A COMBINATION FOR SUCCESS

Welcome to the University of Guelph-Humber

The University of Guelph-Humber is a new and exciting educational opportunity in Toronto. A timely and innovative option in post-secondary education, the University of Guelph-Humber builds on the combined strengths and traditions of the University of Guelph and Humber College — two of Ontario's leading educational institutions.

The benefits of both university and college are integrated into our program offerings. We are proud to provide the liberal education of a university honours degree along with the applied knowledge of a college diploma, all in just four years.

Our programs have been designed to meet the emerging demands of employers for strategic skills, including critical thinking, communications, computer expertise and leadership. We have consulted with industry leaders to develop a rigorous curriculum that leads to the world of work, university-level graduate study, or professional schools.

You will interact with the professional world through career placements and industry-linked projects, and will be guided by many of the best faculty from both Guelph and Humber — leaders in research and education.

We have combined the best of both worlds — an honours university degree and an applied college diploma — to prepare you to meet the challenges of the future.

We wish you the best in your educational pursuits.

Mordechai Rozanski

President
University of Guelph

Robert A. Gordon

President
Humber College

HOW DO YOU BENEFIT?

To offer you the benefits of an honours degree and an applied diploma in just four years, we have built our curriculum from the ground up. We have designed our programs to:

- ensure each course is at a university level and maintain the principles of a broad-based liberal education
- incorporate Guelph's respected learning objectives
- embed the values of Humber's employability skills
- integrate theory and practice as preparation for the workplace and graduate work
- maximize study time by integrating classroom and e-learning
- introduce an experiential component that reinforces learning outside the classroom.

A PLACE TO CALL YOUR OWN

An art gallery, innovative learning spaces and virtually unlimited access to the Internet — these are just some of the exciting features incorporated into the design of the new University of Guelph-Humber building. Created with more than \$30 million in support from the Ontario government's SuperBuild Growth Fund, the facility is custom-made — just like everything else about the University.

Your first year at the University of Guelph-Humber will be spent in Humber College facilities. By the fall of 2003 — the beginning of your second year — you will walk through the front entrance of your new academic home, with its stunning four-storey atrium. The classrooms and lecture theatres are designed specifically to meet the needs of the programs we're offering.

A.J. Diamond, Donald Schmitt and Company

THE CITY ADVANTAGE

Toronto is a dynamic city — a great place to live and learn.

Attending university in Canada's cultural, economic and business centre can play an important role in your co-op and internship opportunities. After a long day of study, there are so many things to do — from films and festivals to sporting events and nightlife.

On the second floor, you'll find the learning commons — an area with computers, Internet portals, a help desk and a cyber café. A glass walkway connecting the building to Humber College means you will have easy access to Humber's extensive facilities, including the recreation centre and library. And our beautiful arboretum is only a short stroll away for your enjoyment.

Designed for a Toronto-based student body, this new University facility will give you space to work on projects and explore the wired world, while providing places to relax and meet with friends.

Our campus is conveniently located near Highway 427 and Finch Avenue and close to the Highway 407. Buses link you to downtown Toronto, Mississauga and Brampton and stop right in front of the campus. Don't forget, you'll be "virtually" linked to the University of Guelph's library, classrooms and faculty.

Many University of Guelph-Humber students will save on education costs by living at home. Others will find nearby off-campus accommodation. We'll help you locate the type of housing most suited to your needs, and encourage you to visit either our web site at www.guelphhumber.ca or use the off-campus housing information page at <http://www.humberc.on.ca/residence/offcampus>.

As a graduate of both the University of Guelph and Humber College, Sarah Dolbey is in a unique position to discuss the value of having both a degree and a diploma in the competitive new workforce.

"I would have attended the University of Guelph-Humber if it had been an option when I was choosing post-secondary schools," she says. "My employer specifically interviewed me because of my Humber certificate and Guelph degree. I wish I could have earned these two credentials in only four years — and in a great city like Toronto."

