BAGS AND FOLIO IN MCGUIRE GALLERY

An exhibition of work from students in the graduating year of Humber's Advertising and Graphic Design Program will be on display in the McGuire Gallery from February 16 to February 27.

The Gallery is open from 10:00 a.m. to 4:00 p.m., Monday to Friday. Admission is free.

The first two weeks of February featured a multi-media show in the Gallery called "The Bag". It contained all concepts of bags as expressed by staff and students in the Fine Arts and Advertising and Graphic Design Programs.

CANADA IN CARPET

Ben Chapman, an instructor in Humber's Floorcovering Installation program, recently made a 12 foot long by 7 foot high map of Canada out of carpet.

The map was on display during the Floorcovering Show at the CNE and was made of carpet from the Crossley Karastan Company.

Each province was made in a different colour carpet surrounded by a deep blue.

The map was presented to the head office of Crossley in Truro, Nova Scotia.

PRAISE FOR HUMBER FLOORCOVERING PROGRAM

The Director of the Floor Covering Institute of Ontario believes the new Floor Covering Program at Humber will go a long way towards upgrading standards in the industry.

Bill Hunter, who has been in the business for 28 years, said "If we can ever educate the dealer and his staff properly, we will have won the battle on behalf of the consumer and for the whole industry."

The Floor Covering Program at Humber is two years in length and includes carpeting sales, resilient floor covering and installation. It also includes measuring, estimating, maintenance, advertising and related subjects such as law and business mathematics.

Instructors in the Business Division Program are Ben Chapman, Syd White and Chris Christensen.

GIVE BLOOD IN MARCH

First year students in Humber's Public Relations Program will conduct their second red cross blood clinic in four months.

This time the clinic is a three-day event called for March 16, 17 and 18 at the North Campus.

Organizers expect the turnout to be the largest yet. Bad weather caused the December two-day clinic to fall about 170 pints short of its 699 total. Almost all of the donors last time were students which has resulted in organizers asking for assistance from the faculty and staff at all Humber campuses.

GYMNASTICS CENTRE OPENS AT LAKESHORE

Humber College is pleased to announce the formation of a Gymnastic Training Centre at its Lakeshore I Campus.

The Centre is equipped with Olympic standard apparatus and will be staffed by former Soviet national Olympic team coach, Evgenii Galperin.

The background of Galperin is extensive in the gymnastic coaching field. He will be teaching techniques that are unknown in North America at the present time.

The purpose of the Centre will be to provide gymnasts and their coaches from any club or school in Toronto with a place to work out. For more information call Frank Franklin at 252-5571.

STUDENTS PRESENT AWARD TO APPLIED ARTS INSTRUCTOR

Barrie Saxton, Coordinator of the Law Enforcement Program at Humber, looks at award he received from part-time evening students in the Advance Police Science Program.

The 25 students, members of the York and Peel Regional and Metro Toronto police forces, presented him with the award in appreciation for an excellent course during the Fall semester.

The Advance Police Science Program provides an opportunity for serving police officers to further their education in topics like civil rights, nature of crime, the young offender and police in minority groups.

MEN NEEDED!

Humber's three-year Child Care Worker Program is in desperate need of full-time male students according to instructor George Stamper.

"Outside agencies and organizations are in desperate need of male child care workers," he said. "And for some reason the male isn't interested in this program or course of study." The Child Care Program has been taught at Humber for some six years and of the 150 graduates, only five were male.

According to Stamper, 24 students are eligible to graduate from the Program in June and all are females.

"Maybe the name of the Program is turning potential students right off," said Stamper. "The Program does not teach you how to be a baby sitter. It's completely different. Once the student has successfully completed the three-year Program he or she has learned, among other things, how to work with emotionally disturbed children and those who have behaviour problems and brain damage."

For more information on the Child Care Worker Program call Grace Nostbakken or George Stamper at extension 220 or 370.

ROBERTS FUND REACHES \$266.00

Donations to the Conroy Roberts Bursary Fund continue to come in with the total now at \$266.00.

The Fund is in aid of students from the Caribbean who are in need of financial assistance in order to complete their education at Humber College.

Roberts, a former junior accountant with the Centre for Continuous Learning, was killed in a car accident in 1974.

ANTI-INFLATION ACT TOPIC OF SYMPOSIUM

An all day symposium discussing the federal government's Anti-Inflation Act was held on Monday, February 9th at Humber College.

The event, organized by Humber's Centre for Employee Benefits, included discussions with senior officials from the Federal and Provincial Governments.

The keynote address was given by S. Hanfield Jones, Assistant Deputy Minister of Finance, of the Government of Canada. Ross Peebles of Ontario's Cabinet Committee on Wage and Price Guidelines spoke on how the act operates in this province.

Cecil Kellough and Jim King, members of the Compensation Branch of the Anti-Inflation Board, analysed some of the guidelines and problems of the act.

The symposium was open to the public and stressed the areas of compensation and employee benefits.

HUMBER LIBRARIAN ORGANIZES INFORMATION SYSTEM FOR MIGRAINE

David Jones, a reference librarian at the North Campus library, has set up an information retrieval system for the Migraine Foundation in Toronto.

The Foundation is a new organization with the major aims of educating specialists, sufferers and the public about migraine; encouraging research on migraine and establishing clinics to serve migraine sufferers.

The system is a cross-indexed file of abstracts of more than 1,200 articles on migraine from medical and scientific journals and is most certainly a great addition to the Foundation and to medical research.

