Students in Humber's Public Relations Program will again be involved in the Shine-rama campaign to raise money for the United Way . . . JOCELYN HEZEKIAH, of the Health Sciences Division has been appointed Chairman of Basic Nursing Programs for Humber's Osler and North Campuses. The plant and residence operation at Osler will continue to be administered by JACK BUCKLEY . . . The Centre for Continuous Learning and Transportation Department will again be offering free bus service to all students taking part-time evening courses .

PEOPLE AT HUMBER

LYNNE BERRY, former head of Equipment Booking with IMC, is now working with a Media Centre in Edmonton . . . DAVE SCOTT has also left Humber's IMC to join the Media Centre at Ryerson. Scott's position has been filled by GLENN MUNRO, a graduate of Humber's IMC program . . . BOB DAVIDSON, Chairman of Travel, Leisure and Fashion Programs in the Applied Arts Division, was vacationing in Honolulu recently and met Peter Topper, a former Humber staff instructor in the Business Division who was returning to his home in Australia . . . KATHRYN BARBER, Clerk for Conferences and Seminars, will be leaving Humber to attend George Peabody University in Tennessee . . . MARY HARRINGTON is the Divisional Facilities Co-ordinator for Human Studies and Student Services Division . . . JUDY KNOOPS has been appointed Admissions and Records Officer at Humber Lakeshore . . . STUART HALL has left the Human Studies Division to become Co-ordinator of the Community Studies Program vacated by PETER SMITH . . . MARG POLLARD of Applied Arts and MARY LOU DRESSER of Athletics have also left Humber . . . DERWYN SHEA, Director of the Neighborhood Learning Centres at Humber, was one of four Ontario residents appointed to join Toronto consultant John Fisher on the Ontario Liquor Advisory Committee . . . BERT WHITE, BARRY FRY and DON MATTHEWS have transferred from Humber Lakeshore to the Technology Division at the North Campus and ED HAMER and RONGEARD also of Humber Lakeshore will join the post-secondary staff at the North Campus . . . RON LEDUC has left Humber to become Dean of Instruction at Vancouver City College and KEN STAGG has also left to become Director of Training with the Borough of Scarborough. . . . RICK HOOK is Acting Dean of the Applied Arts Division . . .

Liz Ashton, instructor in Humber's Equine Studies Program, jumps Abracadabra during three-day event in the United States.

ASHTON OFF TO MEXICO

Elizabeth Ashton, an instructor in the Horsemanship Program at the North Campus Equine Centre will be competing in Mexico City in October with the Canadian Pan American Games equestrian team.

Miss Ashton has been a teacher at Humber for the past three years.

A member of the International Jumping Team in 1969 and 1974, Miss Ashton will be competing with Jim Day, Jim Henry, Peter Howard and Fran McAvity.

RL & MDC, PF/AF

What is it?

It's the abbreviated form of a major project underway at Humber College. In full, it's called a Residential Leadership and Management Development Centre, Physical Fitness/Athletics Facility. In short, it's called Complex 5.

What is it comprised of?

As its short title indicates, there are five components of the project. They are:

1. A Residential Leadership and Management Development Centre containing meeting rooms, class rooms, study rooms, a resource centre, catering and sleeping facilities.
2. A multi-purpose triple gymnasium to include a fitness centre and facilities for a wide range of physical exercises and athletics. Ancillary facilities include first aid, sauna and trainers' rooms, showers and dressing rooms.
3. A multi-purpose sports field for baseball, field hockey, rugby, soccer, track and field and other sports.
4. An international size ice rink suitable for hockey, figure and public skating, with seating for two to four thousand people.
5. A swimming pool for use as a training facility and for competitive, remedial and recreational aquatics.

Why do we need it?

At the present time, we lack adequate facilities for several of our full and part-time programs and community oriented activities.

These include among others, facilities for: physical fitness, sports and athletics programs for students, faculty and staff and the community-at-large; remedial programs for the physically and developmentally handicapped; leadership and management development programs and large gatherings.

Where will it be located?

Complex 5 will be situated along the northern part of the College's site at the North Campus.

The buildings will be constructed on the present football field, bordering Humber College Boulevard, the administration building and the transport depot. As for the sports field, it will be relocated in the flood plain bordering the 200-acre arboretum.

Who is designing it?

The architects for Complex 5 are Raymond Moriyama and Associates, who are best remembered for their design of the Ontario Science Centre and Scarborough Civic Centre.

When will it be built?