Sarah Dolbey

University of Guelph, Honours Bachelor of Commerce
Humber College, Public Relations Certificate

CREATE YOUR OWN EXPERIENCE

Life doesn't stop at the classroom door. As the first class of University of Guelph-Humber, we'll encourage you to initiate your own events, clubs and activities and to begin creating traditions. It's your chance to have the kind of student life you really want. You can take part in one of the many clubs already offered by Humber, like the Latino Cultural Organization or the Writer's Circle. Lots of entertaining events take place throughout the year, such as the annual Battle of the Bands!

If you're interested in varsity sports, try out for either the Guelph or Humber team of your choice. Or join in the many intramural teams that Humber has to offer, from badminton to basketball. If a private workout is more your style, try the newly renovated and expanded Humber College Recreation Centre.

SCHOLARSHIPS AND FINANCIAL SUPPORT

Academic Merit Entrance Scholarships

- Scholarships of \$500 - \$3000
- Award guaranteed to students with an admission average of 80% and higher
- Applications are not required

Need-Based Scholarships

- Awards of \$500 - \$1000
- Based on academic merit and demonstrated financial need
- Application forms distributed early in the calendar year

Financial Support

A variety of assistance is available for University of Guelph-Humber students with financial need. This includes the Ontario Student Assistance Program (<http://OSAP.gov.on.ca>), University of Guelph-Humber Grants and a Work-Study program that will provide you with financial support and an experiential learning opportunity.

Tuition and Fees

The tuition and other fees for these combined honours degree and diploma programs will be set in the near future and will be competitive with the costs of other university degree programs offered in the Toronto area. Considering our graduates receive an honours degree and an applied diploma in just four years of study, University of Guelph-Humber offers outstanding value for your education dollar.

APPLICATION INFORMATION

- You must apply to the University of Guelph-Humber through the Ontario Universities' Application Centre (OUAC). University of Guelph-Humber programs will be listed in the University of Guelph section of the application. If you are currently enrolled in an Ontario secondary school, apply with the OUAC 101 form (available from your school's guidance office.) All other applicants may contact the OUAC directly at <http://compass.ouac.on.ca>.
- The order of choice on the university application form makes no difference for admission unless you are applying for more than one program at the University of Guelph-Humber. In that case, University of Guelph-Humber will consider your highest-choice program first.

ADMISSION REQUIREMENTS

• Ontario Academic Credit Requirements (OAC)

Applicants must present their Ontario Secondary School Diploma (OSSD), including a minimum of six OACs and the specific subject requirements for the degree program of interest. OAC English I is required for all degree programs. (OAC Anglais can be used for applicants from Ontario French secondary schools.)

- Applicants from outside the Ontario secondary school systems must present academic standing equivalent to Ontario students

and satisfy the specific subject requirements for the program desired. Please visit our web site at www.guelphhumber.ca for more information.

• Advanced Placement

Applicants who have completed Advanced Placement examinations with a minimum grade of four will be eligible to receive university credit to a maximum of two credits, subject to the discretion of the Admissions Committee. Transfer credit will be assigned once official final transcripts have been received by the University of Guelph-Humber.

• International Baccalaureate

Students applying with an International Baccalaureate (IB) diploma should present a minimum score of 24. Currently enrolled IB candidates should submit predicted IB final results. Applicants should have completed the diploma with six subjects: three higher-level and three standard-level. Students should also include the specific subject requirements for the program to which they are applying among their higher and standard levels. Transfer credit may be given for higher-level courses with grades of five or better. These credits will be assigned once official final transcripts have been received by the University of Guelph-Humber.