Derek Horne, Vice-President of Administration at Humber, died December 18, 1975 after a long illness.

Mr. Horne was born in Victoria, British Columbia in 1922 and was part of a large family that included four brothers and a sister.

He was in the Canadian Army from 1939 to 1942 and later served as a flight lieutenant in the Royal Canadian Air Force and was an instructor with them until 1952.

Mr. Horne obtained his Chartered Accountant certificate, became a fellow of the Chartered Institute of Secretaries in 1957 and was a member of the B.C. Institute of Chartered Accountants for four years.

Mr. Horne then moved to Montreal and joined the firm of Touche, Ross, Bailey and Smart until 1964. He was Personnel Director of Canada for the firm and later became one of its partners.

In 1965, he became comptroller and assistant secretary for the Ontario Institute for Studies in Education (OISE).

Teaching was also a part of his life. He taught accounting at Montreal's Sir George Williams University and at the University of Toronto. Mr. Horne was once editor of the "Education and Training" section of the Canadian Chartered Accountant magazine.

Mr. Horne joined Humber in 1969 as business administrator and two years later was appointed Vice-President of Administration. He was responsible for the overall budgeting and financial problems at Humber and played a major role in wiping out a one-and-a-half million dollar deficit at the College last year.

DEREK HORNE MEMORIAL FUND

More than \$1,000 has already been contributed to the Derek Horne Memorial Bursary Fund in memory of Humber's former Vice-President of Administration.

Donations can be sent or delivered to Gord Smith in Financial Services at the North Campus. Contributions of more than \$5.00 will receive an income tax receipt.

Staff speak out!

QUESTION: What would you like to see at Humber during the College's 10th Anniversary celebrations?

To produce a slide-tape presentation which would publicize the educational opportunities for health care workers who provide health care to the community. And, at the same time involve civic groups in dialogue which will emphasize that Humber College curriculum is designed to require high standards of quality care from its graduates. I feel we must be aggressive in explaining that Humber College is concerned about the wide expenditure of tax dollars for quality education for its graduates in the Health Sciences Division.

Eleanor Cameron
Librarian
Osler Campus

I'd like to see the entire faculty and staff at Humber work together and help one another more often. That's my 10th anniversary wish. We're one Humber College, not nine.

Ben Chapman
Floorcovering Installation Program
North Campus

I feel that long lasting results to this occasion would be best appreciated by the Humber staff. Therefore, I think that a collective endeavor to renovate the old farmhouse to its natural state should be done with the goal of providing lounge facilities for employees of Humber College. This would allow the Humber staff to use the farmhouse as a social gathering during special occasions.

Also, a tree planting day could be held with Humber employees planting a tree, under the supervision of our Grounds Department, within the campus grounds. This would serve to beautify our grounds and mark our birthday. Later we could all gather and enjoy a large barbeque and square dance.

Vincy Sorbora
Property Services
North Campus

To celebrate Humber's 10th Anniversary, the best happening is one that would help rekindle the spirit of '66.

Frank Ryan
Senior Program Coordinator
Technology Division
Lakeshore II Campus

I'd like to see a special publication highlighting the success rate our graduates have in job or career placements. It would also be nice to see a written and photographic history of the College marking Humber's progress over the past 10 years.

Ruth Bennett
Admissions and Records Officer
Lakeshore III Campus

It is our hope that we of the Humber community do not become complacent but always try to improve the personal, academic and vocational services that we offer to our students.

Connie Carter
Instructor - Commercial Programs
Keeleesdale Campus

Karl Mallette, TTC Commissioner

Mike Lyons, Public Service Alliance of Canada

WORKERS, BOSSES, GOVERNMENT

Humber's Centre for Labour Studies, Channel 19-TV Ontario and the Labour Council of Metropolitan Toronto recently conducted an open forum titled "Workers, Bosses, Government" at Humber's North Campus.

The week-long forum examined the many issues associated with the relationship among workers, employers and government.

Some of the panel members included Ed Broadbent, Federal Leader of the New Democratic Party; John Munro, Federal Minister of Labour; Karl Mallette, a Commissioner with the Toronto Transit Commission and Hugh Buchanan, Ontario Director with the Retail, Wholesale and Department Store Union.

"Much useful information was gathered as a result of the forum and especially from the follow-up evaluation," said Joe Grogan, Director of Humber's Centre for Labour Studies.

All sessions were taped by TV Ontario for future use.

John Munro, Federal Minister of Labour

Ed Broadbent, NDP Federal Leader

Dennis Flynn, Mayor - Borough of Etobicoke

HUMBER FASHION SHOW

Students from Humber's Fashion Careers and Fashion Modelling Programs staged a fashion show at the Harbour Castle Hotel during the first week of February.

The students modelled some of Spring '76 fashions available at Humber's Box 1900 boutique, located at the North Campus. The show was held during a lunch for the Association of Colleges of Applied Arts and Technology in Ontario.

PR STUDENTS OFF TO OTTAWA

It's off to Ottawa in March for first, second and third year students in the Public Relations Program.

The Ottawa trip, the first ever for students in the Program, will include a seminar at the head office of the Canadian Public Relations Society and a tour of a fully computerized newspaper in Canada, the Ottawa Citizen.

FILM FOR SALE

Third year students in the Cinematography Program at Humber have completed a film production at a cost of almost \$1,000.

Called "Okay Beamish Out!", the film will be sold to an agency to cover the cost of production.

