We Acknowledge

The University of Guelph-Humber and Humber College are located within the traditional and treaty lands of the Mississaugas of the Credit. Known as Adoobiigok, the “Place of the Alders” in the Michi Saagig language, the region is uniquely situated along the Humber River Watershed, which historically provided an integral connection for Anishinaabe, Haudenosaunee, and Wendat peoples between the Ontario lakeshore and the Lake Simcoe/Georgian Bay regions. Now home to people of numerous nations, Adoobiigok continues to provide a vital source of interconnection for all.

Close-knit community

With a population of 4,900 students and an average class size of 40, you can easily connect with classmates, professors and staff to be supported.

Workplace experience

Every honours degree program has required work placement hours that are built into your regular course of study.

Study in Toronto

Campus is located in northwest Toronto—a diverse, connected city.

Honours degree + diploma

The university degree and diploma reflect the academic and hands-on education you receive.

Degrees + Diplomas

What does it all mean?

Universities and colleges offer a variety of credentials. Understanding what UofGH offers you can help you make the right choice.

University all the way

All courses you take at UofGH are university-level courses.

Some courses are taught by University of Guelph professors and some courses are taught by Humber instructors. But every course earns you university-level credit.

Honours degree

Typically completed in four years of full-time study and often focuses on a particular discipline. It provides the widest range of options should you wish to pursue postgraduate study.

Diploma

When you graduate with a diploma, it means you've completed courses and gained technical, hands-on experience you can apply directly in a specific field.

Honours degree + diploma

The university degree and diploma reflect the academic and hands-on education you receive at UofGH.

4 Years

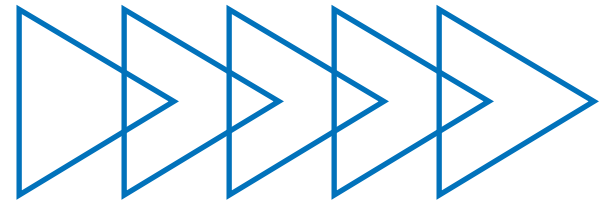

As a UofGH student, you complete your honours degree and diploma at the same time in one location and graduate in four years.

2 credentials + 1 location = More in 4 years

Who We Are

The University of Guelph-Humber combines all the best things about a university and a college in Ontario.

University of Guelph-Humber

The University of Guelph-Humber was the first in Ontario to offer an opportunity to earn both a university honours degree and diploma in four years in one location when UofGH opened its doors in 2002. A collaboration between the University of Guelph and Humber College Institute of Technology & Advanced Learning, UofGH was founded on the principle of integrating experiential learning opportunities into the traditional academic curriculum. Providing workplace experience for every student is a core component of every program.

You study in one location, the University of Guelph-Humber building on Humber's North Campus. In your four years of study, you will earn an honours degree from the University of Guelph and a diploma from Humber because the curriculum employs the learning that leads to each of these postsecondary accomplishments, concurrently.

University of Guelph

The University of Guelph is a leading comprehensive, research-intensive and learner-centred university.

U of G's students, faculty and staff pursue active inquiry and exercise creativity across a range of disciplines: physical and life sciences, business, arts and humanities, and social, agricultural and veterinary sciences. With nearly 30,000 students, 16 undergraduate degree programs and a \$175-million research enterprise, it is known for excellence in the arts and sciences and for its commitment to developing exceptional thinkers and engaged citizens.

Having established itself as Canada's Food University, the University of Guelph puts knowledge into action and develops the whole student.

Humber College Institute of Technology & Advanced Learning

Opportunity. Partnership. Support. At Humber College, we bring it all to more than 86,000 learners, in person and online. As a global leader in polytechnic education, Humber provides in-depth theoretical learning, hands-on, work-integrated experiences and applied research opportunities to students at three main Toronto locations and beyond.

Extensive industry connections, experienced faculty and a comprehensive range of credentials, including honours undergraduate degrees, Ontario graduate certificates, diplomas, apprenticeships, and certificates prepare career-ready global citizens for success in the future world of work.

Humber takes pride in their alumni success and are with you all the way.

SOCIAL SERVICE WORKER DIPLOMA

from Humber

Get registered

In your final semester, apply for registration as a Social Service Worker with the Ontario College of Social Workers and Social Service Workers.

What will I learn?