It is estimated it will take approximately three years to raise the total amount required, but as the complex can be constructed in phases and in any sequence, the commencement of construction will not have to wait until accumulation of the total amount required. We expect the initial construction will begin in the Spring of 1976.

In what sequence will it be built?

To some extent the sequence will depend upon the source of funds. However, we believe that three components - those in Phase I, namely, the Residential Leadership and Management Development Centre, the multi-purpose Gymnasium and the Sports Field will be the first to be constructed.

Phase II, the Ice Rink and Swimming Pool will follow at a later date.

How much will it cost?

Phase I, which includes the Residential Leadership and Management Development Centre, the Physical Fitness/Athletics Facility and the Sports Field will cost about \$8,000,000.00.

Phase II, which includes the Swimming Pool and the Ice Rink will cost approximately \$3,000,000.00.

Total estimated cost of Phases I and II is \$11,000,000.00.

How will Phase One be financed?

We have been assured that over a period of years we may expect to receive a Provincial Government Capital Grant of not more than \$2,000,000.00 leaving \$6,000,000.00 of the \$8,000,000.00 cost of Phase I to be obtained by means of donations from corporations, foundations, and individuals.

We believe that financial support for the project will be divided as follows:

Corporations, Foundations, Trade and Professional Associations and Special Events	Approx. 90%
Board of Governors, Faculty, Staff, Students, Alumni and Friends in the communities we serve	Approx. 10%
	TOTAL 100%

Aren't college projects like this funded by the Ministry of Colleges and Universities?

Our requirement for additional facilities is evident. However, because Provincial Government capital grants to educational institutions have been curtailed, we can not obtain sufficient money to fund the project from that source.

How will this project better Humber College?

The facilities at Humber are presently inadequate to meet the needs and demands of the growing community and the thousands of people who have been using the College. Complex 5, when constructed, will be the only integrated facility of its kind in North America. Conferences, seminars, leadership and management courses and a wide range of athletics and sporting events will be available to faculty and staff, students, business and industry and the community-at-large.

How many students have been educated or trained at Humber?

Humber has trained more than 188,000 students since it opened its doors in 1968. Of this total, more than 20,000 were full-time students, 34,000 took part-time credit courses and almost 27,000 enrolled for part-time non-credit courses. Humber's Training In Business and Industry Program, the largest in Ontario, has trained more than 107,000 people. Humber will continue to educate many new students and upgrade a large number of employees and trainees, which will produce a more skilled work force.

When will the Faculty and Staff Fund-Raising Campaign begin?

It began on 1 September 1975.

Who will be able to use Complex 5?

Everyone. The openness of the College together with our outreach have resulted in the establishment of close working relationships with numerous community-based organizations and groups. Faculty, staff, College and high school students and their parents, alumni, people in business and industry, government and community organizations, senior citizens, ethnic groups and the community-at-large are just a few of the groups who will use the facilities of Complex 5.

Will Complex 5 create more jobs?

Yes. The Residential Leadership and Management Development Centre will be headed by an Executive Director who will be supported by an instructional staff of full-time instructors and part-time management development specialists. Full and part-time instructors, coaches and consultants will be needed to staff the gymnasium, swimming pool and ice rink. Administrative and support staff positions will also be created.

Can my family use the facilities of Complex 5?

Yes, the Physical Fitness, Sports and Athletics Facilities will be open to everyone. Families of faculty and staff will be encouraged to visit and/or take part in a variety of events that will be held in the components.

Total Needed Gifts

Corporations, Foundations, Trade & Professional Association, Special Users and Special Events	\$5,315,500.00
Humber Family i.e. Board of Governors, Faculty & Staff, Full & Part-time Students, Alumni and friends in the community	685,500.00
	\$6,000,000.00

The Humber Family total is broken down as follows:

Board of Governors	\$ 50,000.00
Faculty & Staff	205,000.00
Full & Part-time Students	239,250.00
Alumni	70,000.00
Service Clubs	8,750.00
Friends in the Community	112,500.00
	\$ 685,500.00

What is the scale of needed gifts from Faculty and Staff?

The scale of needed gifts from faculty and staff totals \$205,000.00. The pattern below indicates both the number and size of gifts that will be required to raise \$205,000.00.

How much money has already been received? Any from faculty and staff?

Almost \$500,000.00 has been donated or pledged to Complex 5 by corporations and individuals. Advance contributions from faculty and staff have already passed the \$15,000.00 mark.

How much should I contribute and during what period of time?