STAFF VOLUNTEER AT HUMBER

Seventy male faculty and staff members of Humber College volunteered last month to participate in a coronary prevention program directed by Doctor Alick Little, Professor of Medicine at the University of Toronto.

The aim of the program was to detect those at high risk of coronary heart disease and to involve them in a long term treatment program. The Humber volunteers were between the ages of 35 and 59.

OPSEU SUPPORT STAFF

The general meeting of local 563, support staff of the Ontario Public Service Employees Union (OPSEU) will be held on Saturday, February 28th, 1976.

The Humber branch meeting will take place in the Student Union lounge at the North Campus starting at 10:00 a.m. followed by a buffet luncheon.

DID YOU KNOW

CRYSTAL BRADLEY of the Human Studies Division took a group of Family and Consumer Studies students to an Ontario Housing Project to view the site for a major report . . . Humber's Equine Centre was the site of an Ontario Quarter Horse Association clinic. Elections were held also for executive positions with the OQHA . . . **HELEN MIGUS** is leaving Humber after spending two years in the College's first Early Childhood Education class and seven more as an instructor in Humber's nursery school . . . **DICK BURGIS** resigned as Director of the Equine Centre. He will remain on staff as a teaching master in the two-year Equine Studies Program . . . **PHIL STONE**, Coordinator of the Radio Broadcasting Program, is serving on the Inter-Faith Committee of the Holy Blossom Temple. Each year the committee has a dialogue with a Christian church. **STONE**, who is co-chairman this year says the exchange is with Calvin Presbyterian Church . . . **GARY NOSEWORTHY** of the Human Studies Division presented five sessions on the Psychology of Communication to the Association of Jewish Senior Clubs earlier this month . . .

A SALUTE TO INTERNATIONAL WOMEN'S YEAR

"We were just sitting around and joking during the recent holidays about how much fun it would be to write a song," said Greg McQueen, an instructor in Humber's Health Sciences Division.

"Since International Womens Year was coming to an end my brother-in-law and myself figured we'd pay a tribute to it by putting a song together," he said.

And so it was done. The song, called the Twelve Months of Womens Year and to be sung to the tune of the Twelve Days of Christmas is as follows:

*On the first month of women's year my true love gave to me
a visit from Germaine Greer.*

*On the second month of women's year my true love gave to me
two dishpan hands
and a visit from Germaine Greer.*

*On the third month of women's year my true love gave to me
three headaches
two dishpan hands
and a visit from Germaine Greer.*

*On the fourth month of women's year my true love gave to me
four shopping lists
three headaches
two dishpan hands
and a visit from Germaine Greer.*

*On the fifth month of women's year my true love gave to me
five wrinkled shirts
four shopping lists
three headaches
two dishpan hands
and a visit from Germaine Greer.*

*On the sixth month of women's year my true love gave to me
six bras a burning
seven loads of laundry
eight why not buttons
nine fractured egos
ten T. V. dinners
eleven MS. subscriptions
twelve nervous breakdowns*

What do you want in a newspaper?

From the Picton Gazette

Just what does a reader want to see in a local paper?

It is a question that has as many answers as there are readers. But one newspaperman, with tongue in cheek -- just how far in cheek is questionable -- wrote these answers to the perennial question:

1. My name.
2. A front page article showing how crooked the city government is most of the time.
3. My wife's name.
4. A feature article showing 25 ways on how to cheat on income tax forms.
5. My kid's names.
6. A local news item about the affair my neighbor is having.
7. A classified offering a new home for sale for \$4,000.
8. More news about lawbreakers.
9. Less news about lawbreakers. I was picked up last night and I should not have to pay a fine.
10. An editorial condemning high school teachers for being too liberal with "F's".
11. A wedding picture of the groom instead of the bride when he is more handsome than she is pretty.
12. A sports picture of me when I bowled 183.
13. More advertisement on things that merchants are giving away.
14. A front-page picture of my neighbor being hauled out of the bar by his wife.
15. A front-page spread about the deadbeat who lives across the street from me who just had his car repossessed.
16. Forget that last one. I just got word from the finance company that they're coming after my car.
17. More letters to the editor naming the crooks we have in town.
18. A full page of local news, a page of national news, several pages of sports and comics, one page on divorce and three pages on all the domestic troubles we are having in town.
19. Less stuff about how cute everybody else's kids are. My kids are better looking than those you rave about.
20. A complete biographical sketch about the "most important citizen in town," and be sure you spell my name right.

TO THE EDITOR:

Keith Martin, a graduate of the P.R. Program in '72, has been appointed Public Affairs Officer for the Government of Alberta.

Keith will be based in Edmonton will but travel throughout the province in his job. He was one of several hundred applicants for four jobs and was one of seventeen who were flown to Edmonton for interviews before final selection.

Previously, Keith was Information Officer at Loyalist College and before that in the Information Section of the Ontario Ministry for the Environment.

Hugh Morrison
Coordinator
Public Relations Program
North Campus

TO THE EDITOR:

Thought your readers would like to know that Cliff Lorimer has achieved his ambition - he is now a full-time broadcaster on CKPG, Prince George, British Columbia.

As you may recall we got him a position as a copywriter there and he's very good at that, too! But all the time he was hoping to be a disc jockey and after a while was given one show a week and now we're told he's off copy and totally on the air and, I suspect, a very happy fellow!

The remarkable thing is that he is doing the all-night show - by himself.