Explore current social issues and understand the challenges faced by vulnerable populations so you can learn how to deliver impactful services, such as counselling and mediation. Build strong clinical skills that exceed the industry standard for undergraduate education. Learn basic communication competencies to more in-depth therapeutic interventions while gaining the transferable skills needed to improve lives and change society.

You may choose to focus on one of two areas of emphasis: **Mental Health & Addictions** or **Youth & Families**.

1st year: Focus on understanding human behaviour and issues related to individuals, families and groups.

2nd year: Engage in theoretical and practical studies in counselling, ethical and professional issues, and working with various client populations.

3rd/4th years: Work with diverse groups and learn theory and techniques in areas such as family therapy, case management and crisis intervention. If you're interested in research, you may complete an undergraduate thesis project in your 4th year with the support of a CSS faculty member.

An opportunity to complete the Mental Health Commission of Canada's Mental Health First Aid Certification is available to you at no cost.

HONOURS BACHELOR OF APPLIED SCIENCE IN JUSTICE STUDIES

from the University of Guelph

DIPLOMA IN COMMUNITY AND JUSTICE SERVICES OR POLICE FOUNDATIONS

from Humber

What will I learn?

Get exposed to the justice system: from the rules we follow to dealing with people and communities to the hands-on processing of crime scenes and making arrests. Understand social justice issues, diversity, inclusion and equity, mental health and first aid, and globalization.

Justice is a broad field and your studies will reflect that, ensuring multiple career pathways are open to you. Get the preparation needed for law school. Graduate ready to serve with law enforcement. Maybe corporate affairs and crime analysis is more to your liking. Your four years will open unknown doors.

1st year: Build a foundation in justice and related fields.

2nd year: Begin to take courses that touch on various services and how they are delivered including counselling, conflict resolution, forensics and policing. Decide which diploma to pursue.

3rd/4th years: Move on to advanced courses that immerse you in topics such as ethics; rights and freedoms; youth and the law; and criminology.

Our student-led, justice-focused extracurriculars are outstanding hands-on experience! Work with justice professionals, get exposure to real-life justice matters and build important transferable skills.

What will I learn?

At UofGH, theory partners with hands-on learning to give you the best education in kinesiology.

Learn how the body works and how to make it work better. Learn about health issues, injuries and illness. Develop a strong scientific and theoretical background and apply this knowledge to healthy populations, elite athletes, individuals with chronic diseases and people with physical challenges. Confidently apply your knowledge in any environment, such as health promotion, fitness, rehabilitation, coaching and research.

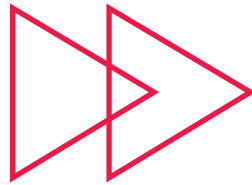

More than half of your courses have a lab component. Every week you'll have lectures and labs will extend your classroom content through applied techniques and hands-on lessons. There are less than 25 students per lab.

1st/2nd years: Learn the fundamentals of the human body, structure and function. Your anatomy class includes studying in a human cadaver lab: a rare undergraduate experience.

3rd/4th years: Courses focus on performance and clinical applications of exercise and nutrition theory, and health and fitness assessment.

- Biomechanics
- Research Methods
- Natural Health Products & Physical Activity
- Motor Learning & Neural Control

Will I get workplace experience?

Yes. You complete **87 or 241 placement hours** as part of your program.

All students complete a placement in 3rd year. On campus, you will work one-on-one with a client to help reach their fitness and health goals. Off campus, you will work with a business or organization offering applied experience. (87 hours)

In your 4th year, choose (a) an off-campus placement (154 hours) and an independent research study or (b) a research thesis project in a lab setting.

Past placements include:

- Athletic and varsity programs
- Cardiac rehabilitation facilities
- Centre for Addiction and Mental Health (CAMH)
- Corporate wellness departments
- Multidisciplinary clinics (e.g., UHN & CBI)

HONOURS BACHELOR OF APPLIED ARTS IN MEDIA AND COMMUNICATION STUDIES

from the University of Guelph

DIPLOMA IN MEDIA COMMUNICATIONS

from Humber

Select a variety of courses that reflect a broad scope or choose to focus your studies through a specialization.

What will I learn?

Forget what you think you know about media.

Yes, today's media is what you listen to, watch, read, scroll and interact with—and our program will teach you to create on all of today's platforms. But media in the 21st century transcends traditional and even new technologies. It's the lifeblood of organizations from governments to charities to multinational corporations to local businesses. It's how they interact with audiences, influence opinion, win elections, sell products and—as it always has—help people learn about and live in the world.