That is entirely up to you. Your donation should be based on how much you can afford to contribute during a given period of time. That is to say, you can set up your pledge, if you desire, on a one, two or three year payroll deductible plan, with equal amounts being deducted every pay day.

Will I have to continue to financially support this project in the future?

Complex 5 will be self-supporting and will not require financial support.

Why is my contribution so important?

In order to achieve our objective of bringing Complex 5 into being we need the support of all segments of the community, corporations, foundations, associations, individuals, and the Humber College family.

Although the Faculty and Staff objective of \$205,000 is only 3.4 per cent of the total goal of \$6,000,000.00, nevertheless, it is a very important amount. This for two reasons. First, it is a large sum of money. Second, if we demonstrate our support of the project by meeting our internal objective, we shall find it considerably easier to influence all segments of the community to contribute.

Can I designate my donation to particular part of Complex 5?

Yes, your donation can be designated for any of the five components. Another program is underway for those wishing to honor a respected family name, the memory of someone dear or some outstanding person. We would be pleased to discuss "named giving" for amounts over one thousand dollars.

Is my donation tax-deductible and how do I make my payment?

Yes, your contribution is tax-deductible. If your decision is to donate by cheque, it should be made out to Complex 5, Humber College of Applied Arts and Technology and mailed to the Development Department at the North Campus marked "Personal". If you would like to pledge over a certain period of time, you can arrange for regular payroll deductions. We are registered as Canadian Charitable Organization Number 0344333-20-12.

Will anyone know the amount of money I donate?

All donations have and will continue to be kept in strict confidence. We are not responsible if you decide to mention the amount of your contribution to your fellow employees.

IT'S UP TO EACH ONE OF US

LET'S HIT THE TARGET!

COMPLEX 5

COMPLEX 5

Humber College is widely acclaimed for the quality and effectiveness of the large number of courses available and the variety of services rendered to our community. As we mature as a college and try to cope with the problem of inadequate resources to meet the demand there are fewer opportunities for creativity. Of course, there is much room for an improved curriculum for greater flexibility to accommodate part-time students and for greater operational efficiency. As a maturing college however, we will more and more be adding to and making improvements in what we are already doing.

One opportunity that has not been pursued is that of working with business and industry, associations, or whomever can profit by a residential type of learning experience. The willingness of industry to contribute funds is quite apparent. Should we as employees not endeavour to contribute as we are able to such an enterprise?

The effort to raise funds privately for Complex 5 has proven to be remarkably successful to date with in excess of \$400,000 being pledged or contributed primarily by private companies and earmarked mainly for the residential-leadership and management centre.

The phasing of the project would appear to favour this part of the complex especially since this phase not only is of most interest to donors but it also has the greatest potential for generating revenue once it becomes a reality. There can be no question that the educational package available to a large segment of Humber's clientele can be immeasurably enhanced by the provision of a living and learning environment right on the campus. Such a facility would give many Humber staff a larger scope for part-time teaching and a facility for our own short term residential learning activities whether Professional Development or other programs from which we as citizens of Metro might benefit.

You as an employee of Humber will be given an opportunity to contribute to this project and as part of an internal effort to raise capital funds you may expect to be approached this Fall. It is appreciated that circumstances or your own interests and priorities may be such that Complex 5 is not a project to which you wish to contribute. I do know however, that many of my fellow employees share with me the feeling that a portion of this world's resources that we have control over during a short life-span can serve a more worthy and lasting purpose via Complex 5 than in many of the other uses to which such resources would be put. It is amazing to realize that as little as \$1.00 per week (tax deductible) per employee would mean a total contribution of \$52,000. per year. Together we can ensure that residential post-secondary education would become a reality in Metro Toronto for the first time. Is there any better way, for any of us to "leave our footprints on the sands of time" than this?

Sincerely,

Gordon Wragg

FACULTY AND STAFF CAMPAIGN- SCALE OF NEEDED GIFTS

The following pattern indicates both the number and size of gifts that will be required to raise the faculty and staff campaign of \$205,000.

GIFTS NEEDED	RANGE	TOTALLING
1*	\$ 5,000.00	\$ 5,000.00
3**	2,500.00	7,500.00
4***	2,000.00	8,000.00
33	1,000.00	33,000.00
200	500.00	100,000.00
100	250.00	25,000.00
200	100.00	20,000.00
300	less than 100.00	6,500.00
841		\$205,000.00

- * Already donated
- ** Two of these already donated
- *** One of these already donated

FACULTY AND STAFF PRE-CAMPAIGN CONTRIBUTIONS ALREADY REACH \$15,000.00

Contributions from faculty and staff of Humber College towards Complex 5 has surpassed the \$15,000.00 figure even though the official opening campaign doesn't start until September.