• English Proficiency

Applicants for admission will be required to present evidence of English proficiency if their primary or first language is not English and they have had less than four years of full-time secondary school study in an English-language school system. Applicants required to provide evidence of English proficiency must do so by submitting the required scores in (1) or (2) or (3) below:

1. The International English Language Testing System (IELTS) with a minimum overall score of 6.5 with no band less than 6.
2. The Test of English as a Foreign Language (TOEFL) with a score of 600 (paper-based) or 250 (computer-based), and Test of Written English (TWE) with a score of 5 and Test of Spoken English (TSE) with a score of 50. This TOEFL standard is currently under review at the University of Guelph-Humber. We may consider your application if you have achieved a score of 573 or higher (paper-based) or 230 or higher (computer-based) and TWE 4.5.
3. The Michigan English Language Assessment Battery (MELAB) — minimum overall score of 85, including composition score of 83 and oral score of 3.

Recommendations and Notes:	Advanced Functions and Introductory Calculus recommended	1 additional math credit recommended	Portfolio of relevant writings or other creative work, media productions, etc. required

GUARANTEED ADMISSION

We will make admission decisions for the fall 2002 entering class using as much information as possible, including second-semester mid-term results and supplemental information submitted on Student Profile Forms which are mailed to applicants in February. Admission averages will include the required courses for the program to which you have applied. Students applying after April 15, 2002, may be required to have a higher average, depending on availability of space in the program.

You will be guaranteed automatic admission if you meet ALL these conditions:

- you are a secondary school student
- your application is received prior to April 15, 2002
- your admission average meets those published above
- you will have completed six OACs and the OSSD (or equivalent) as well as any specific program prerequisites prior to registration.

Your admission average will be based on OAC grades only (Ontario), including specific subject requirements. All offers of admission will be conditional upon a minimum admission average of 70% on final grades, including required courses.

STUDENT PROFILE FORM

The Student Profile Form (SPF) is your opportunity to tell the Admissions Committee about activities in which you have been involved that have helped you develop leadership and citizenship qualities. Factors beyond your control that may have negatively affected your academic performance, such as illness or personal problems, will be considered when making admission decisions. If your admission average does not meet the guaranteed admission average for your degree program, your SPF will be considered as long as your grade average falls within the range for consideration. Applicants choosing to submit the SPF must do so by April 1, 2002.

BACHELOR OF BUSINESS ADMINISTRATION AND DIPLOMA IN BUSINESS ADMINISTRATION (INTERNATIONAL BUSINESS, FINANCE, MARKETING)

Are you interested in a business education that combines practical cases and assignments with traditional theory? Are you interested in learning by doing? Do you want to study in Toronto — Canada's largest business centre? If so, the Business Administration program at the University of Guelph-Humber is for you. You'll study with the best and gain skills in areas such as accounting, economics, finance and business policy and law. Our focus on experiential learning emphasizes strong links with employers and the development of the business skills required in Canada and internationally.

"BUSINESS STUDIES AT THE UNIVERSITY OF GUELPH-HUMBER IS A POWERFUL COMBINATION THAT ALLOWS STUDENTS TO GAIN THE THEORY AND SKILLS THEY NEED TO BE SUCCESSFUL IN THE WORKPLACE."

Prof. John Walsh
*Associate Dean
Faculty of Management
University of Guelph*

After building a general business foundation in your first two years, you'll begin to specialize in years three and four in areas such as international business, finance and marketing. At graduation, you'll have the expertise and skills to gain an edge in the competitive world of business or to go on to graduate work.

Our faculty includes business scholars and practising business professionals who set the pace in their areas of expertise. From their ongoing professional development and consulting activities, they will bring the latest business strategies back to you.

"AS AN EMPLOYER OF BUSINESS GRADUATES, I AM DELIGHTED TO SEE THESE TWO LEADING INSTITUTIONS COLLABORATING ON THIS EXCITING NEW VENTURE."

Gail Kilgour
*Senior Vice-President
e-Business Strategy
CIBC*

BACHELOR OF APPLIED COMPUTING AND DIPLOMA IN COMMUNICATION SYSTEMS TECHNOLOGY

Wireless communication is an integral part of our everyday lives. Most of us have a cellphone or pager or both. Meetings are scheduled in electronic organizers. There's a device for cars that can provide directions, call 911 on your behalf and tell you a great place for dinner in a new city. And this is only the start of the new electronic age.