Phil Stone
Coordinator
Radio Broadcasting Program
North Campus

TO THE EDITOR:

On behalf of the Board of Governors, doctors, nurses, staff and patients of Etobicoke General Hospital, I would like to thank you for the donation of the two gingerbread houses to our Pediatric level. These are now on display on the Sixth Level with an appropriate sign designating the donor.

The two gingerbread houses were delightful in design and structure and are certainly a credit to Mr. Igor Sokur, the coordinator of the Hotel and Restaurant Administration, and to the students fortunate enough to be enrolled in his course. Their work is much appreciated by patients and visitors on that level and many of the small patients can hardly wait to sample the confections.

Thank you again for this very thoughtful gesture.

Yours sincerely,

J.L. Arnott
Vice-Chairman
Board of Governors
The Etobicoke General Hospital

NEIGHBOURHOOD LEARNING CENTRES

Directors of Humber's Neighbourhood Learning Centres have tended to come from the clergy.

Bill Phipps, former Director of the NLCs, left Humber to become a United Church minister and in 1974 Derwyn Shea, an Anglican Priest, took over.

Derwyn's main obligation is with the Centre for Continuous Learning at Humber College but he also finds time to carry out responsibilities like being Vice-Chairman of the City of Toronto Planning Board and a member of the Executive Committee of the Ontario Liquor Advisory Council.

Shea, Reverend Shea or just plain old Derwyn, as he likes to be called, was born in Hamilton and raised in Toronto. He graduated from Keele Street Public School and attended Humber College for two and a half years before being expelled "for trying to start a girls cadet corps."

He then joined the armed forces at the age of 16 as private and after three years left to work for Bell Telephone in marketing and as a consultant for emergency and reporting systems. Shea worked in Kitchener, Sudbury and Oshawa and at one point was responsible for the area west of Sudbury to the Manitoba border.

Shea educated himself and eventually attended Huron College at the University of Western Ontario in London. He obtained his Bachelor of Arts degree, three years later received his Diploma in Theology and then went to the University of Chicago for his Bachelor of Theology degree.

Shea got his Masters degree and Doctorate in Urban History and Social Structure from yet another post-secondary institution - the University of Toronto.

In April of this year, he will be the first Canadian to be granted a Fellowship in the Academy of Parish Clergy at a special ceremony in Philadelphia.

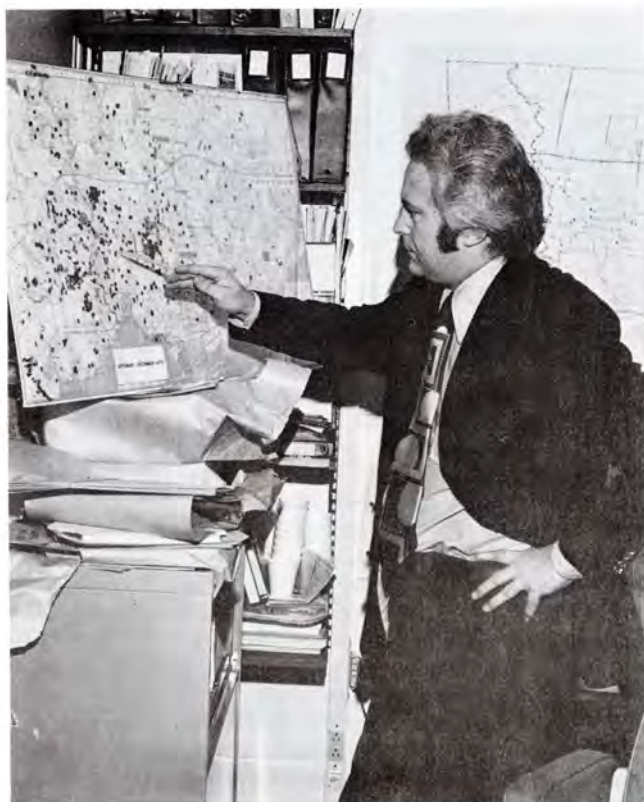

Shea, no doubt, is busy with many responsibilities but finds time to be a member of the Lions Club. East end Torontonians know him as Founding Director of the Eastview Neighbourhood Association which still has the largest after school program for children in Canada and he is associated on a part-time basis with the St. Clement Church in Riverdale.

At Humber, Shea says he has had a chance to consolidate NLC's in a workable and meaningful structure in the Borough of York and at the same time begin some new developmental areas like offering courses day and night, workshops and mini-conferences.

NLC's are truly becoming what they're named according to Shea - a place to access a broad range of educational experiences right in your own community. He was the driving

Profile

Derwyn Shea

force in setting up a working relationship in York for the Borough's library board, University of Toronto and Guelph University to join the existing triumvirate of the Borough of York's Board of Education, Parks, and Recreation and Humber in bringing education to the community.

Shea feels it was a right move to offer education in existing community buildings and as he puts it "with a little help from my friends we put together statistics to show enrolment is up drastically each year." The NLC system is the first of its kind in Canada with a partnership. Many are copying the style but have no partnership. He adds that at least two contacts per month are received from across the country enquiring about the NLC concept and it's success.

For Shea, the next step is a difficult one. How to work out a partnership with the Board of Education and/or Parks and Recreation for the Borough of Etobicoke? He says it can be done and once again has facts indicating large numbers of residents in Etobicoke are taking courses in York. At this time, he perceives a real need for at least one NLC in the centre of the Borough. But for Etobicoke, as was the case in York, it's a whole new ballgame.

FATHER BART RETIRES FROM BOARD

Father Bartholomew DeSimone has retired from the Board of Governors of Humber College after serving two full four-year terms.