"We're very pleased with this start," said Robert (Tex) Noble, Vice-President of Development and Campaign Chairman for the project.

"We don't look at their goal of \$205,000 over three years as being too high," he said. "The way we're going we may even surpass it."

A 20-foot high thermometer, located in the main concourse of the North Campus, will keep an up-to-date total of the amount of donations from the faculty and staff at Humber.

FACULTY AND STAFF CAMPAIGN STARTS IN SEPTEMBER

The faculty and staff fund raising campaign for Complex 5 will start in September according to Robert (Tex) Noble, Vice President, Development of Humber College and coordinating chairman of the project.

"All faculty and staff at Humber will be given every opportunity to participate in this worthwhile project," he said.

The campaign for faculty and staff is aimed at raising \$205,000 over the next three years.

When asked on how much a satisfactory contribution was from faculty and staff at Humber, Mr. Noble said, "That's entirely up to the person giving. Your donation should be based on how much you can afford to contribute during a given period of time."

Mr. Noble said pledges can be set up on a one, two or three year payroll deductible plan, with equal amounts being deducted every pay day.

ADMINISTRATIVE STAFF ASSOCIATION

A new executive was elected at the last meeting of the Administrative Staff Association.

David Guptill of Health Sciences is the new President with Ian Forbes - Roberts of the Centre for Continuous Learning as Vice-President. Ruth Shaw of the Vice-President - Academic's office is the Secretary and Jack Thomson of Financial Services returns as Treasurer.

According to David Guptill, this year looks to be the most active to date for Association.

The annual membership campaign will begin in September and a questionnaire will be circulated to all administrative staff concerning the role of the ASA.

HAWAII IN 1976?

Tentative plans have been announced for a combined Humber College and Ontario Funeral Services Association seminar, to be held in Hawaii, during the winter of 1976, according to a recent story in the Canadian Funeral Director Magazine.

The story goes on to say that the seminar dates will probably be February 29th to March 14th and the cost has been estimated at between \$650 and \$700 per person. This would include air fare, hotel, breakfast and suppers.

At least five morning sessions will be held each week. The trip will require a minimum of 100 people.

HOURLY INSTRUCTION RATES INCREASED FOR PART-TIME FACULTY

The hourly rate of pay for part-time instruction has increased according to a report received from the Ontario Council of Regents.

In accordance with a common practices agreement among the community colleges of Metro Toronto the following policies and processes concerning hourly rates of pay for part-time instructors in all Division and at all campuses of Humber are to be implemented for day, evening and week-end teaching assignments.

All instructional personnel who were actively engaged as part-time hourly paid instructors during the 1974/75 academic year and who re-engaged for the 1975/76 academic year will automatically receive a rate increase of one dollar per hour.

Following an assessment of all relative previous teaching experience, returning personnel so qualified by virtue of years of experience may be placed at a higher point to the maximum of an appropriate category range.

The hourly rate for all new part-time instructional personnel will be determined by the nature of the assignment and by the number of experience equivalency factors.

The rates are:	OLD RATE	NEW RATE
Minimum	\$ 7.00	\$ 8.00
Maximum	\$15.00	\$20.00

PICTURES FROM LEFT TO RIGHT ARE:
David Guptill, President; Ruth Shaw, Secretary; Ian Forbes - Roberts, Vice-President; Jack Thomson, Treasurer.

FOUR STAFF MEMBERS AT HUMBER RECEIVE RECOGNITION FROM OISE

Norma DeCastro, Marina Heidman, Kay McMurray and Mariano Alves, all members of Humber's Health Sciences Division, recently received a letter of credit from the Ontario Institute for Studies in Education.

The letters were obtained for successful completion of Unit 2 - Theory and Practice of Adult Learning in the Colleges of Applied Arts and Technology (CAAT) Certificate Program.

The course is an advance teacher education program designed to supplement existing professional development programs in the CAAT System.

EDMUNDS OFF TO ZAMBIA

Harry Edmunds, Director of Physical Resources at Humber, is off on a two-year sabbatical to Zambia.

Edmunds, one of the original 35 staff members who came to Humber in 1967, will be Controller of Technology through the Canadian International Development Agency in Lusaka.

