Chant

When you complete the four levels of Conversational French (or the equivalent) and one of the two following courses — Grammar Review or Reading, Writing and Composition — you can select any three courses from the French evening courses in the right column to obtain a CERTIFICATE OF PROFICIENCY IN THE FRENCH LANGUAGE.

This Certificate means that you and your employer have an official recognition of your French language skills.

WEEKENDS

Initiation au fonctionnement du micro-ordinateur
Programmation
Guitare I

SUMMER

French à la carte

- an immersion program offered mornings on a weekly basis

Immersion programs in Québec

- total immersion programs (three weeks) in Jonquière or Rivière-du-Loup, or any number of linguistic Centres in the Province of Ontario

PROJECTS

We are planning an intensive series of 15-hour weekend immersion programs

Students in marketing will have the opportunity to participate in an exchange of students with a Québec college in January 1984.

A similar program will be available to media students in September 1984.

To respond to the community's needs, Humber College has been offering French courses for several years with growing success. We obtain ideas from an active twelve member Advisory Committee on French Programming. Several areas of development are under evaluation to provide our students with the language skills required in their field.

R.C.P. (Ressuscitation cardio-pulmonaire)
Premiers soins

- ces deux cours seront sans doute offerts très bientôt à un petit groupe d'étudiants en sciences de la santé

Au fur et à mesure que les étudiants des écoles d'immersion atteignent le niveau collégial, nous élargissons notre gamme de cours enseignés en français.

Le département de français du collège Humber a maintenant le plaisir de travailler avec un comité consultatif pour évaluer les domaines les plus prometteurs afin de développer des cours appropriés en français.

The French Language and Humber College

Effective communication is the driving force of any society. In Canada, bilingualism plays an increasing role in national and international business. Governments require more and more individuals who can function in both official languages. Indeed, knowing a second language widens one's cultural life in Canada.

This is why Humber College wishes to provide various opportunities, at a most reasonable cost, for people who speak French as a second language or as their mother tongue. As the need arises, we will expand our programming.

Without ever sacrificing quality, all our courses are inexpensive. We are proud of our team of qualified instructors and of our proven methods and modern language laboratories. There are many offerings from which to choose.

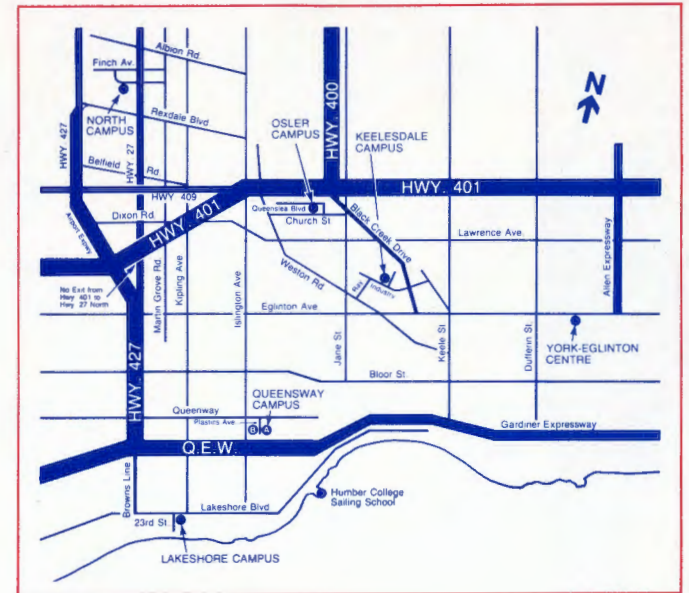

Professional and Management Development Centre offers conferences and seminars with sessions in French. Socio-cultural activities in French are also scheduled including a French Choir, La Ramasse.

We also provide French training to groups and companies, particularly where customer service is involved. Indeed, with the growing needs of our bilingual society, the ability to function in French is becoming a valuable asset for employers.

Give us a call today. Phone Raymond Doucet at 675-3111, ext. 261 or 361.

Vous êtes cordialement invités à nous faire part de vos suggestions et commentaires car nous élargissons constamment notre gamme de cours et d'activités en français.

Le coordonnateur de la programmation en français est Raymond doucet que vous pouvez rejoindre à 675-3111, poste 261 ou 361.