He was the Borough of York's representative to the Board and served on the Property and Planning Committee until 1972. He then became a member of the other major area of the College, the Program Committee.

"Father Bart", as he is known by many, was born in Marlborough, Massachusetts, where he attended junior and secondary school. He studied for the priesthood in New York and Lowell, Mass., and was ordained into the Franciscan Order in 1944.

He also taught for 15 years in Boston and in 1961 was made parish priest of Palenville, New York. The following year, Father Bart became the priest for the Church of the Immaculate Conception in York Township, where he stayed for 11 years. He is now serving Toronto's St. Mary of the Angels Church.

Father Bart has been secretary of the Board of Directors of Northwestern Hospital for the past seven years. He enjoys sports as a spectator and plays golf.

Humber has been honored and extremely fortunate in having him as a member of its Board of Governors.

NEW NAMES TO BOARD OF GOVERNORS AT HUMBER

Ivy Glover has been appointed to the Board of Governors of Humber College by the Council of Regents. Mrs. Glover replaces Florence Gell as the official representative from the community college's governing body.

Mrs. Gell has been reappointed to the Board as the representative from the Borough of York replacing Father Bartholomew DeSimone who completed his eight year term on the Board.

Arnold Gould is another appointee to Humber's Board as the official representative from the labour movement. He replaces William Farquhar who retired after completion of his term.

Other members of the Board of Governors at Humber are James Beatty, James Corcoran, Doctor Norman Gunn, Olive Hull, William Liscombe, Clifford Muir, Frank Seymour Spiro Vozoris, Donald White and Gordon Wragg.

SOKUR'S INTERNATIONAL CUISINE

International buffet luncheons will be held every Tuesday from 12 noon to 1:30 p.m. in Igor's Dining Room (D-111). Buffets will feature the cuisine of many countries. Food preparations and services will be provided by second year students in the Hotel Management Program.

Selections from the buffet table can be made from a variety of appetizers, soups, salads, poultry, meat and fish as well as desserts and beverages. A cost of \$4.00 per person covers the entire meal.

Luncheons already served included selections from Hungary, France, England and Spain. Listed below are those for the next two months:

February 24	- Scandinavian	March 30	- French
March 9	- Polynesian	April 6	- Canadian
March 16	- Russian	April 13	- Swiss
March 23	- Chinese		

Admission by reservation only. Call Eleanor Matthews, Business Division at extension 257.

LUNCHEONS FROM FAMILY AND CONSUMER STUDIES

In case you can't get to any of the Tuesday international luncheons in Igor's Dining Room, you now have an opportunity to try on Fridays.

Students in the Family and Consumer Studies Program at Humber are preparing luncheons on Fridays from 11:45 a.m. to 12:45 p.m. in room H329. Reservations must be made in advance by calling 676-1200, extension 487. Luncheons are \$2.00.

Luncheons already served by these students include foods from Poland, Germany, China, Australia, Mexico and Persia. Listed below are those for the next two months:

February 20	- Japanese	April 2	- Spanish
February 27	- Italian	April 9	- Hawaiian
March 12	- African	April 16	- Jamaican
March 19	- Greek	April 23	- International
March 26	- Armenian		

BRITISH LECTURER AT HUMBER

The principal lecturer during the Geometronics '76 seminar series at Humber in March and April will be Lieutenant Commander Alan Ingham.

Ingham, a member of the Hydrographic Survey Department at North East London Polytechnic in London, England, was with the Royal Navy Survey Service for nine years.

He has written two books on Hydrographic Surveying and is currently on a working group on Standards of Competence for Hydrographic Surveying for the Federation Internationale des Geometres.

OOPS?

In the last edition of Humber Happenings, a story about Umesh Kothare and bio-feedback, titled "How is Your Love Life?" failed to indicate two things.

Firstly, the story originated from an open forum discussion at York University in Toronto and second, certain comments in the Humber Happenings story were quotes taken from the reporter for a daily newspaper. The discussion at York was on applications of Bio-feedback Training for Education and Psycho-therapy.

We apologize for any embarrassment caused to Mr. Kothare by not mentioning these items.

Clint Hall

*"How do I miss you?
Like a little boy
Whose friends have gone away?
Like a little girl
Whose doll has been lost?
Like a father
Whose loved ones have departed?
Like a mother
Whose offsprings have left? . . ."*

Love, affection and closeness. These feelings are all expressed in the work by Clint Hall, an instructor at Humber's Lakeshore I Campus.

Hall, who was born in Oshawa and lives in Mississauga, has been writing poetry for 30 years and has just recently published his work.

"I like to think that a person has feelings about something or someone on many occasions and that he or she selects ways to express them," said Hall. "For me, it's writing about them."

*"Love is
A ball with a hole in it,
that must be continually primed
or it will go flat.*

*Love is
Making someone feel wanted. . ."*

Hall said much of his work is more than just words.

"I'd say that about 90 per cent of the poems I've written are based on my own experiences," he said.

In 1972, Hall released his first book "THIS IS LOVE". The 56-page pocket book contained a number of black and white photographs. Included were the feelings of hate, jealousy, fear, memory and time.

A 25-page book called "POEMS" was published and available to the public the following year and in 1974, he released his third book "SINAJ". According to Hall, his last book, which contained a picture of him on the front cover is the most popular.

Hall came to Humber nine years ago and has taught hair-dressing apprenticeship to some one thousand hairdressers.