Edmunds accidentally met Tom Norton's (Principal of Humber College's Lakeshore Campuses) father, who is Assistant Director of Technical and Educational Training for the Ministry of Education in Zambia and began discussing jobs in the African country.

"It's mangos, lemons, bananas and 85 degree weather and a tough job for the next two years," said Edmunds before he left last month.

Jack VanKessel, of Humber's Business Division, is another staff member on sabbatical in Zambia.

BILL BELL

IB JENSEN

TWO DEVELOPMENT OFFICERS ASSIGNED TO HUMBER

The Ministry of Colleges and Universities has transferred 21 Development Officers to certain College of Applied Arts and Technology in Ontario.

The move, effective this month, was designed to make as much use of the officers as possible according to Tom Norton, Principal of Humber Lakeshore and former Dean of the Retraining and Apprenticeship Division.

"The Federal Department of Manpower and Immigration allows for 15 million dollars to be spent by industry for the purpose of training new workers for new jobs and to also upgrade the present workers", said Norton.

"This is done through the Canadian Manpower Industrial Training Plan (CMITP) and the two men joining us will continue to assist industry by helping design training programs", he said.

Bill Bell and Ib Jensen are the two who have been assigned to Humber to work with the College's extremely successful Training In Business and Industry Department.

FIVE TIMES A YEAR

Humber Happenings will now publish five times a year.

The College magazine will have editions printed in Spring (April), Summer (June), Fall (September), Christmas (November) and Winter (February).

All contributions should be submitted through Divisional Contributing Reporters to the Director of College Relations no later than the 11th day of the month preceding a publication date.

OPEN HOUSE AT CENTRE FOR WOMEN

Humber's Centre for Women will be having an Open House on Friday, September 26th from 11:00 a.m. to 2:00 p.m.

If you're interested in finding out more about the Centre or would like to inquire about additional information on courses and seminars offered by the Centre then here's an excellent opportunity.

Visit the Centre for Women during the Open House for refreshments and conversation.

TOGETHER AT HUMBER

Humber College will be opening a Children's Activity Centre later this month that will result in kids and their parents going to school together.

While their parents are in class, the children will be occupied in their own area.

The idea is new and the Centre is located down the hall from the Centre for Continuous Learning at the North Campus.

Ken MacKeracher, Dean of CCL, says the program is not a day care centre.

"The children will only be there a few hours a week," he said. "Essentially, the program is for the convenience of parents who are part-time day students at Humber or are attending conferences or seminars."

MacKeracher said Humber has agreed to go ahead with the project in the hope of attracting part-time students who would normally be unable to attend classes because of baby-sitting problems.

The Childrens Activity Centre is located in room D119 and is open from 8:00 a.m. to 5:30 p.m. Fees listed below include juice and cookies.

For one child:

- a. 75¢ per hour for periods less than three hours
- b. \$2.00 for a three-hour period
- c. \$5.00 for a full day (8 hours) - lunch not included

For two children:

- a. \$1.25 per hour for periods less than three hours
- b. \$3.25 for a three-hour period
- c. \$8.00 for a full day (8 hours) - lunch not included

For three children:

- a. \$1.50 per hour for periods less than three hours
- b. \$4.00 for a three-hour period
- c. \$10.00 for a full day (8 hours) - lunch not included

For families of four or more:

- a. \$1.50 plus 25¢ per child for each hours, for periods less than three hours: e.g. 4 children = \$1.75
5 children = \$2.00
- b. \$4.00 plus 50¢ per child for each three-hour period, e.g. 4 children = \$4.50; 5 children = \$5.00
- c. \$11.00 for a full day for 4 children (8 hours)
\$12.00 for a full day for 5 children, etc.
Lunch not included.

Children will be required to come with all their required personal supplies, e.g. infants - diapers, formula, etc., children - if registered for a full day, lunch and a change of clothes.

For more information please call 676-1200, extension 202.

DONALD SEXTON, a teaching master in the Advertising and Graphic Design Program at Humber College, died of a heart attack last month.

Don, 56, joined the staff at Humber in September 1971. He attended the Ontario College of Art for three years and was extremely well known in the Advertising and Graphics Industry.

He was an illustrator for 21 years with MacLean's Magazine, Chatelaine Magazine, Canadian Home Journal and Mayfair Magazine.

Don was also Senior Art Director for the advertising agency of Cockfield Brown and Company Limited from 1957 to 1970 and some of his duties included television and outdoor poster advertising and sales promotion. During the years 1944 to 1946, Don was the set and stage designer for the Canadian Army Show overseas.