Telecommunications — the technology of the 21st century — is an industry in search of qualified employees trained in both computer science and communications. The Distributed Computing and Communication Systems Technology co-op program at the University of Guelph-Humber is the first program to address this need.

"THE TWO EIGHT-MONTH CO-OP TERMS IN OUR PROGRAM WILL PROVIDE DIRECT INDUSTRY EXPERIENCE AND VALUABLE CONTACTS. STUDENTS WILL HAVE THE ADVANTAGE OF TESTING AND APPLYING CLASSROOM THEORY BEFORE THEY GRADUATE."

Prof. Philip Anderson
Program Coordinator
Wireless Communications Technology
Humber College

Rarely will you have the opportunity to study the convergence of computing and telecommunications in a single program.

You'll learn with award-winning faculty like Prof. David Swayne, who has been named in *Maclean's Guide to Canadian Universities and Colleges* as one of the most popular professors at the University of Guelph.

Most university degree co-op programs take five years to complete. By integrating work terms into the curriculum, you'll finish this co-op computing degree and the communications diploma program in only four years plus one semester. Starting in the fall of second year, you'll participate in the first of two eight-month co-op work terms, putting the theory you've been learning in the classroom to practical use.

You will have access to state-of-the-art facilities such as an anechoic chamber to study antennae range for hands-on experiments in communications technology. What's more, partnerships with companies like Agilent have brought us leading-edge wireless equipment for experiments, testing and other applications. Sun workstations and X-Window terminals are among the high-end technological equipment at your disposal. Employers will value the education you've received, and you'll be in demand as you enter the wireless industry.

"THE PROGRAM AT THE UNIVERSITY OF GUELPH-HUMBER IS ATTRACTIVE TO COMPANIES LIKE AGILENT FOR MANY REASONS. THESE STUDENTS WILL HAVE AN EXCELLENT FOUNDATION IN THE FUNDAMENTALS OF COMMUNICATION SYSTEMS. THE HANDS-ON EXPERIENCE USING LEADING-EDGE EQUIPMENT WILL ALLOW THEM TO MAKE A SEAMLESS TRANSITION FROM SCHOOL TO THE WORKPLACE."

Joe Dren
Test & Measurement
Agilent Technologies

BACHELOR OF APPLIED ARTS (MEDIA STUDIES) AND DIPLOMA IN JOURNALISM OR PUBLIC RELATIONS

"THESE DAYS THE MEDIA IS MORE IMPORTANT THAN EVER BEFORE, AND WELL-EDUCATED PEOPLE ARE IN DEMAND. THE STUDENTS OF THE UNIVERSITY OF GUELPH-HUMBER MEDIA STUDIES PROGRAM WILL HAVE ACCESS TO STATE-OF-THE-ART EQUIPMENT, TOP FACULTY AND WORK PLACEMENTS THAT WILL GIVE THEM A COMPETITIVE EDGE IN THIS EXCITING FIELD."

Prof. Judy Charles
*Program Coordinator
Media Foundation Program
Humber College*

When the world is watching, what will you say?

The Media Studies program at the University of Guelph-Humber will teach you all you need to know about the world of media. You will acquire practical media skills, as well as an understanding of related cultural contexts and theoretical and ethical issues. In addition to an honours degree in Media Studies, you will gain a diploma in either journalism or public relations.

Understanding media has become an important intellectual and professional endeavour around the world. The media sector is booming, and there's a demand for a trained and educated workforce. The powerful combination of Humber's internationally renowned media programs and Guelph's diverse and well-established arts programs will have employers seeking out our graduates.

You will have excellent opportunities as the media sector continues to expand in Canada and around the world. Toronto is the only city in North America with four daily newspapers. In addition, there are literally thousands of magazines and an ever-expanding number of channels available through the electronic media. And the explosion of the Internet has heralded the creation of "online" media, streaming video and Webcasting, creating almost limitless career possibilities.