During an interview with him, he commented on a day in which he played hooky from school at the age of 16.

"That day I hid my books in a boxcar near our home in Oshawa and when I went back to get them at 4 pm, the boxcar was gone," he said. "I found out it was moved into the General Motors plant for loading where my father was a foreman. He came home with my books and said if I didn't like school, I should go to work. Well, in a couple of days, I was polishing and buffing bumpers at GM."

Hall went to night school after GM, then joined the Royal Canadian Air Force and graduated as a pilot before spending two years in Air Transport for the Royal Air Force in England."

When he returned to Canada, Hall attended school in London and Detroit and then opened a beauty salon and wholesale business in Oshawa.

*"Every soul on this earth
Is a judge
Of his own domain.
If you do something good
Look for praise and credit,
If you do something bad,
Be prepared to pay the consequences."*

Hall says there is good news for followers of his poems.

"I am almost finished work on my fourth book," he said. "There is still no title selected, but it should be available by the Spring of this year."

10th ANNIVERSARY LOGO

Humber College will have a special logo for its 10th Anniversary year.

The logo was created by Julie Moss, a first year student in the Advertising and Graphic Design Program at Humber.

The design represents the number 10, the letter "A" for anniversary and an arrow symbolizing progress.

The new logo will appear on all promotional material and letterhead through the year along with Humber's standard logo.

HUMBER - A COLLEGE FOR ALL AGES

Jeffrey Berry is one of the youngest students at Humber College.

He is 11 months old and is a student in the Childrens Activity Centre at Humber's North Campus.

While Jeffrey spends his time playing with the variety of toys his mother, Sherri Lynne, takes first year classes in the Medical Secretarial Program.

HUMBER COLLEGE'S

10TH ANNIVERSARY

IT'S THIS YEAR!

HUMBER STUDENTS WINS \$50,000

It was joy and excitement recently, to say the least, for a 19 year old Humber College student.

Donna Skura, a first-year student in General Arts & Science, won \$50,000 in the recent Wintario lottery.

She was the owner of the one dollar ticket number 97688 in series 22.

The Etobicoke student says she plans to put the money on a downpayment for a home for her parents and will also buy a car and dog for her brother and sister.

FURNITURE INSTRUCTOR DESIGNS BENTWOOD SCULPTURE

System 25 is a bentwood sculpture in ash, cherry, mahogany and walnut and was designed by the coordinator of Humber's Furniture Design Program.

Tim Stanley said he designed the exhibit to commemorate the 25th Anniversary of the School for American Craftsmen at Rochester Institute of Technology.

The work, developed in 1967-68 for a Master of Fine Arts degree thesis, involved new techniques and applications of bentwood.

System 25 is a complex unity of curvature and sinuous lines of bentwood woven in space. It was presented as a gift to the American Craftsmen School's permanent collection.

RESEARCH PROGRAM UNDERWAY BY HUMBER'S CENTRE FOR WOMEN

The Centre for Women has begun a research project with women in the community to determine what kind of help will encourage them to plan for their futures in employment.

Through five free workshops given in local areas of Etobicoke and York, they will help women assess their situations, explore possibilities, and identify obstacles that prevent them from developing career plans.

Heather Bates from the Ontario Institute for Studies in Education will assist the Centre in designing and carrying out the workshops and in analyzing the data collected. The Centre for Women hopes to gather some useful information and some clear statistics that will help the Centre for Continuous Learning plan programs for a segment of the community that is not being reached at present. The project is made possible by a grant from the Educational Development Fund of Humber College.

Profile

Rick Bendersa

Bendersa said a check was then made involving a trip to Finland and Sweden and he just recently received invitations from both Ice Hockey Federations. Again the problem of not enough time only this time to raise funds and get organized for the competition. The result was a postponement until next Christmas.

"It's full steam ahead now," said Bendersa. "We'd like to play about four games in each country if it can be arranged but first we have to check out the financial package to see if the trip is possible."

Arrangements this year are being made between FINNAIR representative Mark Gilio in New York and Bendersa.

Last year's 10-day Swiss trip which returned in time for classes in January cost each Humber player only \$150. The price covered meals, accommodation and transportation. Bendersa feels the Sweden-Finland trip could be in the same area of money.

With plans to play in Finland, the obvious question now in the minds of many concerns the thought of playing a Russian college hockey team?

Once again Bendersa had a cool answer.

"Give us time and don't count us out yet."

Rick Bendersa could be called the Allan Eagleson of Humber College.

It's as simple as that once you know that Bendersa, Director of Athletics at Humber, has kept his eye on every possible opportunity involving his hockey team competing on an international level.

Last year, Bendersa played a major role in the organization and planning of a trip by Humber's varsity team to Switzerland during the Christmas break. The Hawks played four games against Swiss national A and B teams winning three and tying one.

"The entire trip was an educational experience in itself," said Bendersa. "For many of us it was our first time in that country and learning about the people, their society, culture, history and economy and just their way of life was something that a lot of us are not only still talking about, but will never forget."

But before the visit came the planning which is sometimes frustrating as was the case for another trip during the 1972-73 academic year. It finally fell through.

"It was the year we tried to send our hockey team to mainland China," he said. "We had meetings and a series of letters and telegrams between us, our federal government and our Canadian ambassador in Peking who at the time was a friend of Humber's President, Gordon Wragg.

Bendersa said that many people thought it was a joke, but it wasn't as far as he was concerned, and he almost pulled it off.