Committees played a major role for Don as he belonged to many including the Art Directors Club of Toronto, Ontario Society of Artists, Canadian Society of Graphic Artists and was President of the Artists Club in Toronto.

Don was born in Toronto in 1919 and leaves his wife Pat and two children, Stephen, 15, and Denise, 11.

INSTRUCTIONAL MATERIALS CENTRE

Tony Hiscoke, Chairman of IMC, recently attended the 5th Annual Association for Media and Technology in Education in Canada (AMTEC) Conference in Calgary. Tony was elected to serve as a Director of the Association for 1975-76.

Jerry Millan, Production Co-ordinator of IMC, attended a two-day Multi Image Programming Seminar in Ottawa. The seminar studied the history of multi image programming, viewed a wide variety of programs and produced an automated multi image presentation.

Doug Roberts, the previous Distribution Room Technician has been appointed Head of Media Services. Doug will coordinate the daily operations of Equipment and Media Booking, TV Distribution and the Video and Film Library.

NEW ADDITIONS TO HUMBER FILM LIBRARY

Sixty new films have been added, over the summer, to the Humber College film library, which is located in the Instructional Materials Centre.

Jerry Millan, says the new films bring the number of instructional and documentary films to 450 available from IMC.

The films purchased in consultation with Academic Divisions, cover a wide variety of subject matters including Business Management, Health and the Social Sciences. For a complete outline of college media, check the listings in all divisional offices or IMC Media Booking.

LONG DISTANCE AND TOLL CHARGE CALLS

Long distance and toll charge calls can be made only through the switchboard at the North Campus according to Bob Howie, Director of Office Services.

"When people dial to make a long distance call they will hear a siren signal," said Howie. "They should call our switchboard for long distance business calls only and give the local they're calling from, their name and Department or Division, the location of the number called as well as the area code and number."

"This new system," said Howie, "is an economy measure."

HUMBER BUS SCHEDULES

The Humber College Transportation Club and the Student Affairs Office have published their 1975 bus route maps and schedules.

Cost for the use of Humber transportation this year is \$30.00 for a semester pass and 35 cents for individual bus tickets.

The above can be purchased from Office Services located in the Administration Building at the North Campus. Drivers will not accept money under any circumstance.

All complaints and suggestions should be directed to Don McLean, Transportation Manager at extension 458 or Laurie Sleith, Student Affairs Co-ordinator at extension 522.

A new route added this year is the Eringate-Markland Woods route listed below. Others include routes via Keele, Lakeshore, Osler, Etobicoke and Malton.

RECIPE OF THE MONTH

Igor Sokur, Co-ordinator of the Hotel and Restaurant Management Program, will have a regular recipe in this space.

Response from readers to the "Recipe of the Month" feature has been outstanding. We'd be happy to hear more of your comments.

Igor's recipe on the Canadian Grape Pie will be demonstrated at the Blue Fountain Room in Toronto on October 9th. The demonstration will be part of a public culinary demonstration by chefs from the Colleges of Applied Arts and Technology in Toronto.

FRIED COTTAGE CHEESE CAKES WITH SPICED HONEY SAUCE

1 lb. regular-curd cottage cheese	1/2 tsp. nutmeg
1/2 cup fine granulated sugar	1/2 tsp. salt
2 egg yolks	1/2 tsp. vanilla
1/3 cup all-purpose flour	1/2 cup fine bread crumbs

Combine all ingredients (except flour and bread crumbs) in mixing bowl. Mix well with a wooden spoon. Mix flour and bread crumbs well and spread on wooden board.

Take approximately 3 rounded tablespoons of batter and drop onto flour/bread crumb mixture on the board. Form into round patties. Turn over to coat all surfaces with flour/crumb mixture. Fry in oil/butter until golden colour. Turn over and fry on other side.

Serve immediately with spiced honey sauce.

SPICE HONEY SAUCE

1 cup liquid honey	1/4 tsp. ground cloves
1/4 tsp. cinnamon	1/4 tsp. ginger
1/4 tsp. nutmeg	1/4 tsp. cardamom
1/4 tsp. coriander	

Combine and bring to a boil. Set aside.

PHOTOS ON FRONT COVER

The front cover of Humber Happenings is made up of a series of photos on the campuses of Humber College of Applied Arts and Technology.