Media and Communication Studies will prepare you for this world with a comprehensive education in the *how* of media—how to write, record, shoot, design and create content. But you'll also learn the *whys* behind the *hows*: *why* ethics are important. *Why* objective reporting is a cornerstone of democracy. *Why* social media is so influential—and so controversial. And *why* “boring” stuff like regulations, copyright and privacy is important.

You'll acquire the tools you need to carve out your unique place in this exciting landscape, completing your education with an exciting capstone—either a publishable undergraduate thesis or a real-world project for an external client.

What are some courses I could take?

- Ethical Issues in Media
- Social Media Issues
- Visual Communication & Design
- Location Photography
- Digital Graphic Design
- Videography
- Client Relations
- Exploring Extended Reality
- Social Media Analytics
- Content Strategy

Will I get workplace experience?

What will I learn?

Examine theories and research exploring human thought, feeling and behaviour. Explore the processes and factors that shape who we become through the study of cognition, emotion and mental health.

A minimum of 70 percent of your core courses are psychology courses: they expose you to the breadth of psychology and all it offers. In your 1st year, you'll build the foundations for developing the characteristics, knowledge and academic skills for success.

Expand your education through unique psychology-focused activities outside of class. Participate in Common Time to enjoy workshops, discussions, guest speakers and support sessions with students from all four years. Present your thesis at a conference such as the Ontario Psychology Undergraduate Thesis Conference with support from faculty. Join the Psi Chi Society—one of six chapters in Canada.

In addition to your honours degree and diploma, you have the option to pursue one of three certificates in years three and four:

- Intercultural Relations
- Organizational Behaviour
- Research Skills and Analysis

This program gives you a broad, but immersive dive into psychology offering you transferable skills and diverse career pathways. Understanding human behaviour makes you a valued asset to employers, in any role.

What else stands out about UofGH?

Current expert knowledge

Our professors keep one foot in the classroom and one in their field to offer you current perspectives and knowledge, and connect you to professionals.

Research as an undergraduate

If research interests you, get to know the many research opportunities inside and outside of class. Get paid and conduct research as a Research Assistant with instructors funded by the University's Research Grant Fund.

- Apply classroom knowledge
- Develop research skills such as data collection, analysis and project management
- Contribute to research publications

Study tours

Through instructor-guided study tours, you experience concepts discussed in class. Because all study tours are partially subsidized by the University, the opportunities are within reach.

You may also be eligible for a UofGH travel grant.

Past highlights include:

- Visiting outdoor classrooms in Odense, an example of Denmark's unique contribution to child development
- Exploring the interplay between sport, health and culture in New Zealand
- Heading to Ecuador to study "eco-psychology" — the attitudes, perceptions and behaviour of people toward the environment

A step ahead

After graduation, take advantage of our partnerships for further education:

- LLB with The City Law School (London, England)
- LLM with University of London (distance learning)
- MSc in Management with the University of Guelph (Guelph, Ontario)

Competitions and conferences

Make an impact and gain hands-on experience through competitions and attending conferences in your area of study. Being involved gets you out in the field networking, using your skills, honing your talents and earning recognition.

Work on campus

There are hundreds of jobs on campus, from athletics to office admin. Program-specific jobs include CSI Forensic Assistant, ECS Resource Centre Coordinator and Kinesiology Lab Technician Assistant.

Work around your class schedule to earn money, valuable experience and network.

Campus Life

First Year Experience (FYE) program

Kick start your transition into the University with a group of first-year students in your program. Your FYE Leader (a senior student) will be your mentor through year one.

Participate in programs and events, such as Orientation, designed for you to meet people and get acquainted with everything UofGH.

Societies, clubs, student government

Go beyond your classes. Be a part of activities that motivate you and build your resumé—in societies, clubs, student government and other campus groups/events. Become a member or take a leadership role, such as Vice-President of Communications or President in a club or society.

A great way to meet people who share your passions. Whether your intention is to kick back and have fun or take a more serious interest, doing things outside of class is a win-win.

Commuting

Need options for travelling to campus? Bus routes—TTC, MiWay, Brampton Transit, York Region—that cross the GTA stop in the transit terminal loop on campus. Coming soon: Finch West LRT.