"We were a month too late," he said. "The Chinese said they'd be pleased to have us but there were two problems at the time. They had a small sports schedule and it was always planned about two years in advance. In our case, they're last vacant spot was filled about four weeks before our application."

Bendersa said a trip in the near future was still a possibility. But for now, Humber's Eagleson is putting his cards on the table towards a 1976 Christmas trip for his hockey troops to Finland and Sweden.

"We almost pulled off a return trip to Switzerland this past December," he said. "But it was pretty well impossible because the Swiss had a hard championship program underway in preparation for the February Winter Olympics and there wasn't enough time."

NORTH BEATS LAKESHORE

It was originally planned as ice time for faculty and staff of Humber but according to John Cameron of Purchasing Services, "it's turned into a real campus series."

Two hockey games have already been played between faculty and staff from the North and Lakeshore campuses. Both resulted in wins for the North by scores of 7-4 and 4-1.

Players are still needed along with spectators. Games are played in rink 4 at Westwood Arena on Fridays between 4:45 p.m. and 5:45 p.m.

HUMBER WINS OCAA TITLE

Members of Humber's championship tennis team gather for picture after winning Ontario Colleges Athletic Association tennis finals in Toronto.

Humber finished with 22 points, three better than Centennial and four better than Seneca.

EQUINE CENTRE ACTIVITIES

Students in the full-time Equine Studies Program at Humber have volunteered to work at Quarterama. The show will be held during the first week in March . . .

Shows and activities start to get underway in the Equine Centre with a three-day Roperama being organized for the Easter weekend in April. Events, according to Barry Thompson of the Equine Centre Staff, will include goat tying, barrel racing and calf roping . . .

Elizabeth Ashton, an instructor in the Equine Studies Program, is a member of the equestrian team representing Canada at the summer Olympics this year in Montreal . . .

Second year students in the Equine Studies Program will go on a field trip this semester to Ottawa. One of the sites on the trip is the facility of the Royal Canadian Mounted Police.

NLC STAFF GROWTHS TO THREE

The success of Humber's Neighbourhood Learning Centres has increased to the point that the College has hired another staff member for the NLC operation.

Rosemary Sadlier, who was born in Toronto and has lived in the Borough of York for 20 years, has been hired as a Community Researcher for the Black Community in York. Miss Sadlier graduated from Vaughan Road Collegiate and has her Bachelor of Arts degree in Sociology from York University.

She worked as a volunteer with the Bloor-Bathurst Information Centre offering information, assistance and counselling to residents of that area before coming to Humber. Other volunteer work has been with the Metro Toronto Association for Mentally Retarded assisting mentally handicapped adults acquire skills leading to independence and showing them constructive ways of using leisure time.

The hiring of Miss Sadlier was made possible by a grant from Humber's Education Development Fund. She will be working three days a week.

Derwyn Shea, Director of Humber's NLC's and Program Development Consultant Peter Murchison, are the other staff members in that area of the College.

HUMBER LAKESHORE NEWS

Humber Lakeshore recently hosted 40 instructors from the Saltfleet Campus of Hamilton's Mohawk College. Instructors, on a one-to-one basis, formed Workshops dealing with Individual Instruction and Continuous Intake, Effective Classroom Organization for Self-Paced Learning, Instructor Boredom and Individualized Instruction, Organizing English As A Second Language, Multi-level Learning in the Classroom, Effective Use of Audio-Visual Resources, Tracking and Motivational Problems and Problems Encountered in the Development of ILP Programs.

The Mohawk delegation was extremely pleased with the day-long event which was organized by Rick Embree, Rowena Forgas and Ruth McLean.

Lyle Bebensee, no novice in the documentary film field, flew to New Zealand and Australia early in January to do some extensive filming. He made a film earlier called "Rising Wild and Beautiful".

Doug Campbell and John Davey from the Teaching-Learning Centre at Seneca College and Bob Cloutier from the Quebec Ministry of Education, joined a number of Humber Lakeshore teaching staff in the Program Development Department during the first week of January.

The visitors came to explore an in-service faculty training program in Course Design aimed at self-paced learning.

Profile

Ken Cooke

Boats, boats and more boats are more than just a hobby for Humber's Captain Video.

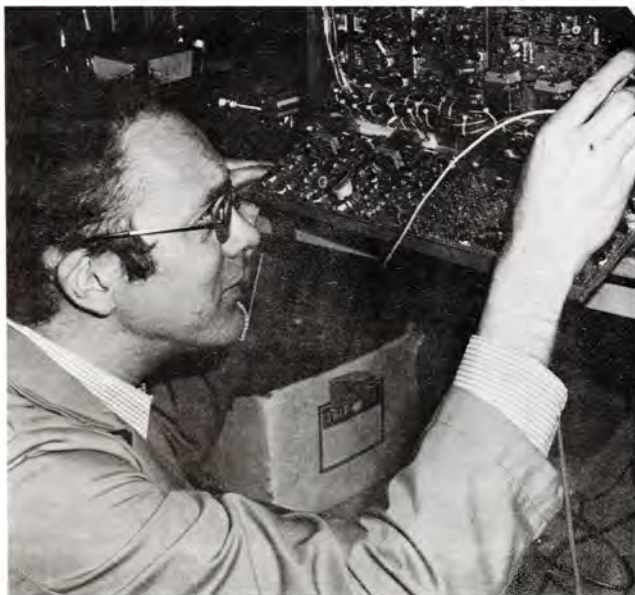

You see, Captain Video is the nickname given to Ken Cooke by his colleagues in Humber's Instructional Materials Centre. As for the boats, Cooke owns an entire fleet of them.