The description of the photos are as follows:

Exterior of Osler Campus (top row left), exterior of Humber Lakeshore I (top row centre), exterior of Humber Lakeshore II (top row right), exterior of Quo Vadis Campus (second from left in second row), exterior North Campus (third from left in second row), interior Lakeshore I (second row right), Keelesdale Campus (third from left in third row), Humber York Centre (bottom row left), Lakeshore III (bottom row, second from left), Queensland Campus (bottom row, third from left), interior North Campus (far right bottom row).

CALLING ALL GOLFERS!

The Fifth Annual Humber College Business Division Invitational Golf tournament will take place on Sunday, September 21st at the Cedarhurst Golf Club.

This year, the tournament will have two flights. The Championship is open to College, University and Secondary School teams as well as players with a bona-fide handicap of 10 or less. The best three scores from any number of players will count for team standings.

The Regular flight is open to all other players. Gross and net prizes will be awarded. Tee off is at 9:00 a.m.

Registration is \$10.00 and the tournament will be played regardless of weather conditions. A buffet dinner will be prepared by students in Humber's Hotel and Restaurant Administration Program.

The Cedarhurst Golf Club is located 65 miles northeast of Toronto in Beaverton. For more information, maps and registration contact the Business Division at extension 257.

WHITTAMS RECEIVE SPECIAL AWARD FROM SCARBOROUGH

Frank Whittam, a teaching master in Humber's Business Division, and his wife Mary recently received a special award for outstanding service to the Borough of Scarborough.

Mr. and Mrs. Whittam have lived in Scarborough for 26 years and for 20 of them, have instructed and directed handicapped children in aquatic recreation.

In 1960, when the Recreation and Parks Department started the Crest Club at the swimming pool of Porter Collegiate, Mary and Frank assumed the responsibility of this Club.

Since then, they have assisted hundreds of handicapped children through different stages of aquatic advancement from adjustment to water stage and including efficient, safe and capable deep water swimming.

Although the Whittams no longer direct the Club, they still continue to support the programme.

The award was presented by the Mayor of Scarborough, Paul Cosgrove.

Paul Cosgrove (left), Mayor of Scarborough, presents Mary and Frank Whittam with a special award for outstanding service to the Borough of Scarborough.

AMBULANCE EXCLUSIVELY FOR HORSES

The Ontario Jockey Club, housed at Woodbine Race Track, wants to equip a van for use as a race-horse ambulance.

If a vehicle is equipped by the Jockey Club, an injured horse could be transported quickly to surgical facilities at Humber College's Equine Centre at the North Campus.

This club is considering the move after the tragedy of the champion race horse RUFFIAN who had to be put to sleep because of a broken leg sustained in a race.

HUMBER MAY HOUSE REMEDIAL RIDING

Humber College could become the next home for the Community Association for Riding for the Disabled.

If CARD finds the \$300,000 necessary to build a centre, its headquarters will be located adjacent to Humber's Equine Centre at the North Campus.

Current drawings from architects for the proposed building call for 16 horse stalls, riding area, lounge and storage facilities large enough to provide feed for six months.

Rick Hook, acting Dean of the Applied Arts Division, said CARD's arena will be linked to the Olympic-sized arena built by Humber.

The purpose of CARD, said Hook, is to provide disabled people with the opportunity to ride horses with the help of special equipment and facilities.

MANSON LEAVES HUMBER AFTER EIGHT YEARS AS DEAN

Fred Manson, Dean of Applied Arts at Humber for the past eight years, resigned from the College during the summer.

Manson has since accepted a position as Chairman of Applied Arts at Northern College's South Porcupine Campus in Timmins.

In the first few years of Humber, Manson was instrumental in initiating many new programs that are now well established. He also played a major role in bringing to Humber many children's events and cultural performances and was responsible for the successful Multicultural Festival.

In an open letter from him to the Board of Governors, Manson said: "While we have all had some winters of discontent, we've been blessed more than can be recorded with spring and summer dreams . . . followed by boundless harvests.

Harvests of ideas, plans, talents and service. Harvests of friendship. Pioneering routes. Striving.

We have come a long way since our first May-June 1967 preparation for Fall classes. May the College continue to enjoy the 'longest run'."

SKI WORLD '75

A ski swap, fashion show, draws for free trips and a passport to hundreds of exhibits are some of the exciting highlights planned for Humber's Ski World '75 show next month.

The show is a repeat of last year's attended by more than 8,000 people.