Varsity sports

Compete against other universities and colleges in the province and throughout the country. You can try out for either the University of Guelph Gryphons or Humber Hawks.

Athletics and recreation

Find your preferred sport or fitness activity at UofGH—recreational, intramurals or extramurals. Or take a walk in the arboretum.

Residence

Interested in living on campus? You can apply for residence once you receive an offer of admission. Residence applications for fall open online in February 2024. Residence operates on a first-come, first-served basis. Deadline to apply is June 3, 2024.

First-time residents receive single-style rooms. Be two minutes from class!

Admission Terminology

Select your applicant type (page 32).

For each applicant type, admission requirements may vary.

Admission average: For high school applicants, your admission average is calculated using your top six 4U/M courses (or equivalent), including your subject requirements. This average is calculated using the most current grade data available to us through the admission process.

Estimated cut-off admission range: Estimated cut-off ranges are based on the admission averages from previous years and are provided as a point of reference. Exact cut-offs for the current admission cycle will be determined by the quantity and quality of applications received and the number of spaces available in the respective program. Possession of an admission average within the estimated cut-off range does not guarantee an offer of admission. If you have been educated outside of Canada, your eligibility will be assessed on an individual basis.

Offers of admission: Offers are sent on an ongoing basis from December until the end of May (see table below). All applicants will receive an admission decision by **May 29, 2024**. Your final grades, once received, must fulfill the conditions of your offer. Ontario and BC high school applicants can check the grade data sent through their OUAC account.

Student Profile (SP): The Student Profile offers you an opportunity to tell us about factors that may have impacted your grades. Optional to complete.

Supplementary Information Form for Students with Disabilities (SIF-D): If you identify as a student with disabilities and your admission average does not meet the cut-off for the program to which you have applied, your SIF-D may be considered if your average is within a discretionary range of the determined cut-off (up to 5%). If you have an admission average of 70–74.9%, it is strongly recommended that you submit a profile to be considered for admission. Optional to complete.

For full details and to complete your SP or SIF-D, visit guelphhumber.ca/futurestudents/student-profile. Deadline is **March 1, 2024**.

Admission Average Calculation & Timing of Offers	Who Receives an Offer
<p>December to Late February</p> <p>We use your top six completed 4U/M (or equivalent) courses, including required subjects. Where not available, we use a combination of the top six completed or in-progress 4U/M and completed 3U/M courses, including required subjects.</p> <p>Should no 4U/M courses be completed or in-progress, the top five 3U/M completed courses (including required subjects) will be used.</p>	<p>Offers in this round are typically made to applicants whose admission average exceeds the estimated cut-off.</p>
<p>Early March to Mid-May</p> <p>We use your top six completed 4U/M (or equivalent) courses, including required subjects. Where not available, we use a combination of the top six completed or in-progress 4U/M and completed 3U/M courses, including required subjects.</p>	<p>Early March-Late April: Offers in this round are typically made to applicants whose admission average is near the top of the estimated cut-off range.</p> <p>Mid-May: Offers in this round are made to applicants whose admission average is within the estimated cut-off range.</p>

Repeated courses, summer school, night school and correspondence: The University will use the highest grade reported for grade 12 courses taken at a Ministry-approved school prior to June 2024, regardless of format.

Deferrals: Application available in June; please visit guelphhumber.ca/futurestudents/how-apply for detailed deferral information.

English language requirements: If your first language is not English, or if you have completed less than four years of study in English at the secondary (or postsecondary) level, then you are required to submit proof of English proficiency. For full details, please visit guelphhumber.ca/futurestudents/english-language-requirements.

You will receive an email with detailed instructions (after you apply) if you are required to demonstrate English proficiency as part of your application.

International Baccalaureate (IB)

- Minimum academic score of 24
- Reported bonus points will be taken into consideration
- Three Higher Level and three Standard Level courses, including specific subject requirements for the program to which you are applying
- Any Higher Level or Standard Level mathematics course is acceptable for programs that require math

You are eligible to receive a maximum of 2.0 credits for grades of 5 or better on Higher Level courses.

For full details, please visit guelphhumber.ca/futurestudents/ib-and-ap-requirements.

Advanced Placement (AP)

- Exam results of four or more may qualify for credit to a max of four courses (2.0 credits)

Please visit guelphhumber.ca/futurestudents/ib-and-ap-requirements.