Cooke, Head of Engineering and Technology for IMC, has spent almost his entire life designing, building and entering his gas, electric and sail boats in various competitions across Canada and the United States.

Born on a farm in New Carlisle, Quebec 31 years ago, Cooke went to school in Quebec and graduated from Radio College in Montreal with a Television and General Electronics Certificate.

He worked for RCA in Toronto for five years as a technician, at one time was responsible for a staff of 35 and was also in charge of closed circuit television, sales and installation of RCA's Toronto Region.

Cooke has also been in Toronto's Don jail and Milhaven. That is, he was in charge of the installation of TV monitors in cell blocks in all provincial correctional institutions while working for Tele-Tech Electronics. His job with this company, as he explains, "was to design odd-ball equipment."

Cooke has also installed a close circuit TV system for a Loblaw's shareholders meeting at the Ontario Place Cinemasphere as well as installing video equipment at the Penetang Mental Hospital.

His work at Tele-Tech was mainly centred around the repair of TV monitors, audio amplifiers and portable video tape recorders belonging to Humber, that in November 1974 he decided to join the staff at the College.

Cooke, who is married and has a child, lives in Oakville. He has been a member of the Metro Marine Modellers for 12 years. This Toronto group of about 100 build models sail, gas and electric boats.

Cooke owns five gas boats, each about three feet-long with a speed of 50 miles per hour; one 48-inch electric boat and his most recent addition, a six foot-long sail boat with an eight-foot high mast. The boats are made of wood, plastic and fiberglass.

Cooke is always at the Toronto International Boat Show at the CNE exhibiting some of his models, especially the gas boats which have won three international trophies. All his boats are controlled by radio transmitter and he can even run two boats at once.

Many people have offered him all kinds of money for his boats. As much as \$600 for his sail boat, and \$1,000 for one of his gas boats and \$3,000 for the electric but Cooke says he won't part with them yet.

Some of the added features on the fully operational electric boat are motors, propellers and sirens on one transmitter while a second transmitter controls a take-off and landing helicopter.

Cooke says he likes a challenge and at the recent boat show he got just that. His helicopter sunk six of the eight times he attempted to electronically land it on his boat and that, he says, came after three months of practice.

"I like inventing and designing things that many people say can't be done," he said. "And I do it all as a hobby and not for money."

Cooke, who was born near water, enjoys every aspect of it from sports to fishing. As for the immediate future of Captain Video and his electronic mind, well, it's designing things like a remote-control beach ball, constructing a submarine that'll fire torpedoes and building a . . . that's right . . . a snoopy that'll swim?

IGOR'S RECIPE

PACIFIC SALMON WITH SAUCE HOLLANDAISE

INGREDIENTS:

Salmon fillets about 4 lbs; 2 medium size carrots; 1 medium onion; 1 stalk celery; 1 lemon; 20 peppercorns; 4 bay leaves; 1 qt. water or fish stock; 2 cups white wine; 1/4 cup sherry; 1-1/2 tbsp. salt; 1 tbsp. butter.

METHOD:

Grease the pan with 1 tbsp. butter. Add finely chopped vegetables and chopped lemon; herbs and spices; wine and sherry and water and salt. Place salmon fillets in pan. Cover with greased foil paper or parchment paper. Bring to boil. Reduce heat and simmer for 10 minutes. Remove from heat. Let stand for 10 minutes, do not remove cover.

To serve, remove the salmon on to heated platter and serve with Hollandaise sauce.

SAUCE HOLLANDAISE

For your enjoyment take 4 egg yolks; 1/2 lb. salted butter; 2 tbsp. water; 1 tsp. lemon juice.

METHOD:

Take double boiler; bring water in double boiler to almost boiling point; in the bowl whisk the egg yolks and water until thickened; add lemon juice and start adding pieces of room temperature butter until all the butter is incorporated with the egg yolk mixture. Serve at once.

RADIO INDUSTRY LECTURES TO STUDENTS AT HUMBER

Students in Humber's Radio Broadcasting Program continue to get some of the top people in the radio industry to them. In January, Dick Smythe, News Director at CHUM and Judy Casselmen, Music Director for CKEY were just two of the guest lecturers.

Names of some of the people booked for February are Gerry Good, Program Director of CHFI and Keith Rich, Morning Announcer at CKEY. In March, lecturers include Stuart Brandy, Vice-President of CKEY and open line host John Gilbert of CHUM.

The Canadian radio industry has approved Humber's unique three-year program and many graduates have been given employment opportunities on a full and part-time basis throughout Canada.

OSLER NURSING STUDENTS GET CAPS

One hundred and fifty first year Nursing students received caps in January during their traditional ceremony at Humber's Osler Campus.

The caps will be worn as part of the students uniform when they do hospital work in the second half of their first year of study.

A new cap was also introduced consisting of a fold and made of starched cotton. The original Osler cap was four inches high, vinyl and had pleats donating the Canadian provinces and territories.

NYET, NYET

A Humber College data processing student, Terry Smith, simulated the recent Philadelphia - Soviet Union hockey game on an IBM 370 - 135 computer and ran it through 11 times.

The Soviets won the first game 1-0, but Philly took the next 1-0. One game came out exactly as it did at the game, a 4-1 finish with the goals in the right periods.

The Soviet got shut out in three games, the highest score was 5-2 and the lowest 2-1.