Ski World '75 will be held on October 24, 25 and 26 at the North Campus. It's presented in conjunction with the Ontario Ski Resorts Association.

For more information contact Dan Matthews in Applied Arts or watch for posters.

WORK ON HUMBER ARBORETUM BEGINS

Work has already started on the Humber Arboretum planned for the valley to the west and north-west of Humber College's North Campus.

A team of representatives from the Borough of Etobicoke, Metro Parks, the Metro Toronto and Region Conservation Authority and Humber have agreed on how the arboretum will take shape.

The arboretum - the word means a botanical garden exhibiting vegetation for its scientific interest and educational value - would be "in essence a . . . garden of a very low maintenance requirement," said Rick Hook of Humber's Applied Arts Division and chairman of the four-group committee.

Hook said the vast majority of the almost 300 acres would ultimately be MTRCA - owned and might cost one million dollars to develop over a 10-year program.

Hook says plans for the area include bike and equestrian trails as well as sports facilities used by Humber College.

HUMBER CENTRE GETS NEW NAME

The Peel Humber Developmental Centre at Humber's North Campus has been renamed the Humber Developmental Centre.

"Legislation has been granted whereby Community Colleges can now own and be responsible for Developmental Centres," said Bryan Stanish, Director of the Centre. "In past they used to be operated by Associations for Mentally Retarded in Ontario.

The Humber Developmental Centre is designed primarily to meet the educational and training needs of children who are functioning at such a level that existing programs are unable to provide for them.

These children are either severely or profoundly retarded with or without multiple handicaps.

REPORT RELEASED ON UNIVERSITY STUDENTS STUDENTS ATTENDING COLLEGES

The Ministry of Colleges and Universities has published a report on the progress of full-time post-secondary students in the Colleges of Applied Arts and Technology who have had previous university experience.

The information relates to the Fall 1974 term for registration and background data and to the Winter term of 1974 for information on graduates, after graduation intentions and reasons for student withdrawal.

The information available in the Colleges is not as comprehensive as that produced for the Universities because the student's university experience is not a pre-requisite for admission to a College, whereas the opposite is true for the University applicant.

In brief, in the Fall term of 1974, there were 3,562 full-time post-secondary students in the college with some university experience. This represents 6.5 percent of the overall college enrolment, and it is almost evenly divided between males and females.

Of the total, 1,123 were enrolled in programs in Applied Arts, 825 in Technology, 748 in Health Sciences, 669 in Business and 195 in other Divisions.

The Ministry's report states that 803 of the students graduate with more than 500 of them getting employment in related jobs. Of the estimated 500, about 150 had starting salaries of at least \$8,000.00.

A surprising total of 435 students withdrew during that year from courses in the Colleges. Programs in Applied Arts suffered the most with 160 leaving while Business had 99 and Technology 79.

Of the 65 students who left Humber after graduation 46 had jobs with 24 of them starting with annual salaries of at least \$7,000.00.

SOLAR ENERGY MAY HEAT HUMBER

Humber College may tap the sun's energy resources as a means of heating its newest campus.

The College is committed to finding alternate methods of heating the Lakeshore campus, now housed in the former Teachers' College.

"The point is that the pure fossil fuel system of heating is no longer acceptable," said Tom Norton, principal of the Lakeshore campus. "We must look at all kinds of alternatives."

Architects and consultants are now looking at the possibilities open to them in their designing of the campus which will one day encompass 600,000 sq. ft.

An alternate energy source, Norton said, could be a use of the heat stored in Lake Ontario or a clean garbage incineration system.

The growth of the newest campus will be completed in phases that will allow experimentation in the use of solar energy at each stage, explained Norton. Future buildings may be constructed on the basis of success of the pilot projects, he added.

"We will try and design the buildings to maximize the amount of heat contained in it, Norton said. "In other words, we're trying to find the most efficient way of reclaiming heat.

Humber's north campus now uses a central heating plant, but College administrators are looking at alternatives there also. In one economy measure, the College's air conditioning was kept shut a month longer into the summer than usual, commented Norton.

"Humber, like other large institutions, must continue to re-examine and find ways of keeping costs down," he said.

NEW BUSINESS CHAIRMAN AT HUMBER LAKESHORE

Graham Collins has been appointed Chairman of the Business Division at Humber Lakeshore.

He has been Co-ordinator of Professional Development at Humber for the past year and a half and also Program Co-ordinator of Commercial Studies.

In past, Graham was Senior Program Co-ordinator of Business at Centennial College in Scarborough.
